

Notice of Pesticide Registration
Product Name ecoFog-170 DPA
EPA Reg No 64864-69
Page 2 of 2

Make the following change to the label

- a On page 2, last bullet in the “Fogging applicators must wear” section, must read “shoes plus socks ”
- 2 Submit by June 1, 2013 GLP data for guidelines 830 6317 (one year storage stability) and 830 6320 (corrosion characteristic) Make observations at 0, 3, 6, 9, and 12 month intervals
- 3 Submit one copy of the revised final printed label before the product is released for shipment

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e) Your release for shipment of the product constitutes acceptance of these conditions

A copy of the label stamped “Accepted with Comments” is enclosed for your records

Enclosure Label stamped “Accepted with Comments”

ecoFOG-170 DPA

**Post Harvest Diphenylamine
Antiscald Agent for Post-Harvest Treatment of Apples by Thermal Fogging**

ecoFOG-170 DPA is recommended for reducing scald damage to apples while in storage
ecoFOG-170 DPA is a special liquid form of diphenylamine intended for use with a thermal electrofogger to form a fine fog

ACTIVE INGREDIENT

Diphenylamine

17%

OTHER INGREDIENTS

83%

Total

100%

EPA Reg No 64864 xx

EPA Est No 64864-WA-1

**KEEP OUT OF REACH OF CHILDREN
CAUTION - CUIDADO**

(If you do not understand this label find someone to explain it to you in detail)

FIRST AID	
If swallowed	<ul style="list-style-type: none"> • Call a poison control center or doctor immediately for treatment advice • Have person sip a glass of water if able to swallow • Do not induce vomiting unless told to do so by a poison control center or doctor • Do not give anything by mouth to an unconscious person
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes Remove contact lenses if present after the first 5 minutes then continue rinsing eye • Call a poison control center or doctor for treatment advice
If on skin	<ul style="list-style-type: none"> • Take off contaminated clothing • Rinse skin immediately with plenty of water for 15 – 20 minutes • Call a poison control center or doctor for treatment advice
<p>Have the product container or label with you when calling a poison control center or doctor or going for treatment For emergency information concerning this product call the National Pesticides Information Center at 1-800-858-7378 7 30 AM to 3 30 PM Pacific time (PT) Monday through Friday During other times call the poison control center at 1-800-222-1222</p>	

PRECAUTIONARY STATEMENTS**Hazards to Humans and Domestic Animals**

Caution Harmful if absorbed through skin or if swallowed Causes moderate eye irritation Avoid contact with eyes skin or clothing Wear eye protection (such as goggles safety glasses or a face shield) when mixing and loading Wash thoroughly with soap and water after handling and before eating drinking chewing gum or using tobacco

Personal Protective Equipment (PPE)

Some materials that are chemical-resistant to this product are listed below If you want more options follow the instructions for category A on an EPA Chemical Resistance Selection Sheet

Handlers (including mixers loaders persons cleaning or setting up and/or monitoring the fogging equipment and persons handling treated apples and/or apple containers still wet with product) must wear

- long-sleeved shirt and long pants

ACCEPTED
with COMMENTS
In EPA Letter Dated
JUN 1 2012

30f6
Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg No
64864-WA-1

- chemical-resistant gloves made of any waterproof material such as polyvinyl chloride nitrile rubber or butyl rubber
- shoes and socks
- protective eyewear (such as goggles safety glasses or a face shield)

Fogging applicators must wear

- full face respirator with organic vapor filter
- long-sleeved shirt and long pants
- chemical-resistant gloves made of any waterproof material such as polyvinyl chloride nitrile rubber or butyl rubber
- shoes plussocks

User Safety Requirements

Discard clothing or other absorbent materials that have been fogged or heavily contaminated with the product's concentrate. Do not reuse them. Follow manufacturer's instructions for cleaning/handling PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Recommendations

- Users should wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Users should remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic invertebrates. Do not contaminate water by cleaning of equipment or disposing of equipment washwater or rinsate. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL OR CHEMICAL HAZARDS

Combustible Do not use or store near heat or open flame.
Do not store near or use with oxidizing agents.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Application Restrictions

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. Consult Agricultural Experiment Station or Extension Service pomology specialists for current recommended DPA use-solution concentrations for local apple varieties.

Preparation for Fogging

- Treat only dry fruit as received from the field.
- Apply to fruit within 15 days after harvesting, prior to placing in storage.
- In case of prolonged storage (more than 4 months) or particularly high danger of scald due to climatological conditions, a second treatment is advisable between the second and third months of storage. This second treatment must be applied at a rate of between 50% and

100% of the initial dosage depending on the importance of the danger and the length of further storage. A second treatment of 100% of the first dose is recommended for any additional storage of 3 months or longer.

