MAXFORCE Granular Insect Bait controls a variety of ants including the following species:	Acrobat Argentine Big-Headed Carpenter Cornfield Field Fire	Ghost Harvester Odorous House Pavement Pharaoh Thief
--	---	---

Also kills: • Crickets
• Outdoor Roaches!

PROFESSIONAL INSECT CONTROL ANT KILLER GRANULAR BAIT

MAXFORCE

MAXFORCE® Granular Insect Bait is a ready-to-use product for use outdoors around buildings, on lawns, and other non-crop areas.* This patented formula of MAXFORCE Granular Insect Bait contains a special blend of foods, combined with the delayed-action stomach poison, hydramethylnon. The delayed action of the active ingredient allows foraging ants to bring the bait back to the nest so that the entire colony, including the queen, is destroyed. When properly used, this bait will control many common structure-invading ants before they can enter a structure. Do not apply other insecticides (such as aerosols, sprays, etc.) on top of or in close proximity to MAXFORCE Granular Insect Bait, as it will reduce the effectiveness. You should expect to see fewer ants -or- insects -or- outdoor roaches -or- crickets within a week.

* Do not use on other non-crop areas in California.

The MAXFORCE Granular Insect Bait bulk container may be used on the job site or to refill the MAXFORCE Granular Insect Bait 10 oz service container. The bulk container will refill approximately 10 service containers. Reuse only those service containers with current and legible labels.

DIRECTIONS FOR USE It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

- 1. AROUND STRUCTURES:** Lightly sprinkle 4-8 ounces of MAXFORCE Granular Insect Bait evenly in a band approximately 1-2 feet wide adjacent to the foundation of an average sized home (200-400 linear feet). Also, be sure to treat areas such as porches, patios, driveways, sidewalks, flower gardens, and around trees, wood piles, and garbage receptacles. Treat visible ant trails as well as cracks or crevices where ants may enter structure.
- 2. BROADCAST APPLICATION:** Broadcast MAXFORCE Granular Insect Bait uniformly at a rate of up to 1 oz per 1800 square feet.
- 3. FIRE ANTS AND OTHER MOUND BUILDING ANTS:** Sprinkle approximately two tablespoons (1 oz) of bait around each mound. For best results, do not apply bait directly in or on the mound. Do not disturb the mound. Ants that are agitated may not feed on the bait.

Not for use in USDA meat and poultry plants. Reuse only those service containers with current and legible labels.

PRECAUTIONARY STATEMENTS:

CAUTION: HAZARDS TO HUMANS: May be harmful if swallowed. Avoid contact with skin or eyes. Applicator should wear gloves and wash hands thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT: If swallowed, drink one or two glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention. For more information, call: 1-800-426-6228.

HAZARDS TO ANIMALS: Store in a secure place. Pets may be attracted to this product. Keep pets away from treated areas for at least 24 hours after application.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters.

STORAGE AND DISPOSAL: Store in a cool, dry, secure place. Keep container closed when not in use. Avoid contamination from other insecticides. Do not contaminate water, food or feed by storage or disposal. Do not reuse empty container for any use other than MAXFORCE® Granular Insect Bait. Wrap empty container and place in trash can.
