This letter further amends the June 8, 2010 label stamped "Accepted with Comments" by requiring the following additional change:

- Handlers do not experience sensory irritation, and
- Air-purifying respirator cartridges have been changed.
- During the collection of air samples a full-face air-purifying respirator must be worn by the handler taking the air samples. Samples must be taken where the sensory irritation is first experienced."

The labels associated with this change have been previously stamped "Accepted with Comments" and are dated June 8, 2010. Submit one copy of the final printed labels that incorporates the required change before the product is released for shipment. If you have any
