

U.S. ENVIRONMENTAL PROTECTION AGENCY  
Office of Pesticide Programs  
Registration Division (7505C)  
Ariel Rios Building  
1200 Pennsylvania Ave., NW  
Washington, D.C. 20460

EPA Reg.  
Number:

64240-37

Date of Issuance:

JAN 20 2000

Term of Issuance:

Unconditional

Name of Pesticide Product:

Combat Ant Bait F3

**NOTICE OF PESTICIDE:**

Registration  
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Combat Insect Control Systems  
c/o PS & RC  
P.O. Box 493  
Pleasanton, CA 94566-0803

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA sec. 3(c)(5). Once a pesticide is registered, however, it is not regarded as permanently acceptable. Registration does not eliminate the need for continual reassessment of pesticides. If the Agency determines that, at any time, additional data are required to maintain in effect an existing registration, the Agency will require submission of such data under FIFRA section 3(c)(2)(B).

1. Make the following label changes:

- a. Revise the EPA Registration Number to read "64240-37".
- b. All references to "ants outdoors" or "outdoor ants" must make clear that the "outdoors" is adjacent to the home.
- c. References to using all 6, 12, or 18 bait stations are acceptable as long as they do not exceed the number of bait stations in the package.

Signature of Approving Official:

*Ann Schold for*

Marion J. Johnson, Jr.  
Product Manager 3  
Insecticide Branch  
Registration Division (7505C)

Date:

JAN 20 2000

2. A corrosion characteristics study is required.

3. The three Child Resistant Packaging (CRP) Certifications dated July 8, 1999 are acceptable and have been included in the file jacket for this registration.

4. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

### EFFECTIVENESS GUARANTEED:

COMBAT® stands behind this insect killing system with a full Satisfaction Guarantee. Should you have any questions regarding Combat®, please call 1-800-426-6228.

**Guaranteed to work or your money back!**

### DIRECTIONS FOR USE:

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

Use all 6 baits. Break baits apart. Do not remove or puncture label on bait station. Place baits near ant trails or where you frequently see ants. Place additional baits anywhere ants may enter your home.

For best results do not interfere with the ants or the bait stations during use. Do not use sprays on or around the bait stations.

Replace baits every 3 months to keep ants from returning.

**DISPOSAL:** Wrap bait stations in several layers of newspaper and discard in trash.

-or-

**STORAGE AND DISPOSAL:** Do not contaminate water, food or feed by storage or disposal. Do not remove baits from [bait] station[s]. Wrap bait stations in several layers of newspaper and discard in trash.

- This product contains a totally unique insecticide ingredient which kills most ants commonly found in households -or- homes. This product is effective because ants carry bait back to where they live to destroy queen and entire colony. It even kills ants [you don't see] outside (adjacent to) your home to prevent more ants from coming inside.
- This product kills ants which feed on sweet and greasy materials such as Fire, Argentine, Black Carpenter, Cornfield Ants, Little Black, Odorous House, and Pavement Ants.
- This product is effective because ants carry bait back to the colony to kill the queen and entire colony. -or- Ants carry the bait back to where they live to kill the Queen and entire colony.
- This product is easy to use and has no insecticide odor.
- Child Resistant

### THIS IS HOW THE COMBAT® ANT BAIT F3 WORKS:

To prevent ants from coming indoors, place bait station -or- stake every 15 to 20 feet around [the perimeter of] your home

For more information, call the Combat® Labs Information Helpline at 1-800-426-6228. -or- [For questions or comments, please c] [Call the Combat® Labs [Information] Helpline at 1-800-426-6228 [for more information].

### [Additional, optional text for DIRECTIONS FOR USE]:

(Note: do not remove or puncture white label on bait stations.)

1. [Remove wrapper.] Break COMBAT bait stations apart from plastic frame. [Tear along perforation lines.] Do not remove or puncture label on bait stations. [Now the baits are ready to use.] Use all 6 -or- 12 bait stations at the same time for thorough control.

-or-

Break child-resistant bait feeding stations apart from the frame. Do not remove or puncture label on bait stations. For thorough ant control, use all 6 -or- 12 stations at the same time.

-or-

Remove wrapper and break bait stations apart. Do not remove or puncture the label on bait station[s]. The baits are now ready to use. Use all [6 -or- 12] [ant] baits at the same time for thorough control.

2. [Simply] place each bait station by -or- near ant trails or close to areas where ants are numerous -or- where you frequently see ants. [Inside.] COMBAT can be placed i. cabinets, next to dishes, or anywhere your ant problem occurs. Do not spray the bait stations. [Sprays will contaminate the baits and reduce their effectiveness.] Place additional COMBAT bait stations near cracks, along sills or anywhere that ants might -or- may enter your home.

-or-

For general control of ants outdoors and to prevent them from coming indoors, place a bait station every 15-20 feet around the perimeter of your home. Place additional COMBAT bait stations near cracks or crevices, along sills, or anywhere ants may gain entry indoors -or- that ants might enter your home. Do not spray insecticide on or around the bait stations.

3. Outside (adjacent to) your home, place additional COMBAT bait stations near cracks and crevices, along sills, or anywhere ants may gain entry

-or-

Secure stations to the ground by pushing the stake through the hole in the corner of the station and into the ground. TIP: The bait will be held more securely if the stake is pushed all the way in with the arm of the stake firmly on the lid of the bait station.

-or-

Stations may be secured to the ground by pushing the stake through the hole in the corner of the station. The stake may be hammered in place if necessary. The station will be held more securely if the stake is pushed all the way in with the arm across the top of the station.

-or-

Increased ant activity may be seen near the bait stations for short periods, but you can expect to see less activity within a day -or- a few days -or- a week. TIP: For best results, do not

interfere with the ants or the bait stations because ants must carry bait back to the nest to kill the queen and the entire colony.

4. Increased ant activity may be seen near the bait stations for short periods, but you can expect to see less activity within a day -or- a few days -or- a week. [TIP:] For best results, do not interfere with the ants or the bait stations because ants must carry bait back to the colony -or- nest to kill -or- destroy the queen and the other ants -or- the entire colony.

-or-

Increased ant activity may be seen near the bait stations for short periods, but you can expect to see less activity within a day. For best results, do not interfere with the ants or the bait stations because ants must carry bait back to the nest to kill the queen and the entire colony.

-or-

For continuous control of ants, replace all bait stations after 6 weeks of use outdoors.

-or-

Do not spray on or around the bait stations. Sprays will contaminate the baits and reduce their effectiveness.
