Organic Plus, Inc. % Mr. Richard Conn Stewart Pesticide Registration Associates, Inc. Suite 603, Crystal Plaza One 2001 Jefferson-Davis Hwy Arlington, VA 22202

Dear Mr. Conn:

)

Subject: Amendment - Addition of Sites and Pests

Organic Plus® Pyrethrin/Diatomaceous Earth Insecticide

(Master Label)

EPA Registration Number 65462-4

Your Application Dated April 29, 1994

The amendment referred to above, submitted in connection with registration under FIFRA sec. 3(c)(7)(A), is acceptable provided that you:

- 1. Submit and/or cite all data or other material required for registration/reregistration of your product under FIFRA sec. 3(c)(5) or FIFRA sec. 4 when the Agency requires all registrants of similar products to submit such data.
- 2. Make the labeling changes listed below before you release the product for shipment:
 - a. We note that the proposed labeling lists some sites, such as KENNELS, which were deleted from the lasted accepted master label dated July 22, 1994. Please clarify.
 - b. The listing of inert ingredients is not required unless the inert ingredients have been determined to pose a hazard to man and/or the environment. Therefore delete the list of inert ingredients from the ingredient block.
 - c. Delete "Not for Commercial Use" on page 2. The sites listed other than homes are considered commercial sites.

SYMBOL		
SURNAME		
DATE		
EPA Form 1320-1 (12-70)	*U.S.GPO:1989-624-485/10186	OFFICIAL FILE COPY

- d. Under Application Directions on page 4, move the precautions beginning "when making treatments in kitchens...etc." and "All food preparation surfaces...etc." under Directions For Use on page 2.
- The percent of diatomaceous earth listed on the е. does not represent the concentration of the active ingredient listed on the Confidential Statement of Formula dated April Diatomaceous earth supplied by CR Mineral EPA Reg. No. 59910-1 is 100% pure, therefore the nominal concentration should be based on 100% rather than 92%. Also the impurities for the pyrethrin and piperonyl butoxide are not reflected in the inert ingredients on the labeling. Please revise the label ingredient statement.
- 3. Submit two copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Sincerely yours,

George T. LaRocca Product Manager 13 Insecticide-Rodenticide Branch Registration Division (7505C)

(Side Panel)

STATEMENT OF PRACTICAL TREATMENT: If in Eyes: Flush eyes with plenty of water. Call a physician immediately, if irritation persists. If on Skin: Remove contaminated clothing and wash affected areas with soap and water. If Inhaled: Remove person to fresh air. If Swallowed: Call a physician or Poison Control Center immediately. Do not induce vomiting.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

TO APPLY AS A DUST, apply uniformly with a hand-held duster.

TO APPLY AS A LIQUID, mix 2 ounces ORGANIC PLUS® Pyrethrin/Diatomaceous Earth Insecticide per gallon of water or 1 pound ORGANIC PLUS® Pyrethrin/Diatomaceous Earth Insecticide/25 gallons of water. Shake or stir immediately before application and during extended applications to insure even mixing.

FOR ALL USES EXCEPT LISTED SPECIALTY USES

Organic Plus® Pyrethrin/Diatomaceous Earth Insecticide is a contact insecticide for use in and around homes, office buildings, parks, kennels and veterinary clinics. Not for commercial use. Not for use in commercial food/feed handling establishments, restaurants or those areas where food is commercially prepared or processed.

Treat when insects are present and repeat as required to maintain control. Apply uniformly as a dust to running areas and places where crawling insect pests are found. Remove or cover food prior to use. All food preparation surfaces and utensils should be covered during treatment, or thoroughly washed before use.

FIRE ANTS: Kills and temporarily reduces annoyance of fire ants. To reduce annoyance from fire ants and to keep them from entering homes, thoroughly dust patios, barbecue areas, driveways, entry ways, door sills, window frames, other entrance areas, foundations of buildings, ant trails, around pools and areas where fire ants are noticed. Dust until the area is well covered, contacting as many insects as possible. See directions below for treatment of fire ant mounds.

COCKROACHES, ANTS, EARWIGS, SILVERFISH, CRICKETS, MILLIPEDES AND CENTIPEDES: Coat with a layer of dust in areas where these pests are found or may hide such as cracks and crevices, behind and beneath stoves, refrigerators, sinks, cabinets, garbaye cans, irr and around sewer pipes and drains, window frames and in attics and basements. Apply directly to insects when possible.

HOUSE FLIES: Apply to surfaces of window frames, around light fixtures on porches, in garages and other similar places where these insects alight or congregate.

FLEAS, DOG TICKS AND LICE: Lightly work powder into the hair of the animal, working the powder down to the skin. Pay strict attention to places the animal cannot reach, such as the scalp. Dust the ears of the animal with care. Dust the animal's bedding and areas where the

APPLICATION RATES

)

)

GARDENS AND TURF	Apply 1-2 oz. Organic Plus® Pyrethrin/Diatomaceous Earth Insecticide per 500 square feet.
POTTED PLANTS	Apply ¾ oz. (1 Tablespoon) Organic Plus® Pyrethrin/Diatomaceous Earth Insecticide per 12 inches pot diameter.
TREES AND BUSHES	Apply 1 oz. (4 Tablespoons) Organic Plus® Pyrethrin/Diatomaceous Earth Insecticide per 10 feet plant height.

FOR CONTROL OF FIRE ANT MOUNDS IN TURF AND GARDENS

Organic Plus® Pyrethrin/Diatomaceous Earth Insecticide is a contact insecticide for use on turf and gardens plots to control fire ant mounds in and around homes, office buildings, parks and golf courses. Not for use on turf grown for sale or other commercial use as sod, for commercial seed production, or for research purposes.

FIRE ANT MOUNDS: Apply Organic Plus® Pyrethrin/Diatomaceous Earth Insecticide as a liquid. Drench both the mound and the area within six inches of the mound with solution. Apply gently to avoid disturbing ants. Reapply as necessary. For best results, apply in cool weather (65-80°F) or in early morning or late evening hours. Treat new mounds as they appear.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage and disposal. STORAGE: Store in a cool, dry place way from food or feed. Keep out of reach of children. DISPOSAL: Do not reuse empty container. Wrap in several layers of newspaper and discard in trash.

NOTICE TO USE: Seller's guarantee shall be limited to the terms of the label and subject thereto, the buyer assumes all risks to persons or property arising out of the use or handling and accepts the product on these conditions.
