NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Add the phrase "EPA Registration No. 66551-1" to the label prior to releasing the product for shipment.

3. The submitted rebuttal to the acute toxicity review of the acute inhalation and dermal sensitization studies has been completed, and the results provided below.
   a. The submitted acute inhalation study is not acceptable and a new study must be submitted within 120 days of the date of this letter.
   b. The dermal sensitization study has been upgraded to core minimum and accepted. This product is not considered a sensitizer.

4. As put forth in the Agency letter dated 26 November 1993, the currently acceptable label language for biting flies must include a limitation regarding the product efficacy, as the efficacy data only support a biting fly claim that protection is limited to approximately one hour. The following label statement is appropriate to address this issue: For gnats, blackflies, and biting midges, hourly application may be necessary for adequate protection.

☐ ATTACHMENT IS APPLICABLE

Mr. Robert J. Bremis, Acting Product Manager 10

DATE 1 JUL 1994
5. Submit one copy of your final printed labeling before you release the product for shipment. Refer to the A 73 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records.

Sincerely,

[Signature]

Mr. Robert S. Brennis
Acting Product Manager 10
Insecticide-Rodenticide Branch
Registration Division
Directions for use: It is a violation of federal law to use this product in a manner inconsistent with its label.

Snake before using. For best results apply every 2-3 hours or more often as needed. For added protection apply to clothing.

PRECAUTIONARY STATEMENTS
HAZARD TO HUMANS AND DOMESTIC ANIMALS
WARNING
Causes substantial but temporary eye injury. Do not get in eyes.

STATEMENTS OF PRACTICAL TREATMENT: In case of eye contact, wash eyes with plenty of water. If irritation persists get medical attention. May cause skin reaction in rare cases. If so, wash with soap and water. Get medical attention if irritation persists.

STORAGE AND DISPOSAL
Do not reuse empty container. Wrap container in several layers of newspaper and discard in trash.
