

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, DC 20460

OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

December 28, 2018

Mr. Guy Woods
Green Products Co.
810 Market Street
Richmond, CA 94801-1325

Subject: Notification per PRN 98-10 – Revised primary brand name and optional marketing claims
Product Name: Green’s Clear Wood Preservative
EPA Registration Number: 66591-6
Application Date: December 13, 2018
Decision Number: 547436

Dear Mr. Woods:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

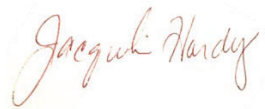

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

The new primary brand name, Green’s Water-Based Wood Preservative, and alternate brand name, Green’s Semi- Clear Wood Preservative, have been added to the product record.

Enclosure: Label w/ Notification Stamp

FOR INDOOR & OUTDOOR USE

Follow manufacturer's instructions for cleaning/ maintaining PPE. If no such instructions exist for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

User Safety Requirements

User must: Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove clothing/PPE immediately after handling if pesticide gets inside. Then wash thoroughly and put on clean clothing. User must remove PPE immediately after handling this product. As soon as possible, wash thoroughly and change into clean clothing.

Environmental Hazards

This product is toxic to aquatic invertebrates, shrimps and oysters/clams. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a national Pollution Discharge Elimination System (NPDES) permit and permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

Physical or Chemical Hazards

Do not use, pour, spill or store near heat or open flame. Use only with adequate ventilation. Close container when not in use.

Storage and Disposal

Do not contaminate water, food, or feed by storage and disposal. **Pesticide Storage:** Store in secure, well ventilated area, protected from extreme temperatures. If the product has been spilled or is leaking, remove the source of the spill or leak. Recover free liquid. Spread absorbent, then pick up and place in containers. Then, where applicable, wash area with detergent and water. Store product in the original container only. Keep container closed when not in use.

Pesticide Disposal: Pesticide wastes are toxic. Improper disposal of excess pesticides, spray mixture, or rinseate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

Container Handling: Non-refillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) with water promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour the rinseate into application equipment or a mix tank or store rinseate for later use or disposal. Drain for 10 seconds after pour begins to drip. Repeat this procedure two more times. Then offer for recycling, if available, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local ordinances, by burning. If burned, stay out of smoke.

NOTIFICATION

66591-6

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

12/28/2018

ACTIVE INGREDIENT:
Copper 8-Quinolinate*..... 1.0%
Inert Ingredients..... 99.0%
TOTAL.....100.0%
 * CAS # 10380-28-6
Equivalent to 0.18% Copper as metal

Keep out of reach of children. (Mantiene fuera del alcance de niños.)

WARNING / AVISO

See Side Panels for Additional Precautionary Statements.

FIRST AID	
IF INHALED	•Move person to fresh air. •If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. •Call a poison control center or doctor for further treatment advice.
IF ON SKIN OR CLOTHING	•Take off contaminated clothing. •Rinse skin immediately with plenty of water for 15-20 minutes. •Call a poison control center or doctor for treatment advice.
IF IN EYES	•Hold eye open and rinse slowly and gently with water for 15-20 minutes. •Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. •Call a poison control center or doctor for treatment advice.
IF SWALLOWED	• Immediately call a poison control center or doctor for treatment advice. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give any liquid to the person. • Do not give anything by mouth to an unconscious person.
Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment. In case of medical questions, emergencies or accidents involving this product call INFOTRAC at (800) 535-5053.	
Vomiting may cause aspiration pneumonia. NOTE TO PHYSICIAN	

EPA REG. NO. 66591-6 EPA EST. NO. 66591-CA-01

Net Contents Batch No. _____

**PRECAUTIONARY STATEMENTS
 HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

WARNING: May be fatal if swallowed. Causes eye and skin irritation. Do not get in eyes, on skin or on clothing. Wear a mask or pesticide respirator jointly approved by the Mine Safety and Health Administration and the National Institute for Occupational Safety and Health.

Personal Protective Equipment (PPE)
 Applicator and other handlers must wear the following: Chemical resistant gloves; Long-sleeve shirt; Long pants; Shoes plus socks.

Coverage
 Estimate 150 to 300 sq. ft. per gallon for brush coat or 5 to 10 gallons per 1000 board feet for dipping dimensional lumber.

Recommended for
 Green's **Water Based** Wood Preservative is an easy to use water-based wood preservative for above ground uses: e.g. window sills, trellises, greenhouse benches, foundations, sills, planter boxes, lawn furniture, and decks. Wood to be protected against subterranean termites must be treated before use in construction. The active ingredient, copper 8-quinolinate, controls wood decay fungi and repels wood-destroying insects including termites and wood-boring beetles. Treatment with Green's **Water Based** will suppress these insects.

General Precautions and Restrictions

Do not apply this product in a way that will contact workers or other persons. Do not use this product as a stain or finish. Do not apply to food or feed contact surfaces. Wood treated with Copper 8-quinolinate must not be used in the construction of beehives.

Directions for Use

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

Wood to be treated must be dry and well seasoned before treatment with Green's **Water Based** Wood Preservative. Lumber and wood products must be dip treated for at least 3 minutes per inch of thickness. If dipping is not possible, treat with several flowing coats by brush. The more Green's **Water Based** absorbs, the better it will be protected. Do not try to extend the coverage.

Wood must be free from bark, dry and well seasoned and must be immersed in Green's **Water Based** for 12-48 hours to give effective control for wood destroying pests. Apply prior to use in construction. Ends or edges cut or bored after initial treatment must be brushed with Green's **Water Based**. Do not install treated articles until thoroughly dry. Use one coat on materials to be finished with paint. Oil or alkyd paints can be applied over Green's **Water Based** after thorough drying (about 48 hours). If no finish is to be used, apply two liberal coats within the hour. Thoroughly cover the ends. The more preservative absorbed into the wood, the longer and more effective the protection. **Application of this product may darken the wood.**

This product is supplied at proper application consistency and is to be applied without thinning or diluting under normal environmental and application conditions. Brushes and other application equipment may be cleaned with water.

Treated textiles, preserved with copper 8-quinolinate, are to be used only in military or industrial settings. Treated textiles are for non-residential/military use only. Treated wooden trays are only to be used to grow mushrooms. The trays are not to be used to store or transport mushrooms, fruits, or vegetables.

Warranty: Green Products Co. liability under any expressed or implied warranty is limited solely to replacement of Green Products Co. products proved defective and does NOT include labor or other consequential damages. We assume no liability for damages. The suitability of the product for any intended use is solely up to the user.

 WOOD PRESERVATIVE**

Preservativo de Madera

{Marketing Claims}

- [Green's Semi-Clear Wood Preservative] {as an alternate brand name}
- May darken [discolor] [darken or discolor] wood
- Application [Use] of this product may darken wood
- It is recommended to test this product on a sample piece of wood before using
- Shake well before using
- General Use [General Use Wood] [Non Restricted Use Wood] [Wood] Preservative
- For Use on {insert application sites listed on label}
- Great for small projects
- For preservation of wood against {insert pests listed on label}
- Highly effective against {insert pests listed on label}
- Prevents deterioration caused by termites, rot, decay, fungus & mold
- May be used to [protect] [control] [prevent] [resist] against wood [swelling] [shrinking] [warping] from moisture absorption
- Resists mold and mildew
- Max. V.O.C. = {insert quantified value} grams/liter
- Water repellents, colorants and borate formulations may be mixed with Green's Water-Based Wood Preservative
- Paintable and stainable
- Made in USA
- Printed in USA
