

PRECAUTIONARY STATEMENTS

**HAZARDS TO HUMANS
(AND DOMESTIC ANIMALS)**

DANGER

Corrosive, causes irreversible eye damage and skin burns.

Can be fatal if swallowed, inhaled, or absorbed through skin.

Applicators and other handlers must wear:

- 1.) Coveralls over long-sleeved shirt and long pants
- 2.) Waterproof gloves
- 3.) Chemical resistant footwear plus socks
- 4.) Protective eyewear
- 5.) Chemical resistant headgear for overhead exposure
- 6.) Dust/mist filtering respirator (MSHA/NIOSH approval number prefix TC-21C)

Loaders must wear chemical resistant apron when loading.

An adequate supply of water for drenching purposes should be immediately available. Discard clothing and other absorbent materials that have been drenched or contaminated with this product's concentrate. Do not reuse them. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

**USER SAFETY
RECOMMENDATIONS**

USERS SHOULD:

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove personal protective equipment immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This pesticide is extremely toxic to fish and wildlife. Do not apply directly to water or areas where surface water is present, or to intertidal areas below the high water mark.

Clean and wash spray equipment before and after use and do not allow wash water to contact desirable plants.

MANUFACTURED BY:

Koch Sulfur Products Company
P. O. Box 7114, Gies In Lodge Road
Arvonton, Wyoming 82501
EPA ESTABLISHMENT #65878-WY-001

RESTRICTED USE

**FOR RETAIL SALE TO AND APPLICATION ONLY
BY CERTIFIED APPLICATORS OR PERSONS
UNDER THEIR DIRECT SUPERVISION**

SULFURIC ACID - POTATO VINE DESICCANT

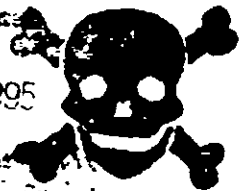

ACTIVE INGREDIENT: Sulfuric Acid	93%
INERT INGREDIENTS:	7%
TOTAL:	100%

**KEEP OUT OF REACH OF CHILDREN
DANGER PELIGRO**

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand the label, find someone to explain it to you in detail.)

Causes severe burns. Contents may be under pressure or explosive hydrogen gas. Keep away from heat, sparks and flames. Do not add water to container because of violent reaction.

STATEMENT OF PRACTICAL TREATMENT

If swallowed: Promptly drink a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Get medical attention. Note to physician: probable mucosal damage may contraindicate the use of gastric lavage.

If inhaled: Remove victim to fresh air. If not breathing, give artificial artificial respiration, preferably mouth to mouth. Get medical attention.

If on skin: Wash with plenty of soap and water. Get medical attention.

If in eyes: Flush with plenty of water. Get medical attention.

EPA REGISTRATION NO. 65878-1

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

To kill potato vines, apply sulfuric acid (93.0%) at the rate of 20 gallons per acre per application. Apply at least 5 days prior to harvest to allow the tubers to mature. Repeat after 5 days if vines are not completely desiccated. Do not harvest within 5 days of application.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), notification to workers, and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard. Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 5 days. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil or water, is:

- Coveralls over long-sleeved shirt and long pants
 - Waterproof gloves
 - Chemical resistant footwear plus socks
 - Protective eyewear
 - Chemical resistant headgear for overhead exposure
- Notify workers of the application by warning them orally and by posting warning signs at entrances to treated areas.

STORAGE & DISPOSAL

STORAGE:
Do not contaminate water, food, or feed by storage or disposal. Protect from physical chemicals and combustibles.

SPILLS AND DISPOSAL:
Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinseate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
