PRECAUTIONARY STATEMENTS: HAZAROUS TO HUMANS AND DOMESTIC ANIMALS. PROLONGED OR FREQUENTLY REPEATED SKIN CONTACT MAY CAUSE ALLERGIC REACTIONS IN SOME INDIVIDUALS. CAUTION: Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes and clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling.

PHYSICAL OR CHEMICAL HAZARDS: Do not use this product in or on electrical equipment where a possibility of shock hazard exists. FIRST AID: IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment. COMBAT Insecticide Helpline: 1-800-426-4229.

USE ONLY IN AREAS NOT EASILY ACCESSIBLE TO CHILDREN AND PETS. Avoid contact with textiles and clothing, as bait may stain. STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. STORAGE: Store in a cool, dry area out of reach of children. DISPOSAL: If empty: Do not reuse this container. Recap syringe and place in trash. If partly filled: Recap syringe and call your local waste agency or toll free number 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

COMBAT. ANT KILLING GEL

- Kills ants at the source
- Preferred food form for ants
- Works within hours and up to 1 month
- Effective against Argentine, Carpenter, Cornfield, Pharaoh, White Footed, Odorous House, Pavement and Little Black Ants

This product provides FAST CONTROL of ants in 3-5 days. That's because this product contains Fipronil, a fast-acting active ingredient. Its speed is slow enough, however, for foraging ants to return to the colony and feed the bait to larvae and queen(s) so that the entire colony is killed through the Domino Effect.SM

GUARANTEED TO WORK OR YOUR MONEY BACK!

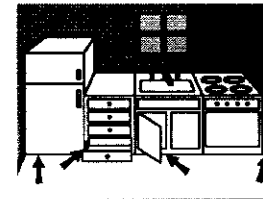

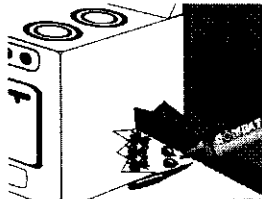

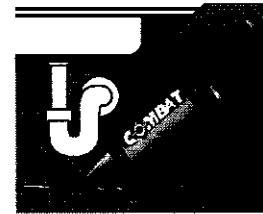

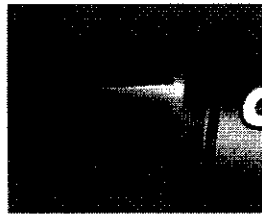

Call the CombatSM Inks helpline at 1-800-426-6228 for information.

The paperboard in this carton contains 100% recycled fiber (minimum 35% post-consumer content).

DIRECTIONS FOR USE:

IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

Keep exposed gel away from open foods and food contact surfaces.

- 1 To apply gel:** Remove cap from tip, touch tip to surface and depress plunger. Place gel in areas of suspected ant activity, next to ant trails and near ant nests. **Avoid applying gel in direct sunlight.**
- 2** Apply gel in spots in cracks and crevices. For best results, make many spots or dabs of gel where you see ants foraging and entering the structure.
- 3** Do not apply gel to areas which have been recently sprayed with insecticide or contaminated with foggers, and do not spray insecticide over gel as this may cause the bait to become repellent.
- 4** Inspect placements and reapply as needed.

FOR INDOOR USE: Visually inspect for ants and place gel in areas where you see ants. Do not place bait in locations that are frequently washed, as bait will be removed by washing. Do not treat food preparation surfaces. Do not use this product in or on electrical equipment where a possibility of shock hazard exists. **FOR OUTDOOR USE:** Place gel outdoors into, on or adjacent to structures where you see ants, next to ant trails and suspected areas of ant activity. You will notice fewer ants in days.

4/10

PRECAUCIONES: PELIGROSO PARA PERSONAS Y ANIMALES DOMESTICOS. EL PROLONGADO O REPETIDO CONTACTO CON LA PIEL PUEDE CAUSAR REACCIONES ALERGICAS EN ALGUNOS INDIVIDUOS. **ATENCIÓN:** Puede ser peligroso si es ingerido. Evite el contacto con piel y ropa. Mantener el gel aplicado lejos de comida que este afuera y de superficies en donde se prepara comida. Lavarse bien las manos después de haber tocado el producto. **PELIGRO FÍSICO O QUÍMICO:** No usar este producto en o sobre equipos electrónicos en donde pueda ocurrir un shock eléctrico.

