It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not allow children to apply product. TO PREVENT HARM TO YOU AND YOUR PET, READ ENTIRE LABEL AND ATTACHED DIRECTIONS BEFORE EACH USE. FOLLOW ALL DIRECTIONS AND PRECAUTIONARY STATEMENTS CAREFULLY. USE ONLY ON CATS. DO NOT USE ON OTHER ANIMALS.

To kill fleas and all stages of brown dog ticks, American dog ticks, lone star ticks, and deer ticks (known to carry Lyme disease), apply to cats or kittens (12 weeks or older) as follows: Wear household latex gloves and hold tube upright. Snap applicator tip away from face and body. Place applicator tip through animal's hair to the skin level between the shoulder blades. Squeeze tube, applying entire contents in a single spot to the animal's skin. Avoid superficial application to the animal's hair. Only one pipette per treatment is needed.

FREQUENCY OF APPLICATION

Research demonstrates that Frontline® kills fleas and ticks for at least one month.

A once monthly use is recommended where there is a high risk of reinfestation. If the pet has fleas which may cause flea allergy dermatitis, or in situations where tick control is needed. When used monthly, Frontline® completely controls both flea and tick infestations. In areas with less severe flea infestations or in areas where ticks are not a threat, Frontline® can be applied once every two to three months.

Frontline® remains effective even after bathing, water immersion, or exposure to sunlight. Avoid contact with treated area until dry. Do not reapply Frontline® for 30 days.
