

8/20/93

Free and Clear System may be used in homes, restaurants, and other food and food handling establishments, markets, schools, warehouses, factories, offices, hotels, motels, hospitals, nursing homes, garages, grocery stores, apartment buildings, new construction, industrial plants, theaters, ships, boats, trains, trucks, yachts, camps, mobile homes, buses, zoos, kennels, military bases, libraries, utilities and sewers.

**DOMESTIC (HOMEOWNER USE) FLEAS**

Use Restrictions: Apply only when children and pets do not have access to treatment areas. Avoid contamination of feed and foodstuffs.

Application Directions for Flea Control: Use 3-5 lbs of Free and Clear System per 1000 sq. ft. of carpeted area. Quantities will vary depending on carpet type. Application is done by hand or with any type of sprinkling device. Sprinkle Free and Clear System lightly over all carpeted areas, including closets, area rugs, under beds and non-traffic areas. Using a carpet rake or a push broom, sweep powder into carpet fibers until it is no longer visible. Any visible product remaining after application must be removed by further grooming or lightly vacuuming. For extra care use under seat cushions, avoiding any exposed fabric. Free and Clear System goes to work upon contact, with results beginning within 48 hrs. and complete effectiveness achieved within 3-5 weeks. With proper application, effective period is one year. It is advisable when handling any type of chemical product to use gloves and avoid contact with eyes and mouth.

Prior to Application: If carpets need to be cleaned, do so before application. Carpets must be completely dry. All carpeted closet floors should be cleared and any electronic equipment, fish tanks and animal cages covered.

After Application: Wait at least 24 hrs. after Free and Clear System is applied for normal vacuuming of carpets. Remove vacuum bag dispense. If carpets are steamed or shampooed reapplication is necessary and effective period is no longer valid.

**FREE AND CLEAR SYSTEM**

Effectively Controls Fleas on Carpets and Furniture and Cockroaches, Ants and Silverfish in Cracks and Crevices and on Hard Surfaces

**ACTIVE INGREDIENT:**

Boric Acid ..... 100%  
[Boric oxide (B<sub>2</sub>O<sub>3</sub>) Equivalent 56.3%]

**DOMESTIC (HOMEOWNER USE)  
COCKROACHES, ANTS AND SILVERFISH**

Use Restrictions: Apply only in areas inaccessible to children and pets. Avoid contamination of feed and foodstuffs.

Application Directions for Cockroaches, Ant and Silverfish Control: Apply liberally, scattering under and behind refrigerator, stove, sink, dishwasher, washing machine and dryer, tubs; into openings around drains, water pipes and electrical conduits, and in cracks and crevices along baseboards and corners of cabinets, cupboards, and closets. Remove all lower drawers in kitchen and bathroom cabinets, bedroom dressers and chests of drawers, then scatter liberally in drawer wells. Any powder visible after application must be brushed into cracks and crevices or removed. Reapply as necessary.

**NON-DOMESTIC USE (NONEDIBLE PRODUCT AREAS ONLY)**

Use Restrictions: Apply only in areas inaccessible to children and pets. Do not use in edible product areas of food handling establishments, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

Directions for Applying in New and Existing Construction to Control Cockroaches: When treating large areas, such as wall voids, soffit and subcabinet voids in new and existing construction, dust liberally using dusting application equipment.

Directions for Applying in Sewers and Manhole Cavities: Apply this product at a rate not to exceed 12 oz. per 190 sq. ft. using portable blowers or air pressure tanks.

Directions for Applying as a Mop Solution to Control Cockroaches:

Mixing and Application Directions: Add 1 cup of powder to each gallon of rinse water. Apply to floor areas only. Make only enough for each application. Supplemental treatment only.

Reapply as necessary. Any powder visible after application must be brushed into cracks and crevices or removed. Avoid contamination of feed and foodstuffs.

**FOOD HANDLING ESTABLISHMENTS**

Places other than private residences in which food or feed is held, processed, prepared, or served.

**1. FOOD AREAS (INCLUDING SOME SERVING AREAS)**

Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Also includes some SERVING AREAS.

**FOOD SERVING AREAS**

SERVING AREAS are facilities where food is served, such as dining rooms, but not where food is prepared or held. These areas are considered FOOD AREAS when food is exposed and the facility is in operation. Follow application directions in this section. If food is not exposed and facility is not in operation, follow application directions under NONFOOD SERVING AREAS below.

Use Restrictions: FOOD AREA application is limited to CRACK AND CREVICE TREATMENT ONLY. Applications to other areas are not permitted.

Application Directions: Apply in small amounts directly into cracks and crevices using a bulbous duster or other suitable equipment capable of applying insecticides directly into cracks and crevices, in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases, conduits, motor housing and electrical switch boxes where cockroaches hide.

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

**2. NONFOOD AREAS (INCLUDING SOME SERVING AREAS)**

Includes garbage rooms, lavatories, floor drains (to sewer), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling). Also includes some SERVING AREAS.

SERVING AREAS are facilities where food is served, such as dining rooms, but not where food is prepared or held. These areas are considered NONFOOD AREAS when food is not exposed and the facility is not in operation.

Follow application directions in this section. If food is exposed and the facility is in operation, follow application directions under FOOD SERVING AREAS.

Application Directions: Apply as a spot treatment to selective surfaces such as baseboards, under elements of constructions into cracks and crevices. Avoid treating surfaces likely to be contacted by food.

**OTHER NONFOOD AREAS**

Application Directions: Apply to baseboards areas, around water pipes, surfaces behind and beneath sinks, lockers, tables, pallets and similar areas where insects hide or through which they may enter.
