	U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Registration Division (7505P) Ariel Rios Building 1200 Pennsylvania Ave., NW Washington, D.C. 20460		EPA Reg. Number: 64240-62	Date of Issuance: JAN 23 2009
	NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> Registration <input type="checkbox"/> Reregistration (under FIFRA, as amended)		Term of Issuance: unconditional	Name of Pesticide Product: Combat Ant Killing Gel F42
Name and Address of Registrant (include ZIP Code): Combat Insect Control Systems c/o Henkel Consumer Goods Inc. Georgia Anastasiou, Lewis and Harrison LLC, Agent 122 C Street, NW Suite 740 Washington, DC 20001				
Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.				
<p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>This product is unconditionally registered in accordance with FIFRA Sec. 3(c)(5) provided you make the label changes specified below. Once a pesticide is registered, however, it is not regarded as permanently acceptable. Registration does not eliminate the need for continual reassessment of pesticides. If the Agency determines that, at any time, additional data are required to maintain in effect an existing registration, the Agency will require submission of such data under FIFRA section (3)(c)(2)(B).</p> <p>Make the following label changes:</p> <ul style="list-style-type: none"> Change the EPA Reg. No. to 64240-62. Revise the statement "Use only in areas not easily accessible to children and pets" to read: Use only in areas inaccessible to children and pets. 				
Signature of Approving Official:  Richard Gebken Product Manager 10 Insecticide Branch Registration Division (7505P)			Date: JAN 23 2009	

page 2
EPA Reg. No. 64240-62

On page 2, delete the following implied safety claims:

Quality & Responsibility

Worldwide for more than 130 years, our brands have combined quality with respect for people and the environment. This is what Henkel stands for – today and tomorrow.

The label claims must exclude fire and harvester ants.

Clarify the storage statements to delete or use only one temperature.

Delete the brackets in the Precautionary statements and the Storage and Disposal statements.

Revise the statement “for consumer use only” to read “for residential use only” and delete the brackets.

Move the paragraph entitled “General Information” so that it is not part of the Directions for Use.

Move the instruction about gel changing color to a section entitled “Use Restrictions”, delete the brackets, pick one temperature and revise, in accordance with the cited product as follows:

When exposed to higher temperatures above X° for extended periods of time the gel may change color and lose effectiveness. If the gel inside the tube is darker than the color bar below, do not apply.

Delete or clarify the reference to package insert.

Delete “should” from the directions to apply as spots as follows:
Apply bait as spots.

Provide a definition of “spot” that can be understood by a homeowner applicator.

Move the instruction about applying gel away from food and food contact surfaces to the Use Restrictions.

Revise the statement about gel application as follows:

Do not apply gel in direct sunlight. Apply gel in kitchens, garages and attics into cracks, crevices, corners and areas under and behind kitchen appliances and along baseboards, under sinks, in pantries, around pipes and water heaters.

Delete brackets from the application instructions.

Delete “for best results” and “tips” from the application instructions.

Move the following revised statements to the "use restrictions" and delete brackets:

Do not spray insecticides or smoke tobacco around gel bait.

Clean greasy or dirty surfaces before placement.

Do not use strong cleaners around bait placements.

In more open areas, such as walls and floors, inside cabinets and near food, also use Combat Quick Kill Formula 3 baits for maximum ant control. Read and follow label directions for this product.

In the section for indoor use, delete brackets and delete the statement about use in or on electrical equipment, which is already part of the Physical and Chemical Hazards statements and move other statements to the Use Restrictions.

In the section for outdoor use, delete the reference to "structures" which may permit misuse. Revise the first sentence as follows and place in the Use Restrictions:

Place gel into cracks and holes in the exterior of house where you see ants, next to ant trails and areas of ant activity.

Move the following statements on page 4 to general information:

You will notice fewer ants in days. Pest population will be apparent within a week.

Delete the brackets from and move the following revised statements on page 4 to Use Restrictions:

Keep exposed applied gel away from open food, feed, water, food utensils and food contact surfaces. Do not treat food/feed preparation surfaces.

Do not get on textiles or clothing. Product may stain textiles or clothing.

Delete the following statements which detract from the directions for use:

Gel placements should be near ant trails, next to ant nests or in areas of suspected ant activity.

This product's gel may be used as a spot or crack and crevice treatment for the indoor and outdoor control of ants.

In addition to the comments on marketing claims listed above, also revise the marketing claims as provided in Attachment A.

Statements on the unit syringe label must be revised in accordance with revisions specified above.

On this label, any reference to uses of other Combat products does not constitute approval of label statements on those products.

Submit two copies of the revised final printed label for the record.

4/22

page 4

EPA Reg. No. 64240-62

This product is exempt from child resistant packaging requirements (CRP) because it is marketed as one syringe weighing 0.95 oz. Changes in package net contents may trigger CRP and must be submitted as an amendment, not as a notification.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

The basic and alternate confidential statements of formula (CSFs) dated 10/31/08 are acceptable.

