This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data or other material required for registration/reregistration of your product under FIFRA sec. 3(c)(5) or FIFRA sec. 4 when the Agency requires all registrants of similar products to submit such data.

2. Add the phrase "EPA Registration No. 64248-6" to your label before you release the product for shipment.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6 (e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

MAXFORCE® Professional Insect Control™ ANT KILLER / GRANULAR BAIT

MAXFORCE® Ant Killer Granular Bait is a ready-to-use product for use outdoors around buildings, on lawns, turf and other non-crop areas, such as parks and golf courses.

This patented formula of MAXFORCE contains a special blend of foods, combined with the delayed-action stomach poison, hydramethylnon. The delayed action of the active ingredient allows foraging ants to bring the bait back to the nest so that the entire colony, including the queen, is destroyed.

When properly used, this bait will control many common structure-invading ants before they can enter a building. Do not apply other insecticides (such as aerosols, sprays, etc.) on top of or in close proximity to MAXFORCE granular bait, as it will reduce the effectiveness. You should expect to see fewer ants within a week.

MAXFORCE controls a variety of ants including the following species:

Acrobat	Argentine	Big-headed	Carpenter
Cornfield	Field	Fire	False Honey
Ghost	Harvester	Honey	Odorous House
Pavement	Pharaoh	Pyramid	Thief

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labelling. Re-use only those containers with current and legible labels.

OUTDOOR USE

Around Structures

Lightly sprinkle 4-8 ounces of MAXFORCE Ant Killer Granular Bait evenly in a band approximately 1-2 feet wide adjacent to the foundation of an average sized home (200 - 400 linear feet). Also, be sure to treat areas such as porches, patios, driveways, sidewalks, flower gardens, and around trees, wood piles, dumpsters, and loading docks. Treat visible ant trails as well as cracks or crevices where ants may enter structure.

Broadcast Application

Sprinkle MAXFORCE Ant Killer Granular Bait uniformly on turf, lawns and non-crop areas. Apply at a rate of up to 1.5 lbs. per acre. Broadcast bait uniformly with ground equipment, such as a spinning disc spreader, or fixed or rotary wing aerial equipment.

Fire Ants and Other Mound Building Ants

Sprinkle approximately two tablespoons (1 oz.) of bait around each mound. For best results, do not apply bait directly in or on the mound. Do not disturb the mound. Ants that are agitated may not feed on the bait.

BEST AVAILABLE COPY

474

Not for use in USDA meat and poultry plants.

BULK CONTAINER

The MAXFORCE® Ant Killer Granular Bait bulk container may be used on the job site or to refill the MAXFORCE Ant Killer Granular Bait 10 oz. service container. The bulk container will refill approximately 10 service containers. Re-use only those service containers with current and legible labels.

PRECAUTIONARY STATEMENTS

CAUTION:

HAZARDS TO HUMANS

May be harmful if swallowed. Avoid contact with skin or eyes. Applicator should wear gloves and wash hands thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT:

If swallowed, drink one or two glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention. In case of emergency, call day or night, 800-426-6228.

HAZARDS TO ANIMALS:

Store in a secure place. Pets may be attracted to this product. Keep pets away from treated areas for at least 24 hours after application.

ENVIRONMENTAL HAZARDS:

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters.

STORAGE AND DISPOSAL:

Store in a cool, dry, secure, place. Keep container closed when not in use. Avoid contamination from other insecticides. Do not contaminate water, food or feed by storage or disposal. Do not re-use empty container for any use other than MAXFORCE® Ant Killer Granular Bait. Wrap empty container and place in trash can.
