U.S. ENVIRONMENTAL PROTECTION AGENCY Office of Pesticide Programs Registration Division (7504P) 1200 Pennsylvania Ave., N.W. Washington, D.C. 20460	EPA Reg. Number: 65564-1 UL 19 2011
NOTICE OF PESTICIDE:	Terms of Issuance: Unconditional
X Registration (under FIFRA, as amended)	Name of Pesticide Product: JMS STYLET-OIL
4473 5 Place SVV	76649 $58395716/1275$ $676/11355896648$ $676/1135676/1135676/11355896647658966476676/11355896647658966476676/1135$
Note: Changes in labeling differing in substance from that accepted in connection and accepted by the Registration Division prior to use of the label in commerce. In a refer to the above EPA registration number.	
On the basis of information furnished by the registrant, the above named pesticide is Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be of recommendation of this product by the Agency. In order to protect health and the en- motion, may at any time suspend or cancel the registration of a pesticide in accordar name in connection with the registration of a product under this Act is not to be const exclusive use of the name or to its use if it has been covered by others. EPA received a label amendment request submitted by email on Ap request under the authority of section 3(c)(5) of the Federal Insectic Act, as amended. With this accepted labeling, all requirements set in Eligibility Decision for Aliphatic Solvents have been satisfied. There listed above. This action is taken under the authority of section 4(g)(Fungicide, and Rodenticide Act, as amended. Reregistration under need for continual reassessment of pesticides. EPA may require su maintain the registration of your product. Submit one (1) copy of final printed labeling. Amended labeling will labels. A copy of your label stamped "Accepted" is enclosed for you after 12 months from the date of this Notice or the next printing of you must bear the new revised label. 	construed as an endorsement or nvironment, the Administrator, on his nee with the Act. The acceptance of any trued as giving the registrant a right to oril 6, 2011. EPA grants this side, Fungicide and Rodenticide forth in the Reregistration efore, EPA reregisters the product (2)(c) of the Federal Insecticide, this section does not eliminate the ubmission of data at any time to supersede all previously accepted our records. Products shipped our label, whichever occurs first,

Page 2 Notice of Reregistration (continued) EPA Reg. No. 65564-1

Confidential Statement of Formula

The basic Confidential Statement of Formula (CSF) dated "Oct. 23, 2008", is accepted and replaces all CSFs previously accepted for this product.

Comments on Labeling

Only the blue version of the "BOOK" labeling and its associated "BASE" label are accepted.

In the first sentence of the first paragraph in the "**NON-AGRICULTURAL USE REQUIREMENTS**" box (third page of "BOOK" labeling, "produce" should be changed to "product". In the second sentence of the same paragraph, "to product agricultural" should be changed to "to produce agricultural".

In the second sentence of the paragraph under "**PRECAUTIONS AND RESTRICTIONS**" (third page of the "BOOK" labeling), "when it is" should be inserted between "application," and "above".

In the fourth sentence of the "**GREENHOUSE:**" paragraph (fourth page of book), "From" should be changed to "Apply".

Reference to Website on Label

You refer to the company's website on this label. Consequently, that website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website included statements or other representations that are false or misleading in any particular, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, if the Agency finds or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

If you have any questions or comments regarding this letter, please contact Dr. William W. Jacobs at (703) 305-6406 or via e-mail at jacobs.bill@epa.gov.

FIRST AID

IF SWALLOWED - Call poison control center or doctor immediately for treatment advice. Do not give any liquid to the person. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. IF INHALED - Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

IF ON SKIN OR CLOTHING - Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. IF IN EYES - Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first

IF IN EYES - Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

HOT LINE NUMBER Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-866-7STYLET (778-9538) for emergency medical treatment information.

NOTE TO PHYSICIAN: This product contains petroleum distillates and may pose an aspiration pneumonia hazard. For additional Precautionary Statements see inside booklet.

