**(Treatment)**

Immediately drink large amounts of water. Avoid vomiting.  
**DO NOT DRINK TO AN UNCONSCIOUS PERSON.** Promptly call  
doctor. If chemical immediately, rinse with plenty of water. If irritation  
of water and call a doctor.  
Move to a fresh air area. Get a physician.  
If mucosal damage may contraindicate the use of gastric lavage.

**STATEMENTS**

**DOMESTIC ANIMALS**

CAUSES IRREVERSIBLE EYE DAMAGE. CAUSE SKIN BURNS, IS OFFENSIVE TO  
WATER. ALLOWED. WILL BURN WITH THE DEVELOPMENT OF CHLORINE AND  
on clothing. When handling it, use goggles or face shield and rubber gloves.  
Wash with plenty of soap and water after handling. Clothes must be removed and washed

**HAZARD**

THIS PESTICIDE IS TOXIC TO FISH AND AQUATIC ORGANISMS. "Do not  
discharge into lakes, streams, ponds, estuaries, oceans, or other waters unless in  
accordance with a National Pollutant Discharge Elimination System (NPDES) permit and the  
instructions in writing prior to discharge effluent containing this product to sewer systems

without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA."

**PHYSICAL OR CHEMICAL HAZARDS**

**STRONG OXIDIZING AGENT.** Will burn with the development of chlorine and toxic gases. Irritation and hazardous chlorine gases are slowly liberated with contact of water. With release of toxic gases, chemical is decomposed at 460°F to 480° F.

Only use water for mixing. Use clean and dry utensils. Avoid adding this chemical to a device with remnants of any other product. This may cause a reaction, resulting explosive or fire. Contamination with humidity, organic matter or other chemicals may produce a chemical reaction generating heat, release of poisonous gases and possibly fire and explosion.

**IN CASE OF FIRE;** place container in an open space or where it is well ventilated and inundate it with water if necessary.

**IN CASE OF DESCONPOSITION OR CONTAMINATION** refrain from resealing container.

**INSTRUCTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.  
**INDUSTRIAL USE ONLY. FOR REPACKAGING OR FORMULATING IT INTO A DESINFECTANT, BACTERICIDE, SANITIZER, FUNGICIDE OR ALGICIDE.** Repackagers and formulators must acquire their own EPA Registration Number to legally distribute this chemical for such uses.

**STORAGE AND DISPOSAL**

**STORAGE:** After each use close polyethylene lining and maintain container firmly sealed. Keep in a cool dry space. Avoid water getting into container. Keep container on dry floors. Do not contaminate food, water or feed in storing and disposing of chemical.

**DISPOSAL OF PESTICIDE:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal Law. If unable to dispose of such wastes when used according to instructions on label, for guidance and advice get in touch with your State Pesticide or Environmental Control Agency, or the representative of Hazardous Waste at the closest EPA Regional Office.

**CONTAINER DISPOSAL:** Empty liner completely by shaking and striking slightly sides and bottom to eliminate clinging particles. Empty remains into application equipment. Do away with liner in a sanitary landfill or incinerate if allowed by local and State authorities. Rinse empty container and dispose of it in the same manner.
