Subject: Label Amendment – Changes Required by the Naphthenate Salts Amended
Interim Registration Review Decision
Product Name: Copper Green Wood Preservative
EPA Registration Number: 66591-1
Received Date: 10/7/2025
Action Code Case Number: 00676275

Dear Guy R. Woods:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

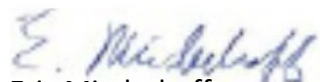

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the Registration Review of the above referenced product in connection with the Naphthenate Salts Amended Interim Decision, and has concluded that your submission is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling and must be used at your next label printing. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Megan Snyderman by phone at 202-566-0639, or via email at Snyderman.Megan@epa.gov.

Sincerely,

Eric Miederhoff
Chief, Reevaluation Branch
Antimicrobials Division
EPA Office of Pesticide Programs

Enclosure: Stamped Label

Coverage

Estimate 150 to 300 sq. ft. per gallon for brush coat or 5 to 10 gallons per 1000 board feet for dipping dimensional lumber.

Recommended for

Copper Green® Wood Preservative is an easy to use wood preservative for above ground, ground contact and below ground contact and below ground uses: e.g. window sills, trellises, greenhouse benches, foundations, sills, planter boxes, fence posts, lawn furniture, and decks. For use wherever wood meets soil or water. Must not be applied to food or feed contact surfaces.

FOR EXTERIOR USE ONLY. Application of this product may produce a strong, lingering, unpleasant odor. Wood to be protected against subterranean termites must be treated before use in construction. Termites will not attack wood treated with Copper Green® Wood Preservative.

Directions for Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Wood to be treated must be dry and well seasoned before treatment with Copper Green® Wood Preservative. Lumber and wood products must be dip treated for at least 3 minutes per inch of thickness. If dipping is not possible, treat with several flowing coats by brush. The more Copper Green® Wood Preservative absorbs, the better it will be protected. Do not try to extend the coverage.

Fence post and heavy timbers must be free from bark, dry and well-seasoned and must be immersed in Copper Green® Wood Preservative for 12-48 hours to give effective control for wood destroying pests.

Apply prior to use in construction. Ends or edges cut or bored after initial treatment must be brushed with Copper Green® Wood Preservative. Do not install treated articles until thoroughly dry.

Use one coat on materials to be finished with paint. If no finish is to be used, apply two liberal coats within the hour. Thoroughly cover the ends. The more preservative absorbed into the wood, the longer and more effective the protection. Do not use in airless sprayers.

The copper fungicide gives a green cast to Copper Green® Wood Preservative. This product is not intended for use as a stain. The green color will fade within a few months when exposed to sunlight. Oil or alkyd stains or paints may be applied over Copper Green® Wood Preservative after thorough drying (about 48 hours), but the green may bleed through lighter colors.

The application rate for wood treated with copper naphthenate in a dip tank shall not exceed 25%.

This product is supplied at proper application consistency and is to be applied without thinning or diluting under normal environmental and application conditions. Brushes and other application equipment may be cleaned with paint thinner (mineral spirits).

NOTICE: Green Products Co. liability under any expressed or implied warranty is limited solely to replacement of Green Products Co. products proved defective and does NOT include labor or other consequential damages. We assume no liability for damages. The suitability of the product for any intended use is solely up to the user.

THIS PRODUCT WILL TURN WOOD GREEN

12/03/2025

Under the Federal Insecticide, Fungicide
and Rodenticide Act as amended, for the
pesticide registered under
EPA Reg. No. 66591-1

COPPER-GREEN®

WOOD PRESERVATIVE

(Preservativo de Madera)

Full Strength – No Thinning – No Diluting

Use wherever wood meets soil or water. Seals wood – Kills termites & wood eating insects. Prevents deterioration

caused by (Previenen la deterioración causada por): Termites

(Termitas) - Rot & Decay (Putrefacción y Decaimiento) –

Fungus & Mold (Hongo y Molo)

Pressure-treated wood can be treated immediately

CAUTION / PRECAUCIÓN

Keep out of reach of children. (Mantiene fuera del alcance de niños.)

