OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

Subject: ACT 90 Chlorinating Tablets
EPA Registration No.: 65723-3
Application Date: 07/14/2011
Receipt Date: 10/26/2011

Dear Ms. Laird:

The following amendment submitted in connection with registration under FIFRA, as amended, is acceptable.

Proposed Amendment

- Revised label per Agency letter dated March 3, 2011

General Comments

A stamped label is enclosed for your records. Submit three (3) copies of your final printed label before distributing or selling the product bearing the revised labeling.

Should you have any questions or comments concerning this letter, you may contact me by telephone at (703) 308-0410 or by e-mail at harris.monisha@epa.gov or Jaclyn Carl by telephone at (703) 347-0213 or by e-mail at carl.jaclyn@epa.gov. When submitting information or data in response to this letter, a copy of this letter should accompany the submission to facilitate processing.

Sincerely,

Monisha Harris
Product Manager (32)
Regulatory Management Branch II
Antimicrobials Division (7510P)

FIRST AID STATEMENTS

◆	IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
◆	IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
◆	IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for treatment advice.
◆	IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person to sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
◆	Have the product container or label with you when calling a poison control center or doctor, or going for treatment.
◆	In case of emergency, call the National Pesticide Telecommunications Network at 1 (800)858-7378.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: CORROSIVE. Causes irreversible eye damage and skin burns. Harmful if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spray mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield, protective clothing and rubber gloves when handling this product. Wash thoroughly with soap and water after handling before eating, drinking, using tobacco, or going to the toilet. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARD: THIS PESTICIDE IS TOXIC TO FISH AND AQUATIC ORGANISMS. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS: STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well-ventilated area. Flood with large volumes of water, if necessary.

STORAGE AND DISPOSAL: Keep product dry in tightly closed original container when not in use. Store in cool, dry, well ventilated area away from heat, open flames, organic chemicals and sunlight. Rinse empty container thoroughly with water and discard in trash. Waste resulting from the use of this product can be disposed of on site or at an approval waste disposal site. Do not reuse empty container. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. Do not contaminate water, food or feed by storage or disposal.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DISINFECTANT FOR SWIMMING POOLS – POOL START-UP: Broadcast granules over the surface of the pool water, test to ensure that the available chlorine is 5-10 ppm.

- Maintenance procedure: ACT 90 TABLETS was manufactured for use to be broadcast over the surface of the pool where they are easily and evenly dissolved. Test to ensure that the available chlorine is between 1-2 ppm. Bathing should not be permitted to enter the pool while the pool is being tested.

SUPERCHLORINATION: Superchlorination is necessary at the start of the bathing season. Upon filling the pool, every week during hot weather and following heavy rains. Superchlorination is performed by adding two or three times the normal amount of chlorine to oxidize and remove unwanted organic and inorganic material. A granular chlorinated agent, which will dissolve quickly, should be used for superchlorination. Follow the directions for use found on the granular product labeled for superchlorination use. Bathing should not be permitted to enter the pool during superchlorination, not until the chlorine residual is less than 3.0 ppm.

- The pH should be maintained between 7.2 and 7.6
- Use pool only when the chlorine residual is between 1.0 – 3.0 ppm
- Frequency of treatment, and dosage is dependent on temperature and bather load.

DOT SHIPPING NAME: Trichloro-s-Triazinetrione, dry, oxidizer.
