US ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (TS 767)
WASHINGTON, DC 20460

EPA REGISTRATION NO.
67003-4

DATE OF ISSUANCE
10/22/73

TERM OF ISSUANCE

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

Granular S.D.I.C.

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

ICI Americas Inc.
P.O. Box 15391
Wilmington DE 19850

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release the product for shipment:

1. Refer to the enclosed Attachment A for the necessary revisions to the Precautionary Statements for the subject product.

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

DATE

Submit a revised Confidential Statement of Formula. The nominal concentration of 97.5% should fall between the upper and lower certified limits, not equal to or lower than the low certified limit of 97.9%. You may wish to lower the lower limit to not less than 94.6%

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

GRANULAR S.D.I.C.

(Sodium Dichloroisocyanurate)

DANGER: HIGHLY CORROSIVE. CAUSES SKIN AND EYE DAMAGE. MAY BE FATAL IF SWALLOWED.

**Precautionary Statements
Hazard to Humans and
Domestic Animals**

Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS: Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseat container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water if necessary.

EPA Est. No.
EPA Reg. No. 67003-4

Active Ingredient:
Sodium dichloro-s-triazinetrione and related isocyanurates.....97.8%*
Inert ingredients.....2.2%
*Available chlorine.....92%

KEEP OUT OF REACH

**OF CHILDREN
DANGER**

STATEMENT OF PRACTICAL TREATMENT: If swallowed, drink large amounts of water. DO NOT induce vomiting. Avoid alcohol. Call a physician or poison control center immediately. Probable mucosal damage may contraindicate the use of gastric lavage.

If on skin, brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.

If in eyes, flush with cold water for at least 15 minutes. Get medical attention.

**SEE ADDITIONAL PRECAUTIONS
ON SIDE PANEL**

STORAGE AND DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. **Storage:** Keep product dry in tightly closed container when not in use. Store in a cool, well-ventilated area away from heat or open flame. In case of decomposition, isolate container, if possible, and flood with large amounts of water to dissolve all material before discarding.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill or by incineration if allowed by State and local authorities. If drum is contaminated and cannot be reused, dispose of in the same manner.

NOTICE TO BUYER

Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. This warranty does not extend to the use of this product contrary to label instructions or under abnormal use conditions, or under conditions not reasonably foreseeable to the Seller, and Buyer assumes the risk of any such use. Seller disclaims all other warranties, implied or expressed, including any warranty of FITNESS or MERCHANTABILITY.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR SWIMMING POOLS

1. **STABILIZE** pool with isocyanuric Acid. Follow directions for use on label of Isocyanuric Acid Stabilizer. Omit if it has been done previously.

2. **CHECK RESIDUAL CHLORINE** with a reliable test kit. If below 1.0 parts per million (ppm), add 10 ounces Granular S.D.I.C. per 10,000 gallons. Repeat this dosage until a chlorine residual of 1.0 - 1.5 ppm has been established. Add product to water by broadcasting over pool surface preferably at deep end.

3. **MAINTAIN RESIDUAL CHLORINE:** Add Granular S.D.I.C. daily or as needed to maintain 1.0 - 1.5 ppm residual chlorine (two ounces of Granular S.D.I.C. supply 1.0 ppm chlorine to 10,000 gallons of water). Additional dosages may be required during exceptionally hot weather or when many people are using the pool.

4. **MEASURE pH** immediately and at least once each week with a reliable pool test kit. Adjust pH to 7.2 - 7.6 if necessary. pH can be decreased by adding a suitable agent such as sodium bisulfite or increased by adding a suitable agent such as soda ash. Follow directions for use on labels of these products.

NOTE: Reentry into treated pool is prohibited above levels of 3 ppm chlorine.

FOR SPAS AND HOT TUBS

1. **CHLORINATE:** Add one-half ounce Granular S.D.I.C. per 500 gallons of water. Wait 5 minutes, then check chlorine residual. Chlorine residual must read between 2.0 - 3.0 ppm. If it does not, additional amounts of Granular S.D.I.C. should be added until it does. Once the chlorine level is established in the 2 - 3 ppm range, the pool may be entered.

2. **MAINTAIN** as necessary. Frequent chlorinating using a reliable test kit is essential to maintain a residual of 1.0 - 1.5 ppm.

NOTE: Residual chlorine levels of 3 ppm or above are necessary for the disinfection of the pool.

3. **CHECK** pH with a reliable test kit and maintain at 7.2 - 7.6. Sparkling water is not suitable for swimming pools. Add suitable agent as directed on label.

HOW TO USE

Rectangular pool: width x 7.5

Circular: Diameter of water

Oval with average depth

Irregular: Contact your local pool dealer

Granular S.D.I.C. is designed for use in hot tubs. Check pH of water effectiveness
