

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs
Registration Division (7505P)
1200 Pennsylvania Ave., N.W.
Washington, D.C. 20460

EPA Reg. Number:

64240-74

Date of Issuance:

11/15/21

NOTICE OF PESTICIDE:

Registration
 Reregistration
(under FIFRA, as amended)

Term of Issuance:

Unconditional

Name of Pesticide Product:

Combat Goggles

Name and Address of Registrant (include ZIP Code):

Combat Insect Control Systems
c/o Lewis & Harrison
2461 S. Clark St., Suite 710
Arlington, VA 22202

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA section 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data.
2. The data requirements for storage stability and corrosion characteristics (Guidelines 830.6317 and 830.6320) are not satisfied. A one year study is required to satisfy these data requirements. You have 18 months from the date of registration to provide these data.

Signature of Approving Official:

Jacquelyn Herrick, Product Manager 03
Invertebrate-Vertebrate Branch 1, Registration Division (7505P)

Date:

11/15/21

3. Make the following label changes before you release the product for shipment:
 - Revise the EPA Registration Number to read, “EPA Reg. No. 64240-74.”
4. Submit one copy of the revised final printed label for the record before you release the product for shipment.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSFs:

- Basic CSF dated 12/11/2020
- Alternate CSF 1 (Part A & B) dated 12/11/2020
- Alternate CSF 2 (Part B) dated 12/11/2020

If you have any questions, please contact Jamey Shuler email at Shuler.Jamey@epa.gov.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes and clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet. Remove and wash contaminated clothing before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

FIRST AID:

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of soap and water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice. **If in Eyes:** Hold eye open, rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

{Note to Reviewer: Per PR-Notice 2007-4, this product will receive a batch code. The batch code number will appear on each bait station.}

For front or back or side panel – Optional language (continued):

[PRODUCT/USE INFORMATION]

This product provides control of ants* in as little as 3-5 days.

This product is formulated to effectively control ants*.

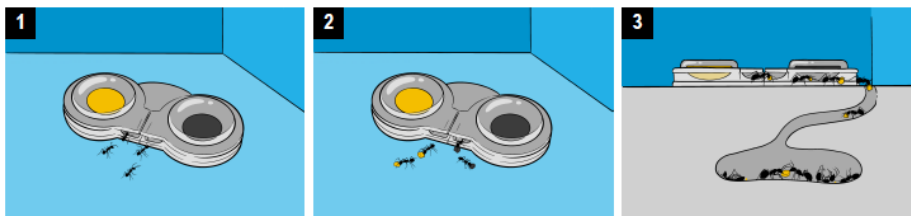

That's because this product contains Fipronil, as its active ingredient.

Its speed is [still] slow enough for foraging ants to return to the colony/nest and feed the bait to larvae and queen so that the entire colony/nest is killed.

*Excluding/Except carpenter, pharaoh and harvester ants. ***[The qualifier language will appear in close proximity and will be similar font size to the word ants.]***

HOW THIS PROUDUCT WORKS:

1. Ants enter the bait station and eat the bait.
2. Ants take the bait back to the nest.
3. Ants pass the bait on to the queen and kill the entire colony.

EFFECTIVE AGAINST -or- ATTRACTS AND KILLS - or- KILLS

COMMON HOUSEHOLD ANTS*: Argentine, Ghost, Cornfield, Pavement, Acrobat, White footed, Little black, Odorous house, Crazy, Big headed, [and other sweet eating] ants.

For Use in and around: Homes, hospitals, restaurants, apartments, grocery stores, institutional buildings, schools, cafeterias, warehouses, storage areas, food processing plants, mobile homes, boats, military bases, theaters, nursing homes, cars, and on military, commercial, and cruise ships.

For Household Use In: Closets, Basements, Attics, Reaction Rooms, Living Areas, Kitchens, Bathrooms, Dining Rooms, Pantries, Food Storage Shelving, Water Receptacles, etc.

*Excluding/Except carpenter, pharaoh and harvester ants. ***[The qualifier language will appear in close proximity and will be similar font size to the word ants.]***

TIPS

Do not spray insecticide on or around stations

Do not spray insecticide on or around the bait stations

Do not spray insecticide on or around the [bait] stations as sprays will contaminate bait[s] and reduce effectiveness.

Once opened, the stations may be left in place for up to 1 month.

Replace baits after 1 month.

Replace bait stations after 1 month.

Replace baits after 1 month to keep ants* from returning.

Replace bait stations after 1 month to keep ants* from returning.

Replace stations if ants return.

For effective ant* control, all bait stations must be used.

