Subject: Label Amendment – Add Optional Marketing Claims and Use Recommendations  
Product Name: COMBAT ABF7  
EPA Registration Number: 64240-42  
Application Date: October 15, 2015  
Decision Number: 510545

Dear Ms. Anastasiou:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance

Page 2 of 2  
EPA Reg. No. 64240-42  
Decision No. 510545

with FIFRA section 6. If you have any questions, please contact Maggie Rudick by phone at 703-347-0257, or via email at [rudick.maggie@epa.gov](mailto:rudick.maggie@epa.gov).

Sincerely,

A handwritten signature in black ink, appearing to be 'KBD', enclosed within a hand-drawn oval.

Kable Bo Davis, Product Manager 3  
Invertebrate and Vertebrate Branch 1  
Registration Division (7505P)  
Office of Pesticide Programs

## **PRECAUTIONARY STATEMENTS:**

### **Hazards to Humans and Domestic Animals**

**CAUTION:** Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes, and clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.

### **PHYSICAL OR CHEMICAL HAZARDS:**

Do not use this product in or on electrical equipment where a possibility of shock hazard exists.

### **FIRST AID:**

**IF ON SKIN OR CLOTHING:** Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-426-6228 for emergency medical treatment information.

**[[HOT LINE NUMBER:] Combat [information] Helpline: 1-800-426-6228]**

**STORAGE AND DISPOSAL: PESTICIDE STORAGE:** Store in [a] cool, dry area [below] [80°F] [100°F] out of reach of children.

**CONTAINER HANDLING: If empty:** Nonrefillable container. Do not reuse or refill this container. Recap [syringe] [reservoir] and offer for recycling if available. If recycling is not available, place in trash. **If partially filled:** Recap [syringe] [reservoir] and call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

***{Note to Reviewer: Per PR-Notice 2007-4, this product will receive a batch code. The batch code will be printed on each syringe.}***

[PRODUCT INFORMATION] [USE INFORMATION]

[[THIS IS] [HOW] [THIS] COMBAT® [*Alternate Brand Name*] WORKS]

[This product provides FAST CONTROL of [Carpenter] Ants in 3-5 days.]

[This product is formulated to effectively control [Carpenter] Ants. That's because this product contains Fipronil, a fast-acting active ingredient. Its speed is still slow enough, however, for foraging ants to return to the colony and feed the bait to larvae and queen(s) so that the entire colony is killed through the Domino Effect™.]

[FOR CONSUMER USE ONLY]

[SPANISH INSTRUCTIONS INSIDE BOX]

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Application rate is dependent on level of infestation and species to be controlled. Bait should be applied as spots.

Keep exposed gel away from open foods and food contact surfaces.

1. Inspect for ants: Place gel in areas of suspected ant activity, next to ant trails and near ant nests. Avoid applying gel in direct sunlight. Gel can be placed in cracks, crevices, corners, and areas such as under and behind kitchen appliances, along baseboards, under sinks, in pantry, around pipes and water heater and in the garage and attic.

***-or-***

1. To apply gel: [Remove cap from tip] [Break tip off], touch tip to surface and depress plunger. Recap tube after use.

2. Apply gel in spots in cracks and crevices. For best results, [make] [place] many spots or dabs of gel where you see ants foraging and entering the structure.

3. Do not apply gel to areas which have been recently sprayed with insecticide or contaminated with foggers, and do not spray insecticide over gel as this may cause the bait to become repellant.

4. Inspect placements and reapply as needed.

Note: *Bold, Italicized text is information for the reader and is not part of the label.*

[Bracketed information is optional text.]

Highlighted text is new.

**For indoor use:** Visually inspect for ants and place gel in areas where you see ants. Do not place bait in locations that are [routinely] [frequently] washed, as bait will be removed by washing. Do not treat food preparation surfaces. Do not use this product in or on electrical equipment where a possibility of shock hazard exists.

**For outdoor use:** Place gel into or on adjacent to structures where you see ants, next to ant trails and suspected areas of ant activity.

[You will notice fewer ants in days] [Pest population reduction will be apparent within a week]

[Gel placements should be near ant trails, next to ant nests or in areas of suspected ant activity.]

[This product's gel may be used as a spot or crack and crevice treatment for the indoor and outdoor control of ants.]

Note: ***Bold, Italicized text is information for the reader and is not part of the label.***