PRECAUTIONARY STATEMENTS:
Hazards to Humans and Domestic Animals

CAUTION:

Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes, and clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling.

PHYSICAL OR CHEMICAL HAZARDS:

Do not use this product in or on electrical equipment due to the possibility of a shock hazard.

FIRST AID: Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. [Have the product container or label with you when calling a poison control center or doctor or going for treatment.]

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes.

Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. [Call a poison control center or doctor for treatment advice.] Have the product container or label with you when calling a poison control center or doctor or going for treatment.

[HOT LINE NUMBER:] Combat [information] Helpline: **1-800-426-6228**

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a cool, dry area below [80°F] [100°F] out of reach of children.

DISPOSAL: **If empty:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. If recycling is not available, place in trash. **If partly filled:** Call your local solid waste agency or [toll free number] 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

For front or back or side panel:

{Note to Reviewer: Per PR-Notice 2007-4, this product will receive a batch code. The number will be laser-coded on each primary package of the product after the container is sealed.}

[[The paperboard in this] [C]carton [contains] [is made from] _____%
Recycled fiber [minimum _____% post consumer content].]

16/22

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

GENERAL INFORMATION

This product provides fast control of [Carpenter] Ants in 3-5 days. This product is formulated to effectively control [Carpenter] Ants. That's because this product contains Fipronil, a fast-acting active ingredient. Its speed is still slow enough[, however,] for foraging ants to return to the colony and feed the bait to larvae and queen(s) so that the entire colony is killed [through the Domino Effect™].

[When exposed to higher temperatures [above 80°F] [above 100°F] for extended periods of time, the gel may change color.]

[FOR CONSUMER USE ONLY]

[SPANISH INSTRUCTIONS INSIDE BOX]

APPLICATION INSTRUCTIONS

[This package [insert] should be in possession of applicator.] Application rate is dependant on level of infestation and species to be controlled. Bait should be applied as spots.

Keep exposed gel away from open foods and food contact surfaces.

1. Inspect for ants: Place gel in areas of suspected ant activity, next to ant trails and near ant nests. Avoid applying gel in direct sunlight. Gel can be placed in cracks, crevices, corners, and areas such as under and behind kitchen appliances, along baseboards, under sinks, in pantry, around pipes and water heater and in the garage and attic.

-or-

1. To apply gel: [Remove cap from tip] [Break tip off], touch tip to surface and depress plunger. Recap tube after use.

2. Apply gel in spots in cracks and crevices. For best results, [make] [place] many spots or dabs of gel where you see ants foraging and entering the structure.

3. Do not apply gel to areas which have been recently sprayed with insecticide or contaminated with foggers, and do not spray insecticide over gel as this may cause the bait to become repellant.

4. Inspect placements and reapply as needed.

[Tips for Best Results:]

- [Do not spray insecticides or smoke around gel bait]
- [Clean greasy or dirty surfaces before placement]
- [In more open areas, such as walls and floors, inside cabinets, and near food, also use Combat Quick Kill Formula 3 baits for maximum ant control]
- [Do not use strong cleaners around bait placements]

DIRECTIONS FOR USE *(continued)*

For indoor use: Visually inspect for ants and place gel in areas where you see ants. Do not place bait in locations that are [routinely] [frequently] washed, as bait will be removed by washing. Do not treat food preparation surfaces. Do not use this product in or on electrical equipment because a possibility of shock hazard exists. [Avoid contact with textiles and clothing as bait may stain.] [Product may stain textiles and clothing.]

For outdoor use: Place gel into or on adjacent to structures where you see ants, next to ant trails and suspected areas of ant activity.

[You will notice fewer ants in days] [Pest population reduction will be apparent within a week]

[Keep [exposed] [applied] gel away from open food and food contact surfaces. Do not treat food/feed preparation surfaces.]

[Gel placements should be near ant trails, next to ant nests or in areas of suspected ant activity.]

[This product's gel may be used as a spot or crack and crevice treatment for the indoor and outdoor control of ants.]

KEEP OUT OF REACH OF CHILDREN

USE ONLY IN AREAS NOT EASILY ACCESSIBLE TO CHILDREN AND PETS

PRECAUTIONARY STATEMENTS:

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes, and clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling.

PHYSICAL OR CHEMICAL HAZARDS:

Do not use this product in or on electrical equipment where a possibility of shock hazard exists.

FIRST AID: Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. [Have the product container or label with you when calling a poison control center or doctor or going for treatment.]

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. [Call a poison control center or doctor for treatment advice.] Have the product container or label with you when calling a poison control center or doctor or going for treatment.

[HOT LINE NUMBER:] Combat [information] Helpline: **1-800-426-6228**
