**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner  
inconsistent with its labeling.

Shake well before using. Apply to dry surfaces only. Do not wet  
powder. Apply powder more heavily to areas of flooring or  
furniture on which the pet spends most time.

**Carpets:** Shake powder evenly across surface. Brush lightly with  
broom to force powder deep into carpet where fleas and their larvae  
exist. Wait at least 60 minutes before (lightly) vacuuming to  
remove visible surface powder. For maximum efficacy, delay  
vacuuming for up to 24 hours.

**Upholstery:** Remove loose cushions. Sprinkle along creases and into corners. Brush lightly to work powder into folds and creases. Vacuum to remove visible powder on surfaces. Do not use on exposed fabric without first testing on a hidden surface for effects on color (staining) or texture. If powder adheres to a spot, brush out and vacuum that area immediately.

When emptying vacuum bag after use, wrap contents or disposable bag in several layers of newspaper and discard in trash. Treat pets with a registered flea and tick control product prior to re-entry.

#### **STORAGE AND DISPOSAL**

**Storage:** Store in a cool, dry area inaccessible to children and pets.

**Disposal:** Do not reuse container. Wrap and put in trash.

This container is sold by weight, NOT by volume. You can be assured of the proper weight even though some settling of contents normally occurs during transportation and handling.
