

FC-33 may be used in homes, restaurants, and other food and food handling establishments, markets, schools, warehouses, factories, offices, hotels, motels, hospitals, nursing homes, garages, grocery stores, apartments, buildings, new construction, industrial plants, theaters, ships, boats, trains, trucks, yachts, camps, mobile homes, buses, zoos, kennels, military bases, libraries, utilities and sewers.

Domestic (Homeowner Use) Fleas
Prior to application: If carpets need to be cleaned, do so before application. Carpets must be completely dry. All carpeted closet floors should be cleared. Electronic equipment, fish tanks and animal cages must be covered. Children and pets should be removed from treatment area until application is complete.

Directions for Use:
IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

Flea Control Systems recommends using 2-5 lbs of FC-33 per 1000 sq. ft. of carpeted area. Quantities will vary depending on carpet type.

Apply directly on carpets where pets frequently traffic or sleep. Sprinkle FC-33 lightly over all carpeted areas, including closets, area rugs, under beds and non-traffic areas. Using a carpet rake or a push broom, sweep powder into carpet fibers until it is no longer visible. Any visible product remaining after application must be removed by further grooming or lightly vacuuming.

Upholstery: Remove loose cushions. Apply along creases and into corners and furniture wells. Do not apply product to exposed fabric. Any visible product after application must be removed. Allow 3-5 weeks for maximum effectiveness. With proper application, effective period is one year.

After Application: Wait at least 24 hrs. after FC-33 is applied for normal vacuuming of carpets. Remove vacuum bag and canister. If carpets are steamed or shampooed, reapplication is necessary and effective period is no longer valid.

PRECAUTIONARY STATEMENTS
Hazard to Humans and Domestic Animals
CAUTION

Use Restrictions: It is advisable when handling any type of chemical product to use gloves. Do not treat pets with this product. Avoid contamination of ornamental plants. Harmful if swallowed. May cause eye irritation. Wash thoroughly after handling.

STORAGE & DISPOSAL: Do not contaminate water, food or feed by storage or disposal. **STORAGE:** Store in a dry place. Do not store where children or animals may gain access. **PESTICIDE DISPOSAL:** Securely wrap original container in several layers of newspaper and discard in trash. **CONTAINER DISPOSAL:** Do not reuse. Discard in trash.

STATEMENT OF PRACTICAL TREATMENT

If in eyes: Flush with plenty of water. Get medical attention if irritation persists. **If on skin:** Wash with soap and water. **If swallowed:** Drink large amounts of water. Get medical attention. **If inhaled:** Remove to fresh air.

DOMESTIC (HOMEOWNER USE) COCKROACHES, ANTS AND SILVERFISH

Use Restrictions: Apply only in areas inaccessible to children and pets. Avoid contamination of food and foodstuffs.

Application Directions for Cockroaches, Ant and Silverfish Control: Apply liberally, scattering under and behind refrigerator, stove, sink, dishwasher, washing machine and dryer, tubs into openings around drains, water pipes and electrical conduits, and in crack and crevices along baseboards and corners of cabinets, cupboards and closets. Remove all lower drawers in kitchen and bathroom cabinets, bedroom dressers and chest of drawers, then scatter liberally in drawer wells. Any powder visible after application must be brushed into cracks and crevices or removed. Reapply as necessary.

NON-DOMESTIC USE (NONEDIBLE PRODUCT AREAS ONLY)

Use Restrictions: Apply only in areas inaccessible to children and pets. Do not use in edible product areas of food handling establishments, restaurants, or other areas where food is commercially prepared or processed. Do not use in serving areas while food is exposed.

Directions for Applying in New and Existing Construction to Control Cockroaches: When treating large areas, such as wall voids, soffit, and subcabinet voids in new and existing construction, dust liberally using dusting application equipment.

Directions for Applying in Sewers and Manhole Cavities: Apply this product at a rate not to exceed 12 oz. per 190 sq. ft. using portable blowers or air pressure tanks.

Directions for Applying as a Mop Solution to Control Cockroaches:

Mixing and Application Directions: Add 1 cup of powder to each gallon of rinse water. Apply to floor areas only. Make only enough for each application. Supplemental treatment only.

Repeat as necessary. Any powder visible after application must be brushed into cracks and crevices or removed. Avoid contamination of feed and foodstuffs.

FOOD HANDLING ESTABLISHMENTS

Places other than private residences in which food or feed is held, processed, prepared or served.

1. FOOD AREAS (INCLUDING SOME SERVING AREAS)

Includes areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparing, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Also includes some SERVING AREAS.

FOOD SERVING AREAS

SERVING AREAS are facilities where food is served, such as dining room where food is prepared or held. These areas are considered FOOD AREAS if food is exposed and the facility is in operation. Follow application directions in this section. If food is not exposed and facility is not in operation, follow application directions under NONFOOD SERVING AREAS below.

Use Restrictions: FOOD AREA application is limited to CRACK AND CREVICE TREATMENT ONLY. Applications to other areas are not permitted.

Application Directions: Apply in small amounts directly into cracks and crevices using a bulbous duster or other suitable equipment capable of applying powder directly into cracks and crevices, in points between different elements of construction, between equipment and floors, openings leading to voids or spaces in walls, equipment legs and bases, conduits, motor housing, a switch boxes where cockroaches hide.

Care should be taken to avoid depositing the product onto exposed surfaces, introducing the material into the air. Avoid contamination of food or food processing surfaces.

2. NONFOOD AREAS (INCLUDING SOME SERVING AREAS)

Includes garbage rooms, lavatories, floor drains (to sewer), entries and offices, locker rooms, machine rooms, boiler rooms, garages, mop closets, storage (after canning or bottling). Also includes some SERVING AREAS.

SERVING AREAS are facilities where food is served, such as dining room where food is prepared or held. These areas are considered NONFOOD AREAS when food is not exposed and the facility is not in operation.

Follow application directions in this section. If food is exposed and the facility is in operation, follow application directions under FOOD SERVING AREAS.

Application Directions: Apply as a spot treatment to selective surfaces, baseboards, under elements of constructions into cracks and crevices, treating surfaces likely to be contacted by food.

OTHER NONFOOD AREAS

Application Directions: Apply to baseboards, areas around water pipes behind and beneath sinks, lockers, tables, pallets, and similar areas where cockroaches hide or through which they may enter.