PRIMEROS AUXILIOS: EN CASO DE CONTACTO CON PIEL O ROPA: Quitarse la ropa contaminada. Enjuagar la piel inmediatamente con abundante agua por 15-20 minutos. Llamar a un centro asistencial de control de veneno o a un doctor para recibir tratamiento adecuado. Tenga el envase del producto o etiqueta consigo cuando llame al centro asistencial de control de veneno, al doctor o al recurrir al tratamiento. **EN CONTACTO CON OJOS:** Mantener el ojo abierto y enjuagar lento y delicadamente con agua por 15-20 minutos. Con lentes de contacto, dejarlos por 5 minutos, luego quitarlos y continuar enjuagando el ojo. Llamar a un centro asistencial de control de veneno o a un doctor para recibir tratamiento adecuado. Tenga el envase del producto o etiqueta consigo cuando llame al centro asistencial de control de veneno, al doctor o al recurrir al tratamiento. **Línea de Ayuda para Información COMBAT: 1-800-426-6228. USAR SOLAMENTE EN AREA DE DIFÍCIL ACCESO A NIÑOS Y MASCOTAS.** Evitar el contacto con telas y ropa, ya que el gel puede manchar. **DONDE GUARDAR Y TIRAR:** No contaminar agua, comida o alimentos a guardar o tirar el producto. **ALMACENADO:** Guardar en un lugar fresco y seco. No exponer a temperatura mayor de 80°F o 100°F. Mantener alejado del alcance de niños. **DONDE TIRAR:** Si el producto está vacío: No reusar el envase. Tapar la jeringa y colocar en la basura. Si está semi vacío: Tapar la jeringa y llamar al servicio de basura mas proximo o al numero gratis 1-800-CLEANUP para obtener instrucciones. Nunca colocar el producto no usado en cualquier canería interna o externa.

- Mata las hormigas y su procedencia
- Alimento preferido por hormigas
- Elimina las hormigas en horas y hasta por 1 mes
- Efectivo contra Argentine, Carpenter, Cornfield, Pharaoh, White Footed, Odorous House, Pavement y Little Black Ants

Este producto proporciona un Control Rapido de hormigas de 3 a 5 días.

Contiene Fipronil, un ingrediente activo de rapida acción. Su velocidad es lenta, de manera que las hormigas que regresan a la colonia alimentan con el cebo a larvas y reina(s) con el cebo matando así a toda la colonia por el Efecto Domino™.

EFFECTO GARANTIZADO O LE DEVOLVEREMOS SU DINERO!

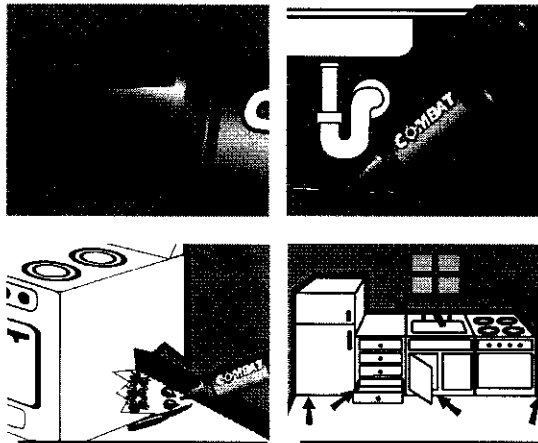

Llamar a la LINEA DE AYUDA COMBAT® al 1-800-426-6228 para mayor información.

El papel en este carton contiene un 100% de fibra reciclable (un minimo de 35% después del contenido del consumidor).

MODO DE EMPLEO:

SE CONSIDERA UN VIOLACIÓN A LA LEY FEDERAL USAR ESTE PRODUCTO CON FINES OTROS QUE LOS INDICADOS EN LA ETIQUETA.

Mantener gel lejos de los alimentos y superficies donde tensa alimentos.

1 Aplicación: Quitar la tapita. Aplicar el gel en las superficies presionando el disparador. Aplicar el gel en areas donde se cree que circulan hormigas, cerca de sus sendas y cerca de sus hormigueros. **Evite aplicar el gel a la luz del sol.**

2 Aplicar el gel en lugares como grietas y hendiduras. Para un mejor resultado, distribuir el gel haciendo marcas en lugares donde se ven hormigas circulando y entrando a una estructura.

3 No aplicar el gel en areas que han sido tratadas con aerosoles insecticidas o contaminadas con fumigadores, ni aplicar aerosoles insecticidas sobre el gel ya que esto eliminaria su efectividad.