See Side Panels for Additional Precautionary Statements.

ACTIVE INGREDIENT:

Copper Naphthenate (CAS # 1338-02-9)10.0%*

Inert Ingredients.....90.0%

TOTAL.....100%

* Equivalent to 1.18% metallic copper

COMBUSTIBLE: Contains Petroleum Distillates

Max. V.O.C.= 350 grams per liter

FIRST AID	
IF IN EYES	<ul style="list-style-type: none">• Hold eye open and rinse slowly and gently with water for 15-20 minutes.• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.• Call a Poison Control Center or doctor for further treatment advice.
IF ON SKIN OR CLOTHING	<ul style="list-style-type: none">• Take off contaminated clothing.• Rinse skin immediately with plenty of water for 15-20 minutes.• Call a Poison Control Center or doctor for further treatment advice.
IF SWALLOWED	<ul style="list-style-type: none">• Call a poison control center or doctor immediately for treatment advice.• Do not induce vomiting unless told to do so by a poison control center or doctor.• Do not give any liquid to the person.• Do not give anything by mouth to an unconscious person.
IF INHALED	<ul style="list-style-type: none">• Move person to fresh air.• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.• Call a Poison Control Center or doctor for further treatment advice.
Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment. In case of medical questions, emergencies or accidents involving this product call INFOTRAC at (800) 535-5053.	
NOTE TO PHYSICIAN	
Contains petroleum distillates - vomiting may cause aspiration pneumonia.	

Net Contents 14 Fl. Oz. (413 ml)

Precautionary Statements

Hazards to humans and domestic animals

CAUTION. Harmful if absorbed through skin. Causes moderate eye irritation. Causes skin irritation. Avoid contact with skin, eyes, or clothing. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

Personal Protective Equipment (PPE)

Applicators must wear the following while handling or applying naphthenate salts: long-sleeved shirt and long pants, socks and shoes, and chemical-resistant gloves (such as those made from Barrier Lamine, Nitrile Rubber, Neoprene Rubber, or Viton. Blender operators and tank clean-up crews must wear a NIOSH approved respirator with an organic vapor (OV) cartridge with a combination N, R or P filter with NIOSH approval number prefix TC-84A; or a NIOSH approved gas mask with a canister with approval number TC-14G; or powered air purifying respirator with organic vapor (OV) cartridge and combination HE filter with NIOSH approval number prefix TC-23C

Environmental Hazards

This pesticide is toxic to fish, aquatic invertebrates, and aquatic plants. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a national Pollution Discharge Elimination System (NPDES) permit and permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. Wood treated with Copper-Green® Wood Preservative shall not be used in the construction of beehives.

Physical or Chemical Hazards

Combustible. Do not use or store near heat or open flame. Use only with adequate ventilation.

Storage and Disposal

Storage: Store in secure, well ventilated area, protected from extreme temperatures. If the product has been spilled or is leaking, remove the source of the spill or leak. Recover free liquid. Spread absorbent, then pick up and place in containers. Then, where applicable, wash area with detergent and water. Store product in the original container only. Do not contaminate water, food or feed by storage and disposal. Keep container closed when not in use.

Pesticide Disposal: Pesticide wastes are toxic. Improper disposal of excess pesticides or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Handling: Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Water is not effective for removing residues of this product and will create a rinsate that needs to be disposed of. Use of mineral spirits for triple rinsing the container is effective and will allow the rinsate to be used as part of the application mixture. Triple rinse as follows: Empty the remaining contents in to application equipment or a mix tank. Fill the container ¼ full with mineral spirits and recap.

Shake for 10 seconds. Pour the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after pour begins to drip. Repeat this procedure two more times. Then offer for recycling, if available, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local ordinances, by burning. If burned, stay out of smoke.
