Washington, D.C. 20460</p> <p>NOTICE OF PESTICIDE: <u> X </u> Registration <u> </u> Reregistration</p> <p>(under FIFRA, as amended)</p>	EPA Reg. Number: 65897-1	Date of Issuance: MAR 29 1996
	Term of Issuance: Conditional	
	Name of Pesticide Product: SWEPR Klorpik-SR Fume	
Name and Address of Registrant (include ZIP Code): Southwest Research Institute 6220 Culebra Road San Antonio, TX 78288-0510		
<p>Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.</p> <p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.</p> <p>Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:</p> <ol style="list-style-type: none"> Submit and/or cite all data required for registration/ reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4. Make the following label changes: <ol style="list-style-type: none"> Revise the EPA Registration Number to read, "EPA Reg. No. 65897-1". Chloropicrin is a Restricted Use Pesticide and this must be reflected in the product labeling. Replace the block "Special wood Preservative Product" with the following language: 		
Signature of Approving Official: 	Date: 3/29/96	

RESTRICTED USE PESTICIDE

Due to acute toxicity and mutagenicity shown in laboratory studies. For retail sale to and use only by Certified Applicators or persons under their direct supervision and only for those uses covered by the Applicator's certification.

For additional guidance on Restricted Use Pesticide labeling, see enclosed PR Notice 93-1, as well as, 40 CFR 156.10(j)(2).

3. Submit three copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

SWEPFR 65897-1

SWEPFR
KLORPIK-SR FUME

PRODUCT INFORMATION

Each slow release SWEPFR KLORPIK-SR FUME ampule is a long-lasting formulation of chloropicrin, a proven fungicidal fumigant. The polymeric walls of the ampule regulate the amount of chloropicrin released to prevent and control internal decay present in utility poles, pilings, and similar large timber members in outdoor terrestrial sites.

One treatment of KLORPIK-SR FUME is designed to arrest wood decay and provide extended protection against renewed infestation. Wood inspected and found to have internal decay should be scheduled for treatment as soon as possible to minimize continued structural damage.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER. Each slow-release KLORPIK-SR FUME ampule contains chloropicrin, a poisonous liquid and vapor. Inhalation of vapors may be fatal. Chloropicrin is readily identifiable by smell. Exposure to very low concentrations of vapor will cause irritation of eyes, nose and throat. Continued exposure after irritation, or higher concentrations may cause painful irritation to the eyes or temporary blindness. Liquid will cause chemical burns to skin or eyes. Do not get on skin, in eyes, or on clothing. Harmful or fatal if swallowed.

The chloropicrin in KLORPIK-SR FUME is contained inside a sturdy ampule. Wear goggles during application. In the unlikely event of ampule rupture, wear a NIOSH/MSHA-approved mask for organic vapors or a pesticide respirator, goggles, safety glasses or face shield, protective clothing and neoprene gloves to prevent worker exposure to chloropicrin liquid or vapor. Wash face and hands thoroughly after handling, before eating or smoking. Remove contaminated clothing and wash before reuse.

Keep children and pets away from treatment sites during the actual application.

ENVIRONMENTAL HAZARDS

Chloropicrin is toxic to fish and wildlife. Do not apply directly to water. Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS

Chloropicrin, the liquid contained inside a KLORPIK-SR FUME ampule, may be corrosive under certain conditions. It is a nonflammable liquid.

SPECIAL WOOD PRESERVATIVE PRODUCT
This product was developed and is intended for sale and use only by specially-trained applicators, or persons under their direct supervision.

SWEPFR
KLORPIK-SR FUME

A Long-lasting Slow-Release Ampule
Containing Chloropicrin
for Control of Internal Decay in Wood Products

PRE-MEASURED DOSES
NON-FLAMMABLE

ACTIVE INGREDIENT: Chloropicrin	88.4 %
INERT INGREDIENTS:	11.6 %
TOTAL	100.0 %

MINIMUM NET WEIGHT 1.1 oz (30.1 g)/ampule

Keep Out of Reach of Children
DANGER POISON
PRECAUTIONARY STATEMENTS
STATEMENT OF PRACTICAL TREATMENT

IF INHALED: Get exposed person to fresh air. Keep warm. Make sure person can breathe freely. If breathing has stopped, give artificial respiration, preferably mouth-to-mouth. Do not give anything by mouth to an unconscious person.

IF ON SKIN: Immediately remove contaminated clothing, shoes and other items covering skin. Wash contaminated skin area thoroughly with soap and water.

IF IN EYES: Hold eyelids open and flush with a steady, gentle stream of water for at least 15 minutes.

NOTE TO PHYSICIAN: Chloropicrin is a volatile liquid that is the active ingredient in tear gas. As a gas it is a powerful lachrymator. Early symptoms of overexposure are lachrymation, respiratory distress and vomiting. Pulmonary edema may develop later. Treatment is symptomatic.

KLORPIK-SR FUME

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Large structural timbers have so many different end uses that the ground line area of a 40" circumference standing pole is taken as a guide and example for use of KLORPIK-SR FUME.

To prevent and control internal decay, bore 4 to 6 holes downward at about a 45° angle in a spiral pattern. The depth of the holes should extend to the center of the pole. The first hole should be at the ground line and succeeding holes about 6 to 12-in higher and rotated 90° from the previous hole. Refer to Application Guide before use for additional information.

1. Wear goggles during application. In the unlikely event of ampule rupture, wear a NIOSH/MSHA-approved mask for organic vapors or pesticide respirator; goggles, safety glasses or face shield, protective clothing and neoprene gloves to prevent worker exposure to chloropicrin liquid or vapor.
2. Do not open pouch until ready to use. Always open pouch in an open, well-ventilated area.
3. When ready, open pouch. Remove and insert one ampule of KLORPIK-SR FUME into pre-drilled hole in the pole. Plug hole with a tight-fitting treated wooden dowel.
4. Repeat application procedure for each hole.

STORAGE AND DISPOSAL

STORAGE: Store in original sealed pouch. Do not contaminate food, feedstuffs, or domestic water supplies.

CONTAINER DISPOSAL: Completely empty pouch. Then dispose of empty pouch in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Warranty and Limitation of Damages: Seller warrants that this product complies with the specifications expressed on the label and is reasonably fit for the purpose stated when used in accordance with directions under normal conditions of use and Buyer assumes the risk of any use contrary to such directions. Seller makes no other express or implied warranty, including any other express or implied warranty of fitness or of merchantability, and no agent of seller is authorized to do so except in writing with a specific reference to this warranty. In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.
