Subject: Notification per PRN 98-10 – ABN and minor label edits
Product Name: Certishield for Dogs
EPA Registration Number: 65331-8
Application Date: 12/11/2015
Decision Number: 512176

Dear Ms. Cunningham:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

The alternate brand name “*Frontline Tri-Act for Dogs*” has been added to the product record.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

Some tips and other information:

DO NOT USE ON CATS.

To successfully treat fleas, ticks, and chewing lice, and repel mosquitoes and stable flies, all dogs must be treated with their own dose of [Full or Partial Brand Name]CERTISHIELD™.

Apply according to label instructions, ensuring the product is applied to the skin. Do not apply on top of the haircoat. It may be helpful to remove the collar before application, so it doesn't absorb the product.

Remember, your dog needs to be dry at the time [Full or Partial Brand Name]CERTISHIELD™ is applied and remain dry 24 hours after application.

Verify applicator is empty after applying to your dog.

Even indoor dogs need flea and tick control because you or other dogs in the household may bring fleas and ticks into the home.
