NOTIFICATION

DEC 20 2001

For total weed control on areas around the home, the business, or workplace where no plant growth is desired, use as specified in the label directions.

Controls bindweed, common mullein, and other hard-to-kill weeds.

Pramitol 2.5% Liquid Vegetation Killer is a nonselective product intended for use after dilution with water. **For best results, apply to bare ground or when weed growth is just starting. Weeds taller than 4-6 inches should be hoed before treatment or it may be necessary to make a second application. A second application may be necessary to control deep-rooted perennial weeds.** Use for bare ground vegetation control in driveways, brick walks, paths, patios, parking areas, play areas, along fences and curbs, around buildings, and under graveled pathways where plant growth has come through these surfaces.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

For control of annual and susceptible perennial weeds such as downy brome grass, oatgrass, goosegrass, quackgrass, puncturevine, goldenrod, and pliantain. To cover 100 sq. ft., add 1 – 1 ½ pts. by use of a sprinkling can or other watering or spraying device in sufficient water to get good coverage of the area (e.g. 2 ½ gals. in a sprinkling can). For control of hard-to-kill perennial broadleaf and grass weeds such as bindweed and johnsongrass as well as the biennials common mullein and wild carrot, use 2 – 2 ¾ qts. in sufficient water to get good coverage.

When using a sprinkling can, triple rinse and pour rinsate on area treated once application is complete. Mix only the quantity needed and use immediately. Do not store dilute solution once container is opened. To minimize lateral movement, sprinkle lightly with a watering can or similar sprinkler device immediately after application.

PRECAUTIONS:

1. Apply when air is calm to avoid the possibility of drift onto desirable plants or grass.
2. Keep away from the roots of desirable plants and trees.
3. Use only in areas where complete control of all vegetation is desired.
4. **Pramitol 2.5% Liquid Vegetation Killer should not be used on cultivated areas, on ground that is to be cultivated, in greenhouses, or near the drip line of trees or shrubs.**
5. Do not use on slopes or in areas where runoff is likely to occur (apply only to level surfaces).
6. Avoid using where adjacent desirable trees, shrubs, or plants may be injured from leaching of the chemical through the soil.
7. Keep children and animals off treated areas until these areas are dry.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Store undiluted pesticide in original container.

PESTICIDE AND CONTAINER DISPOSAL:

If empty: Do not reuse this container. Place in trash or offer for recycling if available.

If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