CROP	PEST	Rate/100 gal. water	TIMING & REMARKS (See Application/Compatibility Sections also)
Blueberries Bushberries Caneberries	Mites, Powdery Mildew, Rust	3-6 qts	Using ground equipment, spray for optimum coverage of leaf surfaces. For fungal diseases use at least 200 psi spray pressure.
Strawberries	Leafminers*, Mites, Botrytis, Powdery Mildew	3 qts	Spray at no less than 400 psi using ceramic spray nozzles (ALBUZ [®] ATR, lilac color or their equivalent).
Grapes	Mealybugs, Mites, Leafhopper*, Whiteflies*,	1-2 gal	Using ground equipment, spray for optimum coverage of leaf surfaces. Repeat sprays every 10-14 days.
	Powdery Mildew, Botrytis		For powdery mildew-Make first application pre-bloom and continue every ten days to three weeks depending on level of disease pressure. Use up to 2-gal rate and/or shorter spray interval when disease conditions are severe. For Bortytis Bunch Rot-Initiate sprays at bloom and repeat prior to bunch closing and veraison. Final application at harvest if needed. Use 2-gal rate when disease conditions are severe. Oil will temporarily remove the bloom on grapes. Table grapes should not be sprayed within two weeks of harvest. Do not use copper and oil together with fruit present.
Hops*	Mites, Powdery Mildew	1-2 gal	For powdery mildew: Initiate sprays at early leaf stage. Continue sprays every 10-14 days. Mite control will be effective under the same spray inter- val as powdery mildew sprays. Discontinue sprays at burr development.

CROP	PEST	Rate/100 gal. water	TIMING & REMARKS (See Application/Compatibility Sections also)
Cotton Field Corn Sugar beets Sweet Corn Tobacco	Earworm, Fall armyworm, Corn rootworm, Leafhopper, Leafminer, Mites, Whiteflies, Cercospora	3-6 qts	Using ground equipment, spray for optimum coverage of leaf surfaces For fungal diseases use at least 200 psi spray pressure.

CROP	PEST	Rate/100 gal. water	TIMING & REMARKS (See Application/Compatibility Sections also)
Apples Cherries Peaches	Mites	1-2 gal	For mites apply every 10-14 days. Use up to 2-gal rate and or shorter interval during heavy mite infestation.
Pears	Powdery Mildew	1-2 gal	For powdery mildew control, begin spraying before disease first appears. Spray every 10 -14 days, using at least 200 psi spray pressure and targeting spray for thorough coverage of leaf surfaces. Use 2-gal rate and more fre- quent interval under heavy disease pressure.

CROP	PEST	Rate/1 gal. water	TIMING & REMARKS (See Application/Compatibility Sections also)
Chrysanthemum Diffenbachia Philodendron Poinsettia	Leafminers, Mealybugs, Mites, Scale insects, Whiteflies,	1 oz	Use ALBUZ® ATR nozzles, lilac color or their equivalent. Apply weekly or every two weeks depending on level of pest infestation. Use from 20-100 gallons of dilute spray emulsion per acre, depending on plant size. Spray to the point of runoff. Vary quantity of spray applied by changing the number of nozzles used, not by changing pressure, speed of sprayer or nozzle size.
Roses	Black spot, Powdery Mildew	1-2 oz

CROP	PEST	Rate/A	TIMING & REMARKS (See Application/Compatibility Sections also)			
Bluegrass Fescues Orchardgrass Perennial Rye-grass	Powdery Mildew, Rust	1-2 gal/A	With ground equipment, apply for thorough coverage when powdery mildew and rust pustules are noticeable and increasing in number, in late spring or early fall. Repeat at 14-21 day intervals. Use up to 2-gal rate under severe disease pressure. Spray with a minimum of 20 gal/A of water.			

Date

CROP	PEST	Rate/A	TIMING & REMARKS (See Application/Compatibility Sections also)		
Peppermint Spearmint	Mites, Powdery Mildew	1-2 gal/A	With ground equipment, apply for thorough coverage when powdery mildew is present or mint is 5-6" tall. Repeat at 14-21 day intervals. Use 2- gal rate under severe disease pressure. Spray with a minimum of 20 gal/A of water.		

