

BAHAMA KLEAR™ Algicide/Bactericide

FOR SWIMMING POOLS, OUTDOOR HOT TUBS AND SPAS AND FOR USE ON RAW AGRICULTURAL COMMODITIES

Ingredients

Active Ingredient:

Copper Sulfate Pentahydrate*.....	19.8%
Other Ingredients	80.2%
Total	100.0%

*Equivalent to 5.0% metallic copper
A Chelated Copper Product

ACCEPTED

FEB 14 2006

Under the Federal Insecticide, Fungicide, and
Rodenticide Act as amended, for the
pesticide, registered under
EPA Reg. No. 66675-3

Keep Out Of The Reach Of Children **DANGER**

FIRST AID	
IF INHALED:	Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a Poison Control Center or Doctor for treatment advice.
IF ON SKIN OR CLOTHING:	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or Doctor for treatment advice.
IF IN EYES:	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a Poison Control Center or Doctor for treatment advice.
IF SWALLOWED:	Call a Poison Control Center or Doctor immediately for treatment advice. Have a person sip a glass of water, if able to swallow. Do not induce vomiting unless told to do so by the Poison Control Center or Doctor. Do not give anything by mouth to an unconscious person.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

STORAGE AND DISPOSAL

Prohibition: Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a safe place away from PETS AND KEEP OUT OF THE REACH OF CHILDREN. Store away from excessive heat. Magna-Bon Bahama Klear will freeze. Always keep container closed. Store Magna-Bon Bahama Klear in its original container only. [Bulk Magna-Bon Bahama Klear shall be stored and handled in stainless steel, fiberglass, PVC's, polypropylenes or plastic equipment.]¹ Keep away from galvanized pipe and any nylon storage handling equipment.

Pesticide Disposal: Excess Magna-Bon Bahama Klear should be disposed of through label use. Do not contaminate lakes, rivers or streams as this may cause fish kill. [Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.]² In the event of a spill, neutralize with limestone or baking soda before disposal. Concentrate may deteriorate concrete.

Container Disposal: Do not reuse empty container. Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved State and local procedures. [Rinsing and reuse of "totes" is permissible.]¹

PRECAUTIONARY STATEMENTS

Hazards To Humans And Domestic Animals

DANGER. Corrosive: Causes irreversible eye damage and skin irritation. Do not get into eyes or on clothing. Wear goggles or safety glasses. Harmful if swallowed, inhaled or absorbed through the skin. May cause allergic skin response. Avoid contact with skin. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. [Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.]³

GENERAL INFORMATION

Magna-Bon Bahama Klear is a copper sulfate pentahydrate formulation used to control bacteria and algae in swimming pools and outdoor hot tubs and spas. It is also used as a post harvest wash to control bacteria and fungi that cause spoilage in fruits and vegetables.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Amended May 11, 2004/ Page2 of 4

Footnotes/Notes to Reviewer

- ¹ This language is only required to appear on the bulk containers, not on retail containers. It will not appear on retail containers.
- ² This language is only required to appear on the bulk and non-household-use containers, not on household-use containers. It will not appear on household-use containers
- ³ In compliance with PR Notice 95-1, this effluent discharge statement will appear on containers that are equal to or greater than 50 lbs./5 gallons Per PR Notice 95-1, this language is not required for containers less than 50 pounds/5 gallons.
- ⁴ This is alternate Directions for Use language.

Application:

For control of algae and bacteria in swimming pools, outdoor hot tubs and spas, add Magna-Bon Bahama Klear as per chart below.

	Water	Magna-Bon Bahama Klear
Swimming Pools:	15,000 Gal	1 - 3 Quarts
	30,000 Gal	2 - 6 Quarts
	60,000 Gal	4 - 12 Quarts
Outdoor Hot Tub and Spas:	235 Gal	1 Ounce
	470 Gal	2 Ounces
	700 Gal	3 Ounces

ACCEPTED

FEB 14 2006

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide, registered under EPA Reg. No. 66625-3

Application should be made before visible algae appear. Where visible algae is present, apply at the higher rate. For maintenance dosages and where visible algae are not present, use the lower rate. Repeat maintenance dosages to maintain the recommended concentration and avoid excessive build up of metallic copper. Magna-Bon Bahama Klear may be used at the higher rates to help control odors and algae during the winter months while the pool is not being used. Recommended application rates yield (1 ppm to 3 ppm) metallic copper.