- Before treatment protect fruit in bins at the top of each stack with plastic liners, cardboard or Kraft paper sheets. Also protect fruit directly in front of the fogging equipment with liners or sheets from top to bottom.
- When treating rooms that are less than 75% full, calculate the dosage of ecoFOG-170 DPA by adding a tonnage value of 20% of the empty volume to the real tonnage of the fruit.

Application Rate

Apple Variety	Application Rate per US Ton
Granny Smith	2.6 fl oz (75 mL)
Red Delicious	2.3 fl oz (65 mL)
Braeburn Cortland Fuji Idared McIntosh	1.7 fl oz (47 mL)
Empire Jonagold Rome Beauty Royal Gala Staymin Winesap	1.3 fl oz (38 mL)
Golden Delicious	0.7 - 0.9 fl oz (20 - 26 mL)

Electrofogger Operation

- Place the Electrofog machine horizontally outside the treatment room at a height of about 3 feet from the floor. Cover the door or window to the treatment room with a plastic sheet and insert the fogging pipe through a hole in the plastic. Place a bucket under the nozzle to catch any drops. Seal the opening around the nozzle.
- Set the Electrofog machine resistance temperature between 500° to 600° C.
- Insert input pipe into product container and start pump. Stop pump when product reaches the pump body.
- Start fan and resistance and start pump again when fog exit temperature reaches 180°C. Adjust pump as necessary during operation to maintain 180° C.

Application Procedures

- Avoid breathing the fog.
- Turn off room cooling systems and humidifiers 12 hours prior to and during treatment.
- Turn off room circulation fans immediately prior to and during treatment.
- Allow the fog to stay overnight or until the fog has totally disappeared (about 5 hours post-treatment) before restarting fans and cooling systems.
- DO NOT rinse apples after treatment.
- DO NOT apply to fruit treated with Diphenylamine prior to harvest.
- DO NOT use treated apples for pomace or livestock feed as illegal residues may occur in meat or milk.
- DO NOT wrap apples in Diphenylamine-treated paper.
- Fruit must have shipping carton marked "Treated with Diphenylamine to retard spoilage".

Posting

Notify workers of the application by warning them orally and by posting warning signs at entrances to treated areas.

Re-Entry

Entry into the treatment area by any person other than properly trained and equipped handlers is prohibited from the start of application until the treated area is ventilated as follows:

- 8 hours with no ventilation followed by 1 hour of mechanical ventilation
- 24 hours with no ventilation

In case it is necessary to enter the treatment area during treatment or before ventilation requirements have been met, handlers must wear chemical resistant headgear and a self-contained breathing apparatus (SCBA, MSHA/NIOSH approval number prefix TC-13F) in addition to PPE listed under PRECAUTIONARY STATEMENTS.

Check for Post-Treatment Signs of Scald

In years of severe scald development ecoFOG-170 DPA may not give desired control or other factors may reduce its effectiveness. After several months of storage collect samples of fruit periodically (every 2 or 3 weeks) and hold them at room temperature to assess scald development. Fruit lots showing scald can often be marketed immediately.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE Avoid storing below 40° F. In case of spill or leak, absorb liquid with sawdust or other absorbent material and incinerate or dispose of it in approved disposal area.

PESTICIDE DISPOSAL Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

NOTICE TO BUYER

IMPORTANT Read the information below before using this product. If the terms are not acceptable, you should return the unopened product container immediately for a complete refund. **LIMITED WARRANTY, TERMS OF SALE, AND LIMITATION OF LIABILITY.**

Upon purchase of this product, purchaser and user agree to the following terms:

Warranty Pace International LLC (the Company) warrants that this product conforms to the chemical description on the label in all material respects. Except as expressly stated in the foregoing sentence, the Company makes no further warranties and expressly disclaims any implied warranties of merchantability or fitness for a particular purpose and any representation or warranty as to the suitability or efficacy of the product as a fruit preservative or the efficacy of the electrofoggling process.

Terms of Sale The Company's directions for use of this product should be followed carefully. It is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness, or other unintended consequences may result because of such factors as weather conditions, presence of other materials, and the manner of use or application (including failure to adhere to label directions), all of which are beyond the Company's control. To the extent consistent with applicable law, all such risks are assumed by the user.

Limitations of Liability To the extent consistent with applicable law, the exclusive remedy against the Company for any cause of action relating to the handling or use of this product is a claim for damages, and in no event shall damages or any other recovery of any kind exceed the price of the product which caused the alleged loss, damage, injury, or other claim. Under no circumstances shall the Company be liable for any special, indirect, incidental, or consequential damages of any kind, including loss of profits or income, and any such claims are hereby waived. To the extent consistent with applicable law, the Company and the seller offer this product, and the purchaser and user accept this product, subject to the foregoing warranty, terms of sale, and limitation of liability, which may be varied or modified only by an agreement in writing signed on behalf of the Company by an authorized representative.
