# NON-DOMESTIC USE (NONEDIBLE PRODUCT AREAS ONLY)

Use Restrictions: Apply only in areas inaccessible to children and pets. Do not use in edible product areas of food handling establishments, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

Directions for Applying in New and Existing Construction to Control Cockroaches: When treating large areas, such as wall voids, sofilt and subcabinet voids in new and existing construction, dust liberally using dusting application equipment.

Directions for Applying in Sewers and Manhole Cavities: Apply this product at a rate not to exceed 12 oz. per 190 sq. ft. using portable blowers or air pressure tanks.

Directions for Applying as a Mop Solution to Control Cockroaches: V

Mixing and Application Directions: Add 1 cup of powder to each gallon of rinse water. Apply to floor areas only. Make only enough for each application. Supplemental treatment only.  $\checkmark$ 

Reapply as necessary. Any powder visible after application must be brushed into cracks and crevices or removed. Avoid contamination of feed and foodstuffs. <

#### FOOD HANDLING ESTABLISHMENTS ~

Places other than private residences in which food or feed is held, processed, prepared, or served.

# 1. FOOD AREAS (INCLUDING SOME SERVING AREAS)

Includes areas for receiving, storage, packing (canning, bortling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (milts, dairies, edible oils, syrups). Also includes some SERVING AREAS.

#### FOOD SERVING AREAS ~

SERVING AREAS are facilities where food is served, such as dining rooms, but not where food is prepared or held. These areas are considered FOOD AREAS when food is exposed and the facility is in operation.

#### FOR FOMES ANNOSUS CONTROL

Sprinkle terminator "salt shakar" style on the freshly cut sturnp surface. Complete coverage, including exposed side areas and any splinters, is necessary. Also, level rather than sloping sturnp surfaces is preferred, sepecially in areas of high rainfalt. Apply enough Terminator to lightly cover sturnp surface. At proper rates of application one pound of granular Terminator will adequately cover 50 square feet of sturnp surface.

Follow application directions in this section. If food is not exposed and facility is not in operation, follow application directions under NONFOOD SERVING AREAS below.

Use Restrictions: FOOD AREA application is limited to CRACK AND CREVICE TREATMENT ONLY.

Applications to other areas are not permitted.

Application Directions: Apply in small amounts directly into cracks and crivices using a bulbous duster or other suitable equipment capable of applying insecticides directly into cracks and crevices, in points between different elements of construction, between equipment and floors, openings leading to voice and hopowings in walls, equipment legs and bases, conduits, motor housing and electrical switch tokes where locarpaches hide.

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

## 2. NONFOOD AREAS (INCLUDING SOME SERVING AREAS) V

Includes garbage rooms, lavatories, floor drains (to sewer), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling). Also includes some SERVING AREAS.

SERVING AREAS are facilities where food is served, such as dining rooms, but not where food is prepared or held. These areas are considered NONFOOD AREAS when food is not exposed and the facility is not in operation.

Follow application directions in this section. If food is exposed and the facility is in operation, follow application directions under FOOD SERVING AREAS.

Application Directions: Apply as a spot treatment to selective surfaces such as baseboards, under elements of constructions into cracks and crevices. Avoid treating surfaces likely to be contacted by food,

#### OTHER NONFOOD AREAS

Application Directions: Apply to baseboards areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide or through which they may enter.
