Conditional

Sulfuric Acid/Potato Vine Decciscant

Koch Sulfur Products Company
140 Goes In Lodge Road
P.O. Box 71
Riverton, WY 82051

!!! 20 1992

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data or other material required for registration/reregistration of your product under FIFRA section 3(c)(5) or FIFRA section 4 when the Agency requires all registrants of similar products to submit such data.
2. Add the phrase "EPA Registration No. 65878-1 to your label before you release the product for shipment.
3. The "Storage and Disposal" block must be placed in the "Directions For Use" section. It should be placed immediately before specific directions for use or at the end of Directions For Use."
4. Under the "Environmental Hazards" section, "Do not contaminate water . . ." Replace this with:

Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark.

Clean and wash spray equipment before and after use and do not allow washwater to contact desirable.

2043

5. The product label should contain the statement "Do not contaminate water, food, or feed by storage or disposal." Place this statement under the Storage and Disposal block.

6. Product Chemistry

1. Based on your Confidential Statement of Formula dated March 26, 1992, you may declare no more than 93% sulfuric acid.
2. For appropriate pesticide and container disposal instructions, refer to PR Notice 83-3 and use correct instruction applicable to your product.

7. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

8. Please note at the time of printing, the Read Precautions heading must be the proper type size.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Wear goggles or safety glasses when handling. Wash thoroughly w/soap and water after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to fish and wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

To kill potato vines, apply sulfuric acid (93.2%) at the rate of 20 gallons per acre per application. Apply at least 5 days prior to harvest to allow the tubers to mature. Repeat after 5 days if vines are not completely desiccated. Do not harvest within 5 days of application.