[To control algae and bacteria in swimming pools, spas & hot tubs: Apply at the rate of 2 - 4 quarts of Magna-Bon Bahama Klear per 60,000 gallons. This will provide a level of 0.5 ppm to 1.0 ppm metallic copper. Application should be made before visible algae appear. Where visible algae are present, apply at the higher rate. For maintenance dosages and where visible algae are not present, use the lower rate. Repeat maintenance dosages to maintain the recommended concentration and avoid excessive buildup of metallic copper. Magna-Bon Bahama Klear may be used to help control pool odors and algae during winter months. Maintain the higher rate while the pool is not being used during the winter. Do not discharge treated pool effluent where it will drain into lakes, streams, ponds, or public water.]⁴

General Algae/Bacteria Control:

For suppression of bacterial odors and for control of algae, apply in late spring or early summer when algae and bacteria first appear. The dosages are variable and depend upon algae/bacteria species, water hardness, water temperature, amount of algae/bacteria present, as well as whether water is clear, turbid, flowing or static. Preferably, the water should be clear with the temperature above 60 °F or 15.6 °C. Higher dosages are required at lower temperatures, higher algae/bacteria concentration, and for hard waters. Application should be done by pouring Magna-Bon Bahama Klear directly from the container into the pool, outdoor hot tub or spa. Several application points speed up dispersal. Static water requires less chemical for algae/bacteria control than does flowing water. Use higher dosages for chara, nitella and filamentous algae (pond scum), and lower dosages for planktonic algae. If there is uncertainty about the dosage, begin with a lower dose and increase until control is achieved, or until the maximum allowable level has been reached.

For Use as a Post Harvest Wash an Agricultural Commodities: To use as an algicide, bactericide, fungicide post harvest wash the following directions apply.

For use as a post harvest wash, this product may be applied with any type of application equipment that gives thorough and uniform coverage. Devices may include, but are not limited to, dunk and dip tanks, spray applicators or fogging.

- 2 This language is only required to appear on the bulk and non-household-use containers, not on household-use containers. It will not appear on household-use containers
- 3 In compliance with PR Notice 95-1, this effluent discharge statement will appear on containers that are equal to or greater than 50 lbs/5 gallons Per PR Notice 95-1, this language is not required for containers less than 50 pounds/5 gallons.
- 4 This is alternate Directions for Use language.

Washing raw agricultural commodities will both clean and control bacteria and fungi that cause spoilage. Add one (1) gallon for Bahama Klear to thirty thousand (30,000) gallons of water. Allow thorough coverage of the commodity and then let dry. Rinsing is not required or recommended.

At lower rinse rates or when adding new water, Add Bahama Klear as per the chart below.

BAHAMA KLEAR

- 1 drop
- 3 drops
- 1 fluid ounce
- 1 pint
- 1 quart
- 1 gallon

RINSE WATER

- 1 quart
- 1 gallon
- 235 gallons
- 3,750 gallons
- 7,500 gallons
- 30,000 gallons

Remember: Commodities need only be immersed long enough to allow complete coverage.

Application And Handling Equipment:

Application, handling or storage equipment must consist of either fiberglass, PVC's, polypropylene's, viton, most plastic, aluminum or stainless steel. Never use mild steel, nylon, brass or copper around concentrated Magna-Bon Bahama Klear. Concentrate will destroy cotton and nylon material. Always store Magna-Bon Bahama Klear above 32°F. Do not allow Magna-Bon Bahama Klear to freeze. Freezing may cause product separation. Seller makes no warranty for the performance of product which has been frozen.

LIMITED WARRANTY AND LIMITATIONS OF REMEDIES

Seller warrants that the product conforms to the chemical description and is reasonably fit for the purpose stated on the label for use under normal conditions, but makes no other warranties of **FITNESS OR MERCHANTABILITY** expressed or implied, or any other warranty if the product is used contrary to the label instructions or under abnormal conditions or under conditions not foreseeable to the seller. In no case shall the seller be liable for more than the cost of this product to the buyer, and will in no event be liable for any consequential special or indirect damages connected with the use or handling of this product. This product is offered and the buyer or user accepts it subject to the foregoing terms which may not be varied.
