Place applicator tip through animal's hair to the skin level between the shoulder blades. Squeeze applicator, applying entire contents in a single spot to the animal's skin. Avoid superficial application to the animal's hair. Only one applicator per treatment is needed.

No. 65331-3 Frontline<sup>®</sup> Plus for Cats, EPA Reg. No. 65331-4 Frontline<sup>®</sup> Plus for Dogs, EPA Reg. No. 65331-5 NOTIFICATION of Label Revisions Per PR-Notice 98-10

Dear Ms. Sibold:

Please find enclosed a NOTIFICATION per PR-Notice 98-10 for revision of the consumer satisfaction guarantee statement located on the carton. Please note that this statement is a 'non-FIFRA' related agreement, if you will, between Merial and the consumer. A portion of this statement is being deleted. Merial's telephone access number will remain the same, providing the consumer with access to Merial's technical services as needed. This statement is similar to the warranty statement on the label, and therefore the Master labels are being submitted by NOTIFICATION only.

Enclosed are copies of EPA Form 8570-1 along with two copies of the revised Master labels for each of the 3X/6X pipette presentations for cats/dogs including all four weight range presentations (dogs only). One copy has been highlighted for ease of review.

Thank you for your assistance. Please call me at 678-638-3713 (email at timothy.dotson@merial.com) if you have any questions regarding this submission.

Sincerely A do for

Timothy A. Dotson Technical Director Regulatory Affairs NA
