## HOW INSECOLO WORKS

INSECOLO uses a physical rather than a chemical method of control. The diatomaceous earth used in INSECOLO is made up of microscopic, whole diatoms which are very absorbent as well as very sharp. Thus INSECOLO will pierce the protective waxy coating of an insect and absorb vital moisture causing death by dehydration. INSECOLO is also baited with 3% food grade attractants which are baked onto the diatomaceous earth to draw the insects toward the product.

## WARRANTY STATEMENT

Hedley Technologies (USA) Inc. warrants that this product conforms to the ingredient statement on this label. Since conditions of application may vary, Hedley Technologies (USA) Inc. makes no claim other than those stated on this label.

## PRECAUTIONARY STATEMENTS

### HAZARDS TO HUMANS AND ANIMALS

**CAUTION:** Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. Use with adequate ventilation and avoid breathing dust. Wear a suitable dust mask when using this product during prolonged exposure.

### STATEMENT OF PRACTICAL TREATMENT

**IF IN EYES:** Flush eyes with plenty of water. Call a physician if irritation persists.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. **Storage:** Store in original container in a dry place. **Pesticide disposal:** Wrap container and put in trash collection or dispose in approved disposal facility. **Container disposal:** Triple rinse and recycle, or wrap and place in trash.

**In case of minor spill:** Vacuum, or dampen with water and sweep. Dispose of in trash.

**In case of major spill:** Wear respirator while wetting and loading; powder into containers. Dispose of in landfill.

# INSECOLO

## DOMESTIC (RESIDENTIAL) USE

INSECOLO controls insects such as:

ants	silverfish	spiders
fleas	scorpions	crickets
ticks	cockroaches	earwigs
	box elder bugs	

### CONTENTS

ACTIVE INGREDIENT:	
Silicon Dioxide (from diatomaceous earth)	97%
INERT INGREDIENTS:	3%
TOTAL	100%

KEEP OUT OF REACH OF CHILDREN

### CAUTION

See side panels for additional precautionary statements

200 g (7 oz)

## DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

INSECOLO is most effective when applied directly to the insect or in areas that the insect frequents. For continuous control, INSECOLO should be dusted lightly to any and all dry areas where insects crawl or run. Avoid breathing dust. Do not use as a space spray. Do not apply where children or patients can contact dust. In the home, cover all food handling surfaces and cover or remove utensils and wash thoroughly after treatment.

For proper control, insects must come into full contact with INSECOLO. Therefore, it may take several days or applications to control an entire colony or group of insects because of eggs and newly hatched larvae. When used according to directions, death of crawling insects in infested areas continues until product is depleted, dampened or removed. The killing time for one insect ranges from 2 to 48 hours. To remove dust, use vacuum, mop, sponge or spray the dust lightly with water and sweep. If this product or treated areas become damp after application, clean, dry and retreat area with INSECOLO.

For control of crawling insects apply INSECOLO sparingly into the following spaces: in cracks or crevices along windowills and door frames, under furniture, under and behind appliances, around pipes coming through walls, under sinks, below floors, above ceilings, within walls, in utility closets, around garbage containers, in attics, in spaces above suspended ceilings, garages, porches, utility rooms, storage rooms, basements, and outdoors under eaves. A thorough treatment at a rate of 7 oz. per 500 sq. ft. is required for good control. For long legged insects and spiders, INSECOLO must be applied directly onto the insect.
