DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a
manner inconsistent with its labeling. Use only in well
ventilated areas.

HOLD BOTTLE IN UPRIGHT POSITION WHEN SPRAYING

CATS and DOGS

Cover animal's eyes with hands and with a firm stroke to get a proper spray mist, spray head, ears and chest until damp. With fingertips rub into face around mouth, nose, and eyes. Then spray neck, middle and hind quarters, finishing legs last. For best penetration of spray to the skin, direct spray against the natural lay of the hair. On long-haired dogs, rub your hand against the lay of the hair, spraying the ruffled hair directly behind the hand. Make sure spray thoroughly wets ticks. Repeat treatment as needed.

PUPPIES and KITTENS

Treat same as cats and dogs except nursing puppies and kittens. Spray only along back or on your fingertips and rub in with your fingertips.

PETS SLEEPING QUARTERS

Spray around baseboards, windows, door frames, wall cracks and local area of floors. If mosquitoes, gnats or flies are present, spray lightly into the air. Repeat as needed. The pet's bedding should be sprayed, making sure the area beneath the bedding is sprayed too. After spray has dried, remove old bedding and replace with fresh bedding. Treat pets with a registered Flea and Tick Control product before allowing them to enter treated area.

HORSES

To control stable flies, horse flies and face flies, apply to face, legs, flanks, top line and other body areas commonly attacked by these flies. Repeat treatment as needed.

Do not use this product in or on electrical equipment due to the possibility of shock hazard

STORAGE AND DISPOSAL

Storage: Do not use or store near heat or open flame.