4 Inspeccionar las aplicaciones y reaplicar como sea necesario.

PARA USO INTERNO: No aplicar el gel en areas que se limpian frecuentemente porque de esta forma se elimina el cebo. No colocar el tratamiento en superficies donde se prepara comida. No usar este producto en o sobre equipos electronicos en donde pueda ocurrir un shock electrico. **PARA USO EXTERNO:** Colocar el gel afuera, en o junto a estructuras donde vea hormigas, cerca de sendas de hormigas y en areas donde se cree que circulan hormigas. Notara menos hormigas en pocos dias.

GENERAL INFORMATION

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

optional claims for front or back:

- | | | | |
|--|--|--|---|
| <ul style="list-style-type: none"> • Fast killing formula • First specially formulated [Carpenter] Ant gel • Elimination [Control] within 3-5 days • Kills [Carpenter] Ants and the colony • Gain control of your [Carpenter] Ant problem | <ul style="list-style-type: none"> • Works within hours and up to 1 month • Unique [Carpenter] Ant Formula • Visible results overnight • Starts killing [Carpenter] [Ants] in hours • Fast acting formula that quickly kills [Carpenter] Ants • Provides control of [Carpenter] Ants | <ul style="list-style-type: none"> • Preferred food form for [Carpenter] Ants • Kills [Carpenter] Ants in the colony • Effective against Carpenter, Pharaoh, Argentine, Ghost, Acrobat, Big-Headed, Cornfield, Field, Odorous House, Thief, Pavement, White Footed, Little Black Ants | <ul style="list-style-type: none"> • Satisfaction or Quality guaranteed • Kills [Carpenter] Ants at the source • With Fipronil! • [Store below 80° F -or- 100° F] |
|--|--|--|---|

end of optional claims for front or back:

This product provides FAST CONTROL of [Carpenter] Ants in 3-5 days.

This product is formulated to effectively control [Carpenter] Ants. That's because this product contains Fipronil, a fast-acting active ingredient. Its speed is still slow enough, however, for foraging ants to return to the colony and feed the bait to larvae and queen(s) so that the entire colony is killed through the Domino Effect™.

[When exposed to higher temperatures (above 80° F) for extended periods of time, the gel will change color and lose effectiveness. If the gel inside the tube is darker than the color bar below, do not apply.]

APPLICATION INSTRUCTIONS

[This package [insert] should be in possession of applicator.] Application rate is dependent on level of infestation and species to be controlled. Bait should be applied as spots.

Keep exposed gel away from open foods and food contact surfaces.

Optional Text:

Tips for Best Results:

- Do not spray insecticides or smoke around gel bait
- Clean greasy or dirty surfaces before placement
- In more open areas, such as walls and floors, inside cabinets, and near food, also use Combat Quick Kill Formula 3 Baits for maximum ant control
- Do not use strong cleaners around bait placements.

1. Inspect for ants: Place gel in areas of suspected ant activity, next to ant trails and near ant nests. **Avoid applying gel in direct sunlight.** Gel can be placed in cracks, crevices, corners and areas, such as under and behind kitchen appliances, along baseboards, under sinks, in pantry, around pipes and water heater and in the garage and attic.
-or-
1. To apply gel: Remove cap from tip -or- break tip off, touch tip to surface and depress plunger. Recap tube after use.
2. Apply gel in spots in cracks and crevices. For best results, make -or- place many spots or dabs of gel where you see ants foraging and entering the structure.
3. Do not apply gel to areas which have been recently sprayed with insecticide or contaminated with foggers, and do not spray insecticide over gel as this may cause the bait to become repellent.
4. Inspect placements and reapply as needed.

For indoor use: Visually inspect for ants and place gel in areas where you see ants. Do not place bait in locations that are routinely -or- frequently washed, as bait will be removed by washing. Do not treat food preparation surfaces. Do not use this product in or on electrical equipment where a possibility of shock hazard exists.

For outdoor use: Place gel outdoors into, on or adjacent to structures where you see ants, next to ant trails and suspected areas of ant activity.

You will notice fewer ants in days -or- Pest population reduction will be apparent within a week.

Optional, Additional Text for Directions for Use:

Keep exposed -or- applied gel away from open food and food contact surfaces. Do not treat food/feed preparation surfaces.

Gel placements should be near ant trails, next to ant nests or in areas of suspected ant activity.

This product's gel may be used as a spot or crack and crevice treatment for the indoor and outdoor control of ants.
