US ENVIRONMENTAL PROTECTION AGENCY 67003-5 OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS-767) TERM OF ISSUANCE WASHINGTON, DC 20460 NAME OF PESTICIDE PRODUCT NOTICE OF PESTICIDE: REGISTRATION REREGISTRATION (Under the Federal Insecticide, Fungicide, T.I.C.A. 1" Tablets and Rodenticide Act, as amended) NAME AND ADDRESS OF REGISTRANT (Include ZIP code) 7 ICI Americas, Inc. P.O. Box 15391 Wilimngton, DE 19850 ┙ NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number. On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act. A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith. Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others. Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(q)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product. Make the following labeling changes before you release the product for shipment: Revise the precautionary and practical treatment statements in your labeling in accordance with the circled comments in the enclosed Attachment A. A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a monner inconsistant with its labeling.

FOR SWIMMING POOLS

Proper conditioning of water is necessary to insure maximum effectiveness of T.I.C.A. 1" Tableta. Proviously unconditioned pools should be treated with ICA. Follow instructions on the ICA labet.

Adjust peal water pH to 7.2 - 7.6. Use suitable agents such as easturn blooffite to lower pH and seds safe to relies pH. Fellow instructions on the tobel of the products used.

MAINTENANCE DOSE: For every 1,000 gallone of water, put the AUTOMATIC CHLORINATOR 2.T.J.C.A. 7° Tehlots every 7 - 10 days. Check peel weter frequently with a test kill and maintain 1.0 -1.8 ppm chlorine residual and pH of 7.2 -7.6.

During extremely hot weather and/or heavy bething leads, additional design may be required. This can be schieved by adding 20 more tablets to the leader for each 10,000 gallone of pool water. This provides 0.5 ppm additional chlorine design during the next? days. However, if immediate chlorine design is required, one directions on T.I.C.A. Granular for quick adjustment of the residual chlorine to 1.1 ppm. After adjustment to 1.1 ppm residual chlorine by the addition of T.I.C.A. Granular, the 1° Tablets when used as directed will maintain the residual chlorine level between 1.8 and 1.5 ppm under normal use conditions.

NOTE: Reenity into treated post is prohibited above levels of 3 ppm chlorins.
