Number	Date of Issuance
	66465-2	APR 18 2006
	Term of Issuance: Conditional	
Name of Pesticide Product		PMT-100
Name and Address of Registrant (include ZIP Code).		
Attn: David M.K. Ruth Premier Medical Technology, Inc 2200 Post Oak Blvd., Suite 416 Houston, TX 77056		
<p>Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.</p> <p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.</p> <p>Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:</p> <ol style="list-style-type: none"> The following data must be submitted to the Agency by August 15, 2006: <ol style="list-style-type: none"> The Preliminary Analysis must be conducted according to Good Laboratory Practice as specified in 40 CFR Part 160.105 and 160.120 for the active ingredient and product formulation. There are some concerns with the Analytical Method. The Agency will provide additional information in a separate letter. The submitted data in #1 must be submitted and found to be acceptable in order for the EPA to change the "Terms of Issuance" of this registration. If any of the submitted data are found not to be acceptable, this registration will automatically expire on November 15, 2006. A storage stability and corrosion characteristics study must be conducted according to Agency guidelines and submitted to us by September 26, 2006. 		
Signature of Approving Official:		Date:

4. Make the following label changes:
 - a. Revise the EPA Registration Number to read, "EPA Reg. No. 66465-2".
 - b. Under "Pesticide Storage," add the statement, "Keep away from moisture."
5. Submit two (2) copies of the revised final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of this product constitutes acceptance of these conditions.

A stamped label is enclosed for your records. If you have any questions regarding this letter, please contact Jacqueline McFarlane at (703) 308-6416.

Sincerely,

Velma Noble

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through the skin. Do not get in eyes, on skin, or on clothing. Wear full face shield, NIOSH/MSHA cartridge respirator if airborne test exceeds 2 mg/m^3 for 8-hour exposure. If airborne test is below the value, wear safety goggles and dust mask. Wear full protective clothing and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

Environmental Hazards: Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your state water board or regional office of the EPA.

Physical and Chemical Hazards: PMT-100 reacts with water and may generate heat. If confined in containers, the heat generated could ignite combustible materials.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

PMT-100 is designed for use with automated systems which use the PMT process. For specific directions for the particular machine in use, consult the operations manual accompanying the equipment. *The amount of PMT-100 used will be a function of the specific model and the volume of waste to be treated.* The amount of PMT-100 required is 5 % of the weight of waste to be treated. The automated systems employed add the product and the water spray automatically. At the completion of the treatment, the waste may be disposed of in a sanitary landfill.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal

Pesticide Storage: Keep container tightly closed. Store in a cool, dry place.

Pesticide Disposal: Pesticides wastes are acutely hazardous. Improper disposal of excess pesticide or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your state pesticide or environmental control agency, or the hazardous waste representative at the nearest EPA regional office for guidance.

Container Disposal: When bag is empty, it may be disposed of by processing with the medical waste or in a sanitary landfill.
