

MAR 24 2005

Ms Catherine B. Rice
Becker Underwood, Inc.
801 Dayton Avenue
P.O. Box 667
Ames, IA 50010

Dear Ms. Rice:

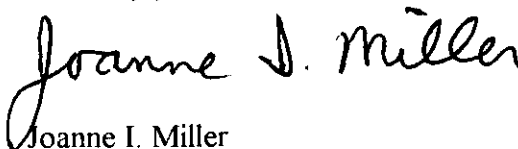

SUBJECT: Admiral Liquid
Label Amendment- Split Labels for Residential/Commercial Uses
EPA Registration No. 67064-2
Dated December 22, 2004

The label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended is acceptable provided the following revision is made:

On the Residential and Non-Residential labels, move the "Environmental Hazards" section from its current position before the First Aid section to a position after the First Aid section.

The amended label supersede all previously accepted ones. A stamped copy is enclosed for your records. Please submit one copy of your label before you release the product for shipment.

Sincerely yours,

Joanne I. Miller
Product Manager (23)
Herbicide Branch
Registration Division (7505C)

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

**ACCEPTED
with COMMENTS
In EPA Letter Dated:
MAR 24 2005**

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

67064-2

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

ENVIRONMENTAL HAZARDS

Shoreline non-target plants (cattails, water lilies) may suffer contact burn if material is accidentally poured on them. Apply this product only as specified on the label. Do not make applications when weather conditions favor drift from target area. Do not apply where runoff is likely to occur.

FIRST AID	
If on skin or clothing:	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor or going for treatment.	
You may also contact 1-800-424-9300 for emergency medical treatment information.	

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

APPLICATIONS

Use in natural or manmade ponds, lakes, fountains, fish farms, fish hatcheries, golf course and swimming ponds. Water must be under the complete control of the user and have little or no outflow (dye concentration must be maintained). Do not apply directly to streams, or any body of water that may be used for human consumption. Do not apply to water for swimming pools if chlorine is used, as color will degrade.

APPLICATION PROCEDURES

Admiral™ LIQUID is easy to apply and rate calculations are simplified. Consult the recommended dosage chart for suggested rates. Optimum results are achieved by applying prior to or early in the growing season when weeds are on the bottom of a body of water or when aquatic vegetation is growing at depths greater than 2 feet. Reapply as needed during the growing season.

Admiral™ LIQUID is usually applied directly from the container near the shoreline. However, Admiral™ LIQUID may even be applied while ice is still covering a body of water. Pour Admiral™ LIQUID on the ice in a circle approximately one yard (approx. 1 meter) in diameter. The ice will melt and Admiral™ LIQUID will be dispersed into the water beneath the ice.

Physical removal or other aquatic weed control methods may be used before or after applications of Admiral™ LIQUID. When using an aquatic herbicide, follow all label restrictions, precautions, and directions for use.

RECOMMENDED DOSAGE RATES

Area to be Treated	Rate of Admiral™ LIQUID	
	1 ppm ¹	2 ppm ²
1 Acre-foot (325,851 gal) ³ [1,234 cubic meters]	1 quart (0.95 liter)	2 quart (1.9 liters)
4 Acre-feet [4,936 cubic meters]	1 gallon (3.8 liters)	2 gallons (7.6 liters)
8 Acre-feet [9,872 cubic meters]	2 gallons (7.6 liters)	4 gallons (15.2 liters)

¹The following weeds are controlled at 1 ppm when growing at depths greater than 2 feet: Chara, Filamentous Blue and Bluegreen Algae, Leafy pond Weed, Spirogyra, Slender Naiad, Water Milfoil (treat early).

²For prevention of *Hydrilla* tuber production, apply at 2 ppm after an herbicide treatment.

³One (1) Acre-foot is an area comprising 1 Acre, 1 foot deep.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store above 32°F (0°C) to prevent freezing.

PESTICIDE DISPOSAL: Product or rinse water that cannot be used according to label instructions must be disposed of according to Federal or approved State procedures. Water resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

Notice: Becker Underwood, Inc. makes no express or implied warranties of fitness or merchantability or any other kind whatsoever, except that the product conforms to the specifications on the label. Becker Underwood, Inc.'s sole liability on the warranty is limited, at Becker Underwood's option, to replacement of the defective product or return of the purchase price paid for the defective product. Under no circumstance shall Becker Underwood, Inc. be liable for incidental, consequential, or special damages. The buyer assumes all risks and liability resulting from the use of this product, whether used singly or in combination with other goods. Becker Underwood, Inc. neither assumes, nor authorizes any person to assume for it, any other liability in connections with the sale or use of this product.
