Subject: Label Amendment – Use on Turf and Conifers; First Residential Use  
Amicarbazone Technical Herbicide; EPA Reg. No: 66330-45; Decision: 441345  
Amicarbazone DF Herbicide; EPA Reg. No.: 66330-46; Decision: 441346  
Submission Date: October 4, 2010

Dear Mr. Janis:

The label amendments referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended are acceptable.

Please note that marketing claims made on pesticide labels must be substantiated by data maintained in your files. If data supporting marketing claims made on the product label is not available, then those claims must be removed. Please also note that should you wish to add/retain a reference to the company's website on either label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product(s) would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Products shipped after 18 months from the date on this notice or the next printing of the label whichever occurs first, must bear the new revised label. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA. Your release for shipment of this product constitutes acceptance of these conditions. This label supersedes all previously accepted labels. You must submit one copy of the final printed label before the product is released for shipment. One copy of the label stamped "Accepted with Comments" is enclosed for your records. If you have any questions, please contact Michael Walsh by phone at (703) 308-2972 or via email at [walsh.michael@epa.gov](mailto:walsh.michael@epa.gov).