For effective ant* control, all bait stations must be used at one time.

For heavy infestations, we highly recommend using additional baits.

For heavy infestations, we highly recommend using additional bait stations.

Place more bait stations if ants* return.

You will notice fewer ants* in days.

You will notice fewer ants* within a week. Ant* population reduction will be apparent in days.

Ant* population reduction will be apparent within a week.

Ant* population will be reduced in days.

Ant* population will be reduced within a week.

*Excluding/Except carpenter, pharaoh and harvester ants. ***[The qualifier language will appear in close proximity and will be similar font size to the word ants.]***

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For indoor and outdoor use:

1. Locate the smooth and rough tabs [on the bait station].
2. [Press down on] [Snap off] the rough tab until it breaks off. Discard the rough tab [once removed from the bait station]. [No scissors required.] [Do not attempt to separate the two sides of the station by cutting, applying pressure or force.]
3. Replace the bait station every 1 month or when the bait station is empty.

For indoor use: place baits near ant trails or where you frequently see ants. Place additional baits anywhere ants* may enter your home.

For outdoor use: place a bait station every 15-20 feet around the perimeter of your home. Place additional bait stations near cracks or crevices, or anywhere ants* can gain entry indoors. Ensure that stations are out of reach of children and pets.

*Excluding/Except carpenter, pharaoh and harvester ants. ***[The qualifier language will appear in close proximity and will be similar font size to the word ants.]***

STORAGE AND DISPOSAL: [Do not contaminate water, food or feed by storage or disposal.] **PESTICIDE STORAGE:** Store in [a] cool, dry area out of reach of children and pets.

CONTAINER HANDLING:

Nonrefillable container. **If empty:** Do not reuse or refill this container. Offer for recycling, if available. If recycling is not available, place in trash.

If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Claims from EPA Reg. No. 64240-30

1. With [a blend of] [multiple] foods ants* eat
2. With foods ants* find attractive [appealing]
3. With multiple foods to kill [the] queen and [the] [entire] colony
4. Kills [the] queen and [the] [entire] colony [source]
5. Quick kill formula
6. Fast formula
7. Kills the ants* you see and ones you don't see
8. Long lasting power
9. Non-stop ant* control
10. Provides long lasting ant* killing power
11. Kills common household ants: Argentine Ants, , Little Black Ants, Cornfield Ants, Odorous House Ants, Pavement Ants
12. Kills ants* without messy residue and without insecticide odors – or – fumes
13. For common household ants*
14. Kills grease and sugar loving ants*
15. Ants* carry bait back to the colony so that the bait can kill the queen and other ants* so that they don't invade your home
16. Kills ants* outdoors before they come indoors so that they don't invade your home
17. Kills [the] entire colony
18. Attracts worker ants* to the bait stations
19. Leaves no residue or odor
20. Kills ants* without insecticide odors [fumes]
21. Kills ants* at their source
22. Controls ant* problem
23. Starts [working] as soon as you activate
24. Lasts for 1 month
25. Kills [ants*] [quickly] [fast]
26. No vapor, fumes or odor [easy to use] [nothing to activate]
27. Easy to use
28. Nothing to activate
29. [Kills] [the] [queen and] [the] [colony] [source] [nest]
30. [For] indoor [and] [&] outdoor use
31. Starts working as soon as ants* feed on bait
32. Starts killing overnight
33. Kills ants* 24/7 for up to 1 month
34. Kills quickly [and keeps on killing] [[for] up to 1 month]
35. [Kills] [Starts Killing] in hours – up to 1 month
36. Kills non-stop [for] [up to 1 month]
37. Kills fast – up to 1 month
38. Kills in hours, [Non-stop] [for] up to 1 month
39. [Fast Acting] [and] [effective] killing [[for] up to 1 month]
40. Kills [with][in] 24 hours [and [for] [Lasts] up to 1 month]
41. Kill the ones you see and the ones you don't [see]

Formula Claims:

