Subject: Registration Review Label Mitigation for Boric Acid
Product Name: Combat Sugarcane
EPA Registration Number: 64240-73
Application Dates: 10/9/2018
Decision Numbers: 569384

Dear Ms. Anastasiou:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all the information submitted with your application to support the Registration Review of the above referenced product in connection with the Boric Acid Interim Decision, and has concluded that your submission is acceptable. The label referred to above, submitted in connection with registration under FIFRA, as amended, is acceptable.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

A copy of your label stamped "Accepted" is enclosed. Products shipped after 12 months from the date of this amendment must bear the new revised label. Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6.

FOR USE IN AND AROUND: Homes, Hospitals, Restaurants, Apartments, Grocery Stores, Institutional Buildings, Schools, Cafeterias, Warehouses, Storage Areas, Food Processing Plants, Mobile Homes, Boats, Military Bases, Theatres, Nursing Homes, and on Military, Commercial, and Cruise Ships.

For Household Use: Attics, Bathrooms, Basements, Closets, Dining Rooms, Food Storage Shelving, Kitchens, Living Areas, Pantries, Recreation Rooms, Water Receptacles and other areas ant* may forage.

ATTRACTS AND KILLS -or- KILLS ALL COMMON HOUSEHOLD ANTS* INCLUDING: Argentine, Ghost, Cornfield, Pavement, Acrobat, White footed, Little black, Odorous house, Crazy, Big headed, [and other sweet eating] ants.

*Except carpenter, fire, pharaoh and harvester ants.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For indoor [and outdoor] use:

[1]: [Use all [x number] baits.] To activate [bait] [station] [Remove] [Pull] [foil] [tab] [located] on top of the [bait] station.

[2]: Place bait[s] [station[s]] [near] [by] ant* trails or [where you frequently see ants*] [where ants* are numerous]. [Place additional baits anywhere ants* may gain entry indoors.]

[3]: Replace all [X NUMBER] baits after 3 months [or sooner] to keep ants* from reappearing.

*Except carpenter, fire, pharaoh and harvester ants

Note to reviewer: Graphics may be included to aid consumer understanding.

For indoor use: Place baits near ant trails or where you frequently see ants*. Place additional baits anywhere ants* may enter your home.

For outdoor use: For general control of ants* outdoors and to prevent them from coming indoors, place a bait station every 15-20 feet around the perimeter of your home. [Place additional bait stations near cracks or crevices, along sills, or anywhere ants* may gain entry [indoors].]

[Regularly evaluate bait station's liquid level to ensure/verify product is still present [for ant* consumption]]. [Replace [bait] stations if product is no longer present.] [If ants* return, place more [bait] stations.]

Use Restrictions

Do not spray insecticide on or around the bait(s) station(s), as sprays will contaminate bait(s) station(s) and reduce effectiveness. Do not apply directly to food and do not contaminate feed and foodstuff. Place stations in areas accessible to insects but inaccessible to children and pets. Use of this product for the control of bed bugs is prohibited. Applications to carpets is prohibited.
