

ACTICIDE® SR 1216/6 (INDUSTRIAL MILDEWCIDE)

Precautionary Statements: Hazards to Humans and Domestic Animals **DANGER**

ENVIRONMENTAL HAZARDS

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the Environmental Protection Agency.

STORAGE AND DISPOSAL

DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.

PESTICIDE STORAGE: Store away from food and drinking water. Store in the original container only. Store in a dry place

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess product or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at your nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Completely empty container into application equipment. Then dispose of container in a sanitary landfill, or by incineration, or if allowed by state and local authorities by burning. If burned, stay out of smoke.

GENERAL: CONSULT FEDERAL, STATE OR LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES.

CONDITIONS OF SALE AND WARRANTY

Thor GmbH warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label only when used in accordance with label directions under normal conditions of use. THOR GMBH MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES EITHER OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE. Handling, storage and use of the product by Buyer or User are beyond the control of Thor GmbH and Seller. Risks such as ineffectiveness or other unintended consequences resulting from, but not limited to, failure to follow label directions will be assumed by the Buyer or User. IN NO CASE WILL THOR GMBH OR SELLER BE HELD LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE HANDLING, STORAGE OR USE OF THIS PRODUCT.

EPA Reg. No. 67071-17 EPA Est. No. 67071-DEU-001

Manufactured By: Thor GmbH
D-67346 Speyer, Germany Tel. (06232) 6360

U.S. Office: Acti-Chem Specialties, Inc.
56 Quarry Road; Trumbull, CT 06611 USA
Tel. (203) 365-6530

Active Ingredients:

Diuron [3-(3,4-dichlorophenyl)-1,1-dimethylurea]	19.00%
Chlorothalonil (Tetrachloroisophthalonitrile)	8.80%
2-N-Octyl-4-isothiazolin-3-one	6.00%
OTHER INGREDIENTS	66.20%
TOTAL	100.00%

KEEP OUT OF REACH OF CHILDREN **DANGER**

See Side panel for additional precautionary statements

FIRST AID

- IF IN EYES: hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
- IF ON SKIN: take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 20 minutes. Call a poison control center or doctor for treatment advice.
- IF SWALLOWED: call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor.
- IF INHALED: move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. call a poison control center or doctor for treatment advice.
- In case of emergency call toll free (800)424-9300. Have the product container or label with you when you call a poison control center or doctor or going for treatment.
- NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. [3-(3,4-dichlorophenyl)-1,1-dimethylurea and 2-N-Octyl-4-isothiazolin-3-one], 9, UN 3082, PG-III

Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed or inhaled. Avoid breathing spray mist. Wear protective eyewear (goggles, face shield or safety glasses). Wear protective clothing and gloves. Prolonged or frequently repeated skin contact may cause allergic reaction in some individuals. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

PERSONAL PROTECTIVE EQUIPMENT:

Handlers must wear:

- goggles or face shield
- coveralls worn over long-sleeved shirt and long pants
- chemical resistant gloves, such as barrier laminate, butyl rubber, neoprene rubber, nitrile rubber, polyvinyl chloride [pvc and vitor] -socks
- chemical-resistant footwear
- dust/mist filtering respirator with MSHA/NIOSH approval number prefix (TC-21C), OR NIOSH approved respirator with any N, R, P, or HE prefilter.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

The formulated product is intended for use as an industrial mildewcide for the control of fungal and algal growth in paint films, coatings, stains, polymer lattices, and the following building materials: sealants, mastics, and caulks. The product must not be formulated into a product of intermediate intended as a mildewcidal paint additive designed for direct sale to retail customers, e.g. in "pillow pack" or other small volume or one-use package. This product may only be added to paint products that are labeled as follows: "When applying with a sprayer, wear a dust/mist filtering respirator (MSHA/NIOSH approval number prefix TC-21C), or a NIOSH approved respirator with any R, P, or HE filter. If the paint product is not oil-based nor oil recommended for use as an additive in the paint READ AND FOLLOW THE DIRECTIONS FOR USE ON THE ACCOMPANYING INFORMATION SHEET.

* Not approved for use in the State of California

ACTICIDE® SR 1216/6 INFORMATION SHEET

THIS ACTICIDE® SR 1216/6 INFORMATION SHEET MUST ACCOMPANY EACH SHIPMENT OF ACTICIDE® SR 1216/6

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

MILDEWCIDE APPLICATIONS

The product must not be formulated into a product of intermediate intended as a mildewcidal paint additive designed for direct sale to retail customers, e.g., in "pillow pack" or other small volume or one-use package. This product may only be added to paint products that are labeled as follows: "When applying with a sprayer, wear a dust/mist filtering respirator (MSHA/NIOSH approval number prefix TC-21C), or a NIOSH approved respirator with any R, P, or HE filter. If the paint product is not oil-based nor oil recommended for use as an additive in the paint

To be used only as an industrial mildewcide for the control of fungal and algal growth in paint films, coatings, stains, polymer latices, and the following building materials: sealants, mastics, and caulks.

Acticide SR-1216/6 is a mildewcide for addition to polymer emulsions including styrene-acrylic and styrene-butadiene latices, polyvinylacetate latices and other water-based polymer latices for use in paints and special purpose coatings and in architectural and product coatings. Not for incorporation in products used to paint swimming pools.

Add Acticide SR-1216/6 at levels of 0.20% to 2.5% (wt/wt) based on the coating, paint or polymer emulsion used on the surface. For interior latex paints or coatings, and the following building materials: sealants, mastics, and caulks apply Acticide SR-1216/6 at levels of 0.20% to 0.75% (wt/wt). For exterior latex emulsions and the following building materials: sealants, mastics, and caulks and solvent based formulations, use 0.20% to 1.0% (wt/wt). However, for exterior use in highly demanding climates, at higher temperatures and under higher humidity conditions, (where high fungi and algae levels may be present), up to 2.5% Acticide SR-1216/6 may be required for ultimate protection of the dried films. Apply during or following pigment grinding operation.

It is recommended the formulator perform cost-performance evaluations to determine the optimum dosage rate for their particular system. If questions arise concerning other modifications or conditions, contact Acti-Chem Specialties, Inc., in Trumbull, CT.

* Not approved for use in the State of California
