**U.S. ENVIRONMENTAL PROTECTION AGENCY**

Office of Pesticide Programs  
Antimicrobials Division (7510C)  
1200 Pennsylvania Avenue NW  
Washington, D.C. 20460

EPA Reg. Number:  
66591-6

Date of Issuance:  
APR 26 2012

Term of Issuance:  
Unconditional

Name of Pesticide Product:  
Green's Clear Wood Preservative

NOTICE OF PESTICIDE:  
 Registration  
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Green Product  
810 Market Avenue  
Richmond, CA 94801-1325

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product (OPP Decision Number: D-397072) is unconditionally registered in accordance with FIFRA sec 3(c)(7)(a) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for re-registration of your product under FIFRA section 4.
2. Make the labeling changes listed below before you release the product for shipment:
  - a. Revise the EPA Registration Number to read, "EPA Reg. No. 66591-6."

Signature of Approving Official:  
  
Jacqueline Campbell-McFarlane,  
Product Manager Team 34  
Regulatory Management Branch II  
Antimicrobials Division (7510P)

Date:  
APR 26 2012

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped label with comments is enclosed for your records. Submit one (1) copy of your final printed labeling prior to release of this product for shipment. Should you have any questions concerning this letter, please contact me by telephone at (703) 308-6416 or Adam Heyward at 703-347-0274.

Sincerely,

Jacqueline Campbell-McFarlane  
Product Manager 34

### **Personal Protective Equipment (PPE)**

Applicator and other handlers must wear the following: Chemical resistant gloves; Long-sleeve shirt; Long pants; Shoes plus socks. Follow manufacturer's instructions for cleaning/ maintaining PPE. If no such instructions exist for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

### **User Safety Requirements**

User must: Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove clothing/PPE immediately after handling if pesticide gets inside. Then wash thoroughly and put on clean clothing. User must remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

### **Environmental Hazards**

This product is toxic to aquatic invertebrates, shrimps and oysters/ clams. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a national Pollution Discharge Elimination System (NPDES) permit and permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

### **Physical or Chemical Hazards**

Do not use, pour, spill or store near heat or open flame. Use only with adequate ventilation. Close container when not in use.

## **Storage and Disposal**

Do not contaminate water, food, or feed by storage and disposal.

**Pesticide Storage:** Store in secure, well ventilated area, protected from extreme temperatures. If the product has been spilled or is leaking, remove the source of the spill or leak. Recover free liquid. Spread absorbent, then pick up and place in containers. Then, where applicable, wash area with detergent and water. Store product in the original container only. Keep container closed when not in use.

**Pesticide Disposal:** Pesticide wastes are toxic. Improper disposal of excess pesticides, spray mixture, or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

**Container Handling:** Non-refillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) with water promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after pour begins to drip. Repeat this procedure two more times. Then offer for recycling, if available, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local ordinances, by burning. If burned, stay out of smoke.

**Coverage:** Estimate 150 to 300 sq. ft. per gallon for brush coat or 5 to 10 gallons per 1000 board feet for dipping dimensional lumber.

**Recommended for:** Green's Clear Wood Preservative is an easy to use water-based wood preservative for above ground uses: e.g. window sills, trellises, greenhouse benches, foundations, sills, planter boxes, lawn furniture, and decks. Wood to be protected against subterranean termites must be treated before use in construction. The active ingredient, copper 8-quinolinolate, controls wood decay fungi and repels wood-destroying insects including termites and wood-boring beetles. Treatment with Green's Clear will suppress these insects.

### **General Precautions and Restrictions**

Do not apply this product in a way that will contact workers or other persons. Do not use this product as a stain or finish. Do not apply to food or feed contact surfaces. Wood treated with Copper 8-quinolinolate must not be used in the construction of beehives.

### **Directions for Use**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Wood to be treated must be dry and well seasoned before treatment with Green's Clear. Lumber and wood products must be dip treated for at least 3 minutes per inch of thickness. If dipping is not possible, treat with several flowing coats by brush. The more Green's Clear absorbs, the better it will be protected. Do not try to extend the coverage.

Wood must be free from bark, dry and well seasoned and must be immersed in Green's Clear for 12-48 hours to give effective control for wood destroying pests. Apply prior to use in construction. Ends or edges cut or bored after initial treatment must be brushed with Green's Clear. Do not install treated articles until thoroughly dry. Use one coat on materials to be finished with paint. Oil or alkyd paints can be applied over Green's Clear after thorough drying (about 48 hours). If no finish is to be used, apply two liberal coats within the hour. Thoroughly cover the ends. The more preservative absorbed into the wood, the longer and more effective the protection.

This product is supplied at proper application consistency and is to be applied without thinning or diluting under normal environmental and application conditions. Brushes and other application equipment may be cleaned with water.

Treated textiles, preserved with copper 8-quinolinolate, are to be used only in military or industrial settings. Treated textiles are for non-residential/military use only. Treated wooden trays are only to be used to grow mushrooms. The trays are not to be used to store or transport mushrooms, fruits, or vegetables.

### **Warranty**

Green Products Co. liability under any expressed or implied warranty is limited solely to replacement of Green Products Co. products proved defective and does NOT include labor or other consequential damages. We assume no liability for damages. The suitability of the product for any intended use is solely up to the user.
