Richmond, VA 23233

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit and/or cite all data or other material required for registration/reregistration of your product under FIFRA section 3(c)(5) or FIFRA section 4 when the Agency requires all registrants of similar products to submit such data.

2. The product name in the Confidential Statement of Formula and in the label must be the same.

Submit a revised Confidential statement of Formula and enter correct product name, the exact name that appears on the label.

3. Place the number 64938-1 on front panel directly behind the phrase "EPA Reg. No.".

4. Place the number 64938-VA-1 on front panel behind the phrase "EPA Establishment No.".

5. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

INSTRUCTIONS FROM UNIT  
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Also enclosed are instructions for additional devices for use.

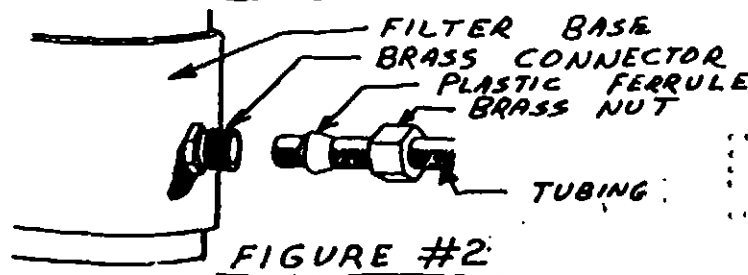

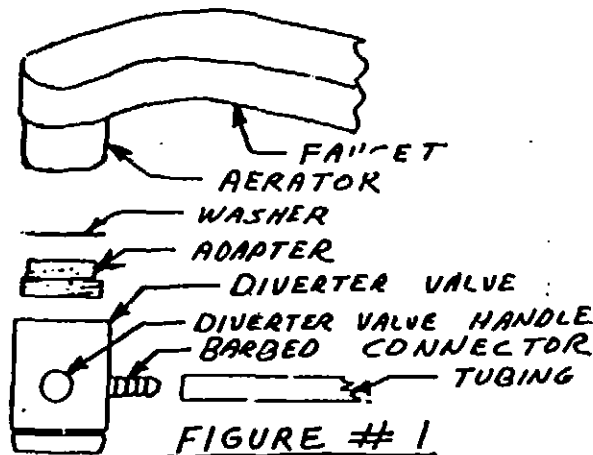

**PRODUCT DESCRIPTION**  
This unit has been developed to be used only on municipally treated cold tap water in the home. This unit has a capacity of up to 5,000 gallons. It is capable of treating a gallon of tap water daily for a period of 30 months. Towards the end of the 30 months, you will notice a diminishing return flow. This will indicate that the unit is nearing the end of its useful life. Features include the removal of chlorine taste, head odor, and makes visible growth of bacteria visible. The flow rate maximum flow rate is 1.2 gallons per minute.

**COUNTERTOP  
MODEL TWB 5000  
INSTALLATION INSTRUCTIONS**

1. Identify all parts (Figure #1)
2. Remove Aerator from the end of your faucet.
3. Attach diverter valve to the end of your faucet (using one of the two adapter rings and appropriate rubber washer if necessary).  
Note: Retain extra parts for possible use when traveling.
4. Identify all parts (Figure #2).
5. Remove the brass nut from base of filter and slip onto one end of the plastic tubing.
6. Slip plastic ferrule over tubing.
7. Slide tube into brass connector on filter, slide ferrule and nut up to connector and tighten nut hand tight making sure tube remains snug inside connector. Pliers or wrench, can be used to tighten nut further.
8. Soften other end of tubing by holding it in a stream of hot water for a few seconds then slip it over the barbed connector on the diverter valve.
9. Place unit in sink, turn on cold water and pull out diverter valve handle to send water through filter. Check for leaks allowing water to run through unit for several minutes until stream from unit runs clear.
10. You may choose to decorate this unit with fabric, wall covering or vinyl laminate; or, create your own decor.
11. Always run COLD WATER ONLY through the unit.
