Systems Integration Group, Inc.

U.S. ENVIRONMENTAL PROTECTION AGENCY  
Office of Pesticide Programs  
Antimicrobials Division (7504C)  
401 "M" St., S.W.  
Washington, D.C. 20460

EPA Reg. Number:  
65723-9

Date of Issuance:  
JUN 3 1999

Term of Issuance:  
Conditional

Name of Pesticide Product:  
AQ 60 Medium Granular

NOTICE OF PESTICIDE:  
 Registration  
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

AQUA-Clor S.A. DE C.V.  
Bruselas 805 Col. Mirador  
Monterrey, N.L. 64070  
Mexico

**Note:** Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label changes:

- a. Revise the EPA Registration Number to read, "EPA Reg. No. 65723-9".
- b. Revise the Precautionary Statement" to read:

Corrosive: Cause irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. So not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

Signature of Approving Official:

*Robert S. Brennis*  
Robert S. Brennis, PM 32

Date:

JUN 3 1999

- c. Revise the "Physical or Chemical Hazard" to read:

**STRONG OXIDIZING AGENT.** Contact with water slowly liberates irritating and hazardous chlorine containing gases. Decomposes at temperatures above 464°F with liberation of harmful gases. When ignited, will burn with the evolution of chlorine and equally toxic gases.

NEVER add water to product. Always add product to large quantities of water. Use clean, dry utensils. DO NOT add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic material, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible fire and explosion.

**IN CASE OF FIRE OR SMOKE:** Call the fire department. Do not attempt to extinguish the fire without a self contained breathing apparatus (SCBA). Do not let the fire burn. Flood with copious amounts of water. DO NOT use ABC or other dry chemical extinguishers since there is the potential for a violent reaction.

**IN CASE OF CONTAMINATION OR COMPOSITION:** Do Not reseal container. Follow disposal instructions on label.

- d. Revise the "Storage and Disposal Statement" to read:

Do not contaminate water, food or feed by storage or disposal.

**Pesticide Disposal:** Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. The preferred disposal methods are incineration or chemical treatment in accordance with Federal, State and Local regulations.

Do not put product, spilled product, or filled or partially filled containers into the trash or waste compactor. Contact with incompatible materials could cause a reaction and fire. DO NOT transport wet or damp material.

**Container Disposal:**

**Bulk Bin:** Return empty bulk bin for reuse. Do not vacuum, wash, or clean inside of bin.

**Plastic Bulk Bag:** Completely empty bag into application equipment. Remove and triple rinse polyethylene liner. Dispose of empty bag and liner in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning, if burned, stay out of smoke. Do not reuse bag.

**Fiber Drum:** Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Remove and triple rinse polyethylene liner. Then dispose of liner in a sanitary landfill or by incineration as allowed by state and local authorities. If drum is contaminated and cannot be reused, dispose of in the same manner.

**Plastic Drum:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

**Household Containers:** Do not reuse container. Rinse thoroughly before discarding in trash.

- e. Place the "EPA Registration Number" and "Establishment Number" on the front panel.
- f. Place the "Statement of Practical Treatment" on the front panel.
- g. The "net content" should be declared on the label or on the container.

3. Submit two copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

# AQ 60 Medium GRANULAR

READ ENTIRE LABEL BEFORE USING THIS PRODUCT

## PRECAUTIONARY STATEMENT: HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**DANGER:** Highly corrosive. Causes eye and skin damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

**FIRST AID:** IF SWALLOWED, drink large amounts of water. Do NOT induce vomiting. Avoid alcohol. Call a physician or poison control center immediately. IN CASE OF SKIN CONTACT, brush off excess chemicals and flush skin with cold water for a least 15 minutes. If irritation persists, call a physician. IN CASE OF EYE CONTACT, flush eyes with cold water for at least 15 minutes. Get medical attention. NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

**ENVIRONMENTAL HAZARD:** THIS PESTICIDE IS TOXIC TO FISH AND AQUATIC ORGANISMS. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**PHYSICAL AND CHEMICAL HAZARDS:** STRONG OXIDIZING AGENT. Mix only with water. Use clean, dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

**STORAGE AND DISPOSAL:** Keep product dry in tightly closed original container when not in use. Store in a cool, dry, well ventilated area away from heat, open flames, organic chemicals and sunlight. Rinse empty container thoroughly with water and discard in trash. Waste resulting from the use of this product can be disposed of on site or at an approved waste disposal site. Do not reuse empty container. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes can not be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**DIRECTION FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.  
**POOL START-UP:** Fill the chlorinator with AQ 60 Medium Granular and adjust the feeder so that the available chlorine is 5-10 ppm.

- AQ 60 Medium Granular was manufactured for use in erosion type feeders, where it is slowly dissolves as the water flows over the Granular surface of the Granules. If thrown directly into water, AQ 60 Medium Granular may stain concrete or vinyl walls.
- 24 hours after filling the chlorinator, check the water with a test kit for chlorine availability. If necessary, adjust the feeder so that the available chlorine is always maintained between 1.0 to 2.0 ppm.

**SUPERCHLORINATION:** Superchlorination is necessary at the start of the bathing season. Upon filling the pool, every week during hot weather and following heavy rains. Superchlorination is performed by adding two to three times the normal amount of chlorine to oxidize and remove unwanted organic and inorganic material. A granular chlorinated agent, which will dissolve quickly, should be used for superchlorination. Follow the directions for use found on the granular product labeled for superchlorination use. Bathers should not be permitted to enter the pool during superchlorination until the chlorine residual is less than 3.0 ppm.

- The pH should be maintained between 7.2 and 7.6.
- Use pool only when the chlorine residual is between 1.0 - 3.0 ppm.
- Frequency of treatment, and dosage is dependent on temperature and bather load.

**EMERGENCY DRINKING WATER:** This product may be used to disinfect raw or pre-treated (settled, coagulated and/or filtered) water supplies intended for use as drinking water for humans and domestic animals on an emergency basis as defined in 40 CFR, Part 165-179.

The source of the water to be treated may be a river, lake, well, cistern or similar system. To obtain the desired sanitization results, the water to be treated should be clear and free of dirt and organic debris. If the source of the water is cloudy and contains dirt and organic debris, the water should be held in holding tanks or ponds, treated with coagulating agents and filtered to remove the dirt and organic debris.

This product should be used in suitable chlorinating devices (feeders, bags, buckets, etc.) or by direct placement into the water at a point where the product will be uniformly mixed with water. The frequency of feeding and duration of the treatment will depend on the severity of the contamination.

**DRINKING WATER:** Add this product to the feeder (or chlorinating device). Adjust the feeder to maintain a free available chlorine level in the water of 0.2 ppm (mg/L), as indicated by a reliable test kit, after 15 minutes of holding time. Periodically refill feeding device with tablets to assure a constant treatment level of 0.2 ppm (mg/L) available chlorine.

**DOT SHIPPING NAME:** Sodium Dichloro-s-triazinetriene, dry, oxidizer.