29. A highly effective tool in the fight against ants*
30. A highly effective tool to fight your ant* problem
31. A highly effective tool to kill ants*
32. A sugar death for ants*
33. A sweet [gel] bait that ants* share killing them and the rest of the colony
34. A Tri-Sugar death for ants*
35. Alternate Brand Name kills the ant* colony/nest
36. Alternate Brand Name kills the colony/nest
37. Alternate Brand Name offers ants* both a food and water source
38. Alternate Brand Name that is highly attractive to ants*
39. Alternate Brand Name tri-sugar complex kills the [ant*] colony/nest
40. Ant* Bait [that lures them in with its sweetness only to provide them and their little friends with a deadly insecticide.]
41. Ant* control in as little as 3-5 days
42. Ant* Killing Insecticide
43. Ants need energy. Carbohydrates such as sugar provides energy.
44. Ants need energy. Sugar provides energy.
45. Ants* are attracted to the [sugar] bait and take it back to their nest/colony
46. Ants* are attracted to the sugar gel bait and take it back to their nest/colony
47. Ants* are attracted to the tri-sugar [gel] bait and take it back to their nest/colony
48. Ants* can't help but share this [gel] bait with the rest of the colony
49. Ants* carry the bait back to the colony/nest to kill the queen and other ants before they invade your home
50. Ants* eat and share the insecticide with the colony/nest, killing themselves and the rest of the colony
51. Ants* eat the [gel] bait and die in the nest
52. Ants* eat the insecticide [gel] bait and die in the nest
53. Appealing Sugar formula [- fast attractant]
54. Attractive Sugar formula [- fast attractant]
55. Attractive Tri- Sugar formula [attracts ants* quick]
56. Attractive tri-sugar blend that ants* seek/want
57. Attractive tri-sugar combo that ants* seek/want
58. Attractive Tri-Sugar formula attracts ants* fast
59. Attractive tri-sugar mix that ants* seek/want
60. Attracts ants* [quickly]
61. Bait that lures them in with its sweetness only to provide them and their little friends with a deadly insecticide.
62. COMBAT®'s ant* killing bait stations
63. COMBAT®'s insecticide bait stations
64. COMBAT®'s potent ant* killing bait stations
65. COMBAT®'s potent insecticide bait stations
66. Contains a tri-sugar system
67. Contains appealing sugars [which provides high ant* attraction power]
68. Contains attractive sugars that ants* seek/want
69. Contains Attractive Sugars
70. Contains powerful sugars

Combat Goggles

EPA Reg. No. 64240-XX

Master Label

Page 14 of 16

Date: 11/15/2021

Goggles Efficacy Claims:

1. Kills 11 types of ants* [:Argentine, Cornfield, Little black, Field, Odorous house, Pavement, Ghost, Acrobat, White footed, Crazy and Big-headed ants]
2. [Two baits] Attracts and kills ants* in all feeding cycles
3. [With Combat baits] [,] ants* deliver the insecticide into places where aerosol sprays can't [go]
4. Let ants* do the [dirty] work for you
5. Let Alternate Brand Name do the [dirty] work for you
6. Combat does the work for you [so you can relax [pest free]]

Goggles Formulation Claims:

7. Two/2 baits in one/1 [station]
8. Two/2 types of baits eliminate the need for multiple products
9. Both water and a food source [for ants*]
10. Contains no peanut products [or peanut by-products]
11. Contains food and water for ants to consume and bring back to the colony/nest
12. Contains protein, [tri-]sugar, and water lures [to Attract and kill ants* in all feeding cycles]
13. Combining sugar and protein-based baits in the same bait station help[s] maintain the ants*' interest in the baits throughout the season to keep them under control.
14. Eliminates the need for multiple products
15. Formula with multiple foods that ants* eat
16. Set the bait and forget it [for 1 month] [or] [until empty]
17. Translucent/transparent bait station allows you to monitor bait levels
18. Translucent/transparent bait station lets you know when [it's time] to replace [the] [bait station]
19. See-through bait station [that] allows you to see when [it's time] to replace [the] [bait station]
20. See-through bait station [that] allows you to see when [the food is] empty
21. The product is a dual ant bait in a semi-translucent/transparent plastic packaging, composed of two compartments that house two different ant bait formulations.
22. [This product] Contains two different formulations/formulas/attractants /baits, [to attract ants in different life cycles] [to attract different ants] one sugary [tri-sugar] [sweet] [formula/bait/attractant] and one protein [formula/bait/attractant].
23. The different formulations/formulas/attractants/baits in each compartment makes the product attractive/efficacious/effective against a large variety of ants [, but also covers different food requirements of the ant colony throughout the season].
24. The translucent/transparent bait station allows you to see when the bait is gone.
25. The translucent/transparent bait station indicates when to replace the bait station.
26. The translucent/transparent bait station lets you know to replace the bait stations if the bait is gone but ants are still a problem.
27. Workers are attracted to the baits and take it back to the[ir] colony/nest

Combined Bait Claims

28. Double/Dual Control
29. Double/Dual Formula
30. 2X Formula
31. [2X Formula] KILLS GREASE AND SUGAR LOVING ANTS
