

U.S. ENVIRONMENTAL PROTECTION AGENCY  
 Office of Pesticide Programs  
 Registration Division (7505P)  
 1200 Pennsylvania Ave., N.W.  
 Washington, D.C. 20460

EPA Reg. Number:

64240-71

Date of Issuance:

6/30/16

NOTICE OF PESTICIDE:

Registration  
 Reregistration  
 (under FIFRA, as amended)

Term of Issuance:

Conditional

Name of Pesticide Product:

Combat Vulcano AG

Name and Address of Registrant (include ZIP Code):

Georgia Anastasiou  
 Agent  
 Combat Insect Control Systems  
 c/o Lewis & Harrison, LLC  
 122 C St. NW, Suite 505  
 Washington, DC 20001

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A). You must comply with the following conditions:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data.

Signature of Approving Official:

Kable Bo Davis, Product Manager 03  
 Invertebrate & Vertebrate Branch 1, Registration Division (7505P)

Date:

6/30/16

2. You are required to comply with the data requirements described in the DCIs identified below:

- a. Fipronil:           GDCI-129121-1144  
                          GDCI-129121-1305  
                          GDCI-129121-1512

You must comply with all of the data requirements within the established deadlines. If you have questions about the Generic DCIs listed above, you may contact the Chemical Review Manager in the Pesticide Reevaluation Division: <http://www.epa.gov/pesticide-contacts/contacts-office-pesticide-programs-pesticide-re-evaluation-division>

3. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.

4. Make the following label changes before you release the product for shipment:

- Revise the EPA Registration Number to read, “EPA Reg. No. 64240-71.”

5. Submit one copy of the final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you fail to satisfy these data requirements, EPA will consider appropriate regulatory action including, among other things, cancellation under FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 06/06/2016
- Alternate CSF 1 dated 06/06/2016

If you have any questions, please contact Tim Ciarlo by phone at 703-347-8082, or via email at [Ciarlo.Timothy@epa.gov](mailto:Ciarlo.Timothy@epa.gov).

**PRECAUTIONARY STATEMENTS:**

HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

**CAUTION:** Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes and clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

**FIRST AID:**

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice. If in Eyes: Hold eye open, rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

**STORAGE AND DISPOSAL:** [Do not contaminate water, food or feed by storage or disposal.]

**PESTICIDE STORAGE:** Store in [a] cool, dry area out of reach of children.

**CONTAINER HANDLING:**

Nonrefillable container. **If empty:** Do not reuse or refill this container. Offer for recycling, if available. If recycling is not available, place in trash.

**If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

*{Note to Reviewer: Per PR-Notice 2007-4, this product will receive a batch code. The batch code number will appear on each bait station.}*

***For front or back or side panel – Optional language (continued):***

**PRODUCT/USE INFORMATION**

This product provides control of ants\* in as little as 3-5 days.

This product is formulated to effectively control ants\*.

That's because this product contains Fipronil, as its active ingredient.

Its speed is [still] slow enough for foraging ants to return to the colony/nest and feed the bait to larvae and queen so that the entire colony/nest is killed by the Domino Effect™.

**How This Product Works:**

1. Ants enter the bait station and eat the bait.
2. Ants take the bait back to the nest.
3. Ants pass the bait on to the queen and kill the entire colony.

Do not interfere with the ants or [gel] [bait] stations during use.  
Place [bait] stations out of reach of children and pets.

**EFFECTIVE AGAINST -or- ATTRACTS AND KILLS - or- KILLS**

**COMMON HOUSEHOLD ANTS\* INCLUDING:** Argentine , Ghost , Cornfield , Pavement , Acrobat , White footed , Little black , Odorous house , Crazy , Big headed , [and other sweet eating ants] ants.

**FOR USE IN AND AROUND:** Homes, Hospitals, Restaurants, Apartments, Grocery Stores, Institutional Buildings, Schools, Cafeterias, Warehouses, Storage Areas, Food Processing Plants, Mobile Homes, Boats, Military Bases, Theatres, Nursing Homes, and on Military, Commercial, and Cruise Ships.

**For Household Use:** Closets, Basements, Attics, Reaction Rooms, Living Areas, Kitchens, Bathrooms, Dining Rooms, Pantries, Food Storage Shelving, Water Receptacles, etc.

**TIPS**

Do not spray insecticide on or around stations

Do not spray insecticide on or around the bait stations

Do not spray insecticide on or around the [bait] stations as sprays will contaminate bait[s] and reduce effectiveness.