FOR CITRUS: Do not exceed 159 pounds active ingredient per acre (in a maximum of 1500 gallons of spray mix per acre) when treating citrus crops in Texas and Florida. Do not exceed 212 pounds active ingredient per acre (in a maximum of 2000 gallons of spray mix per acre) when treating citrus crops in California.

CROP PEST		Rate/100 gal Water	TIMING & REMARKS (See Application/Compatibility Sections also)			
Lemons and Grapefruit	Mites Scale including California Red Scale	1-1.4 gal 1-1.6 gal	To enhance efficacy, spray during Fall, early Winter & Spring months when red scale are more easily controlled and trees generally less reactive to oil. For all citrus oil sprays ensure adequate soil moisture. Leaves should not wilt before noon.			
Oranges (Navel & Valencia) Other Citrus Non-Bearing Citrus	& Valencia) Mite & Spider Mite) Other Citrus Black Scale		Oils applied after Oct. may increase cold damage. Oils applied in Aug. ar Sept. may affect solids content and retard coloring.			

*Asterisk denotes crop, pest Not approved in California

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. **PESTICIDE STORAGE:** Keep drum tightly closed in storage to prevent entry of water. Do not freeze. Store drum on side. Roll drum before use if stored over-season.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. CONTAINER DISPOSAL:

Non-Refillable Containers <5 gallons: Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triplerinse or pressure-rinse container (or equivalent) promptly after emptying.

Triple-rinse as follows: Empty remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank, or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

Pressure-rinse as follows: Empty the remaining contents into application equipment or a mix tank and continue to drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or mix tank or collect rinsate for later use or disposal. Insert pressure rinsing nozzle in the side of the container, and rinse at about 40 PSI for at least 30 seconds. Drain for 10 seconds after the flow begins to drip.

If container is not to be recycled, puncture and dispose of it in a sanitary landfill, or by other procedures approved by State and local authorities. Consult Federal, State, or local disposal for information on approved alternative procedures.

Non-Refillable Containers >5 gallons: Non-refillable container. Do not reuse or refill this container. Offer for recycling, if available. Triplerinse or pressure-rinse container (or equivalent) promptly after emptying.

Triple-rinse as follows: Empty remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank, or store rinsate for later use or disposal. Repeat this procedure two more times.

STORAGE AND DISPOSAL (continued)

Pressure-rinse as follows: Empty the remaining contents into application equipment or a mix tank and continue to drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or mix tank or collect rinsate for later use or disposal. Insert pressure rinsing nozzle in the side of the container, and rinse at about 40 PSI for at least 30 seconds. Drain for 10 seconds after the flow begins to drip. If container is not to be recycled, puncture and dispose of it in a sanitary landfill, or by other procedures approved by State and local authorities. Consult Federal, State, or local disposal for information on approved alternative procedures.

Refillable Container (275 gallons): Refillable container. Refill this container with pesticide only. Do not reuse this container for any other purpose. Cleaning the container before final disposal is the responsibility of the person disposing of the container. Cleaning the container before refilling is the responsibility of the refiller.

To clean the container before final disposal, empty the remaining contents from this container into application equipment or mix tank. Fill the container about 10 percent full with water. Agitate vigorously or recirculate water with the pump for 2 minutes. Pour or pump rinsate into application equipment or rinsate collection system. Repeat this rinsing procedure two more times.

If container is not to be recycled, puncture and dispose of it in a sanitary landfill, or by other procedures approved by State and local authorities. Consult Federal, State, or local disposal for information on approved alternative procedures.

CONDITIONS OF SALE AND WARRANTY

JMS Flower Farms, Inc. warrants that this product conforms to its chemical description and is reasonably fit for the purpose stated on the label only when used in accordance with label directions under normal conditions of use.