Once opened, the stations may be left in place for up to 1 month.

Replace baits after 1 month.

Replace bait stations after 1 month.

Replace baits after 1 month to keep ants from returning.

Replace bait stations after 1 month to keep ants from returning.

Replace stations if ants return.

For effective ant control, all bait stations must be used.

For effective ant control, all bait stations must be used at one time.

For heavy infestations, we highly recommend using additional baits.

For heavy infestations, we highly recommend using additional bait stations.

Place more bait stations if ants return.

You will notice fewer ants in days.

You will notice fewer ants within a week. Ant population reduction will be apparent in days.

Ant population reduction will be apparent within a week.

Ant population will be reduced in days.

Ant population will be reduced within a week

\*Excluding carpenter, fire, pharaoh and harvester ants.

## **DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

### **For indoor and outdoor (adjacent to the home) use:**

1: Remove the [transparent] lid/cap and place [bait] stations by ant trails or close to areas where ants are numerous. [See Illustration/Picture/Figure 1/A.] [The Diagram(s) above/below/at right/at left show(s) recommended placement locations.]

2: Activate the bait [station] by placing station on a flat surface and by pressing the [gel] capsule firmly downwards. [See/Illustration/Picture/Figure 2/B.]

3: Replace the [transparent] lid/cap [to avoid humidity getting into the capsule]. [See/Illustration/Picture/Figure 3/C.]

[4: [Do not move the bait station.] Increased ant activity may be seen near the bait stations for short periods, but you can expect to see less activity in one week. [For best results, do not interfere with the ants or the bait stations during use because ants must carry bait back to the colony [to kill the queen and the other ants\*].]]

4 **-or-** 5: Replace all bait stations after 1 month of use to keep ants from reappearing [, or for continuous control of ants\*, replace all bait stations after 2 weeks of use].

**For indoor use:** Place baits near ant trails or where you frequently see ants. Place additional baits anywhere ants may enter your home.

**For outdoor use:** [For general control of ants\* outdoors and to prevent them from coming indoors,] place [a] bait station(s) every 15-20 feet around the perimeter of your home. [Place additional bait stations near cracks or crevices, along sills, or anywhere ants may gain entry indoors.]

***Optional claims for front or back or side panel of label***

***Design Claims:***

1. Easy-to-use
2. Ready to Use
3. Leaves no [messy] residue
4. Leaves no messy clean up
5. There's no [residue or] mess to clean up
6. Convenient
7. No scissors required [for opening]
8. Mess-free
9. No mess
10. No vapors, fumes or mess
11. No vapor, fumes or odor
12. No vapors or fumes
13. Kills/Stops ants without [messy] residue
14. Kills/Stops ants without [messy] residue and odors or fumes
15. Works without [messy] residue
16. Works without [messy] residue and without odors
17. Works without [messy] residue and without odors or fumes
18. This product is easy to use
19. This product is easy to use and has no insecticide odor
20. Bait(s) [stations] are easy to use
21. Bait(s) [stations] are easy to use and have no insecticide odor
22. No odor
23. No insecticide odor
24. The easy way to solve your ant\* problem
25. The clean, easy way to solve your ant\* problem
26. Pre-filled bait station[s]
27. Bait stations do not spill
28. COMBAT<sup>®</sup> gel bait stations do not spill
29. Leaves no mess
30. Leaves no spills
31. Spill proof
32. No drip
33. No drips

***Miscellaneous Claims:***

34. For Indoor Use
35. For Indoor and Outdoor (adjacent to the home) Use
36. Effective for Indoor Use

***Formula Claims:***

- 47. A highly effective tool in the fight against ants\*
- 48. A highly effective tool to fight your ant\* problem
- 49. A highly effective tool to kill ants\*
- 50. A sugar death for ants\*
- 51. A sweet bait that ants\* share killing them and the rest of the colony
- 52. A sweet gel bait that ants\* share killing them and the rest of the colony
- 53. A Tri-Sugar death for ants\*
- 54. Combat Max Ant Killing Gel Bait kills the ant\* colony
- 55. Combat Max Ant Killing Gel Bait kills the ant\* nest
- 56. Combat Max Ant Killing Gel Bait kills the colony
- 57. Combat Max Ant Killing Gel Bait kills the nest
- 58. Combat Max Ant Killing Gel Bait offers ants\* both a food and water source
- 59. Combat Max Ant Killing Gel Bait that is highly attractive to ants\*
- 60. Combat Max Ant Killing Gel Bait tri-sugar complex kills the ant\* colony
- 61. Combat Max Ant Killing Gel Bait tri-sugar complex kills the colony
- 62. Combat Max Ant Killing Gel Bait tri-sugar complex kills the nest
- 63. Ant\* Bait
- 64. Ant\* Bait that lures them in with its sweetness only to provide them and their little friends with a deadly insecticide.
- 65. Ant\* control in as little as 3-5 days
- 66. Ant\* Killing Insecticide
- 67. Ants need energy. Carbohydrates such as sugar provides energy.
- 68. Ants need energy. Sugar provides energy.
- 69. Ants\* are attracted to the bait and take it back to their nest/colony
- 70. Ants\* are attracted to the sugar bait and take it back to their nest/colony
- 71. Ants\* are attracted to the sugar gel bait and take it back to their nest/colony
- 72. Ants\* are attracted to the tri-sugar bait and take it back to their nest/colony
- 73. Ants\* are attracted to the tri-sugar gel bait and take it back to their nest/colony
- 74. Ants\* can't help but share this bait with the rest of the colony

75. Ants\* can't help but share this gel bait with the rest of the colony
76. Ants\* carry the bait back to the colony/nest to kill the queen and other ants before they invade your home
77. Ants\* carry the bait back to the colony/nest to kill the queen before they invade your home
78. Ants\* eat and share the insecticide with the nest, killing themselves and the rest of the colony
79. Ants\* eat and share the insecticide with their colony, killing themselves and the rest of the colony
80. Ants\* eat the bait and die in the nest
81. Ants\* eat the gel bait and die in the nest
82. Ants\* eat the insecticide bait and die in the nest
83. Ants\* eat the insecticide gel bait and die in the nest
84. Appealing Sugar formula
85. Appealing Sugar formula - fast attractant
86. Attractive Sugar formula
87. Attractive Sugar formula - fast attractant
88. Attractive Tri- Sugar formula
89. Attractive Tri- Sugar formula attracts ants\* quick
90. Attractive tri-sugar blend that ants\* seek
91. Attractive tri-sugar blend that ants\* want
92. Attractive tri-sugar combo that ants\* seek
93. Attractive tri-sugar combo that ants\* want
94. Attractive Tri-Sugar formula attracts ants\* fast
95. Attractive tri-sugar mix that ants\* seek
96. Attractive tri-sugar mix that ants\* want
97. Attracts ants\* quickly
98. Attracts Ants\*
99. Attracts quickly
100. Bait that lures them in with its sweetness only to provide them and their little friends with a deadly insecticide.
101. COMBAT®'s ant\* killing bait stations
102. COMBAT®'s insecticide bait stations
103. COMBAT®'s potent ant\* killing bait stations
104. COMBAT®'s potent insecticide bait stations
105. Contains a tri-sugar system
106. Contains appealing sugars
107. Contains appealing sugars which provides high ant\* attraction power
108. Contains attractive sugars that ants\* seek
109. Contains attractive sugars that ants\* want
110. Contains Attractive Sugars
111. Contains powerful sugars
112. Contains powerful sugars that ants\* seek

113. Contains powerful sugars that ants\* want
114. Contains powerful sugars which provides high ant\* attraction power
115. Contains tri-sugars
116. Domino Effect
117. Eat, Share, Die
118. Effective against Argentine, Ghost, Acrobat, Big-Headed, Cornfield, Field, Odorous House, Thief, Pavement, White Footed, [and] Little Black Ants
119. Effective against common household ants\*
120. Effective Killing for up to 1 month
121. Control in 3-5 days
122. Control in as little as 3-5 days
123. Food and water formula/formulation attracts foraging ants to the [bait] stations
124. Food and water formula/formulation attracts worker ants to the [bait] stations
125. Foraging ants\* are attracted to the [gel] bait and take it back to their nest/colony, killing the queen
126. Foraging ants\* are attracted to the gel [bait] and take it back to their nest/colony, killing the queen and the whole colony/nest
127. Foraging ants\* are attracted to the gel [bait] and take it back to their nest/colony, ultimately killing the queen and the whole colony/nest
128. Formula with a tri-sugar system
129. Formula with appealing sugars
130. Formula with appealing sugars which provides high ant\* attraction power
131. Formula with Attractive Sugars
132. Formula with attractive sugars that ants\* seek
133. Formula with attractive sugars that ants\* want
