UNITED STATES ENVIRONMENTAL PROTECTION AGENCY  
WASHINGTON, D.C. 20460

OFFICE OF  
PREVENTION, PESTICIDES AND  
TOXIC SUBSTANCES

JUL 29 2014

Ms. Cheryl Woodward  
Regulatory Specialist for,  
THOR Specialties, Inc.  
56 Quarry Road  
Trumbull, CT 06611

Subject: Acticide B.20  
EPA Registration Number 67071-22  
Your Amendment Dated March 31, 2014  
EPA Received Date April 21, 2014

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, FIFRA, as amended, to increase in the minimum use level of concrete admixtures and add other labeling revisions to the product labeling, is acceptable.

Submit and/or cite all data required for registration/reregistration/registration review of your product when the Agency requires all registrants of similar products to submit such data. A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. The next label printing of this product must use this labeling unless subsequent changes have been approved. You must submit one (1) copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and it's implementing regulation at 40 CFR 152.3.

If you have any questions concerning this letter, please contact Karen M. Leavy-Munk at (703)-308-6237.

Sincerely,

Eric Miederhoff  
Acting Product Manager, Team 33  
Regulatory Management Branch I  
Antimicrobials Division(7510P)  
Office of Pesticide Programs  
Environmental Protection Agency

# ACTICIDE® B20

**ENVIRONMENTAL HAZARDS**

This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. Do not contaminate water by cleaning of equipment or disposal of waste.

**PHYSICAL AND CHEMICAL HAZARD**

Keep away from strong oxidizers.

**STORAGE AND DISPOSAL**

Prohibitions: Do not contaminate water, food or feed by storage, disposal or cleaning of equipment. Open dumping is prohibited.

**Pesticide Disposal:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL**

Non-refillable container. Do not reuse or refill this container. Triple rinse container promptly after emptying. Triple rinse as follows: [For containers < 5 gallons in size] - Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container 1/4 full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. [For containers > 5 gallons in size] - Empty the remaining contents into application equipment or a mix tank. Fill the container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

GENERAL: CONSULT FEDERAL, STATE OR LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES.

**CONDITIONS OF SALE AND WARRANTY**  
Thor GmbH warrants that the product conforms to its chemical description and is reasonably fit for the purposes stated on the label only when used in accordance with label directions under normal conditions or use. THOR GMBH MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES EITHER OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE. Handling, storage and use of the product by Buyer or User are beyond the control of Thor GmbH and Seller. Risks such as ineffectiveness or other unintended consequences resulting from, but not limited to, failure to follow label directions will be assumed by the Buyer or User. IN NO CASE WILL THOR GMBH OR SELLER BE HELD LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE HANDLING, STORAGE OR USE OF THIS PRODUCT

**Precautionary Statements:**  
To Humans and Domestic Animals

**DANGER**

Corrosive. Causes irreversible eye damage. Do not get in eyes, on skin, or on clothing. May be fatal if inhaled. Do not breathe vapor or spray mist. Harmful if swallowed. Harmful if absorbed through skin. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Wear goggles or face shield, a respirator with an organic-vapor removing cartridge with a prefilter approved for pesticides (MSHA/NIOSH approval number prefix TC-25C), or a canister approved for pesticides (MSHA/NIOSH approval number prefix TC-14G), or a NIOSH approved respirator with shirt, long pants, shoes, socks, and chemical-resistant gloves made of barrier laminate, butyl, nitrile, or neoprene rubber, polyvinyl chloride or viton. Remove PPE immediately after handling this product. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Discard clothing and other absorbent materials that have been decontaminated or heavily contaminated with this product's concentrate. Do not reuse them. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing/PPE immediately, then wash thoroughly and change into clean clothing.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Industrial microbicide for use in aqueous compositions such as oil in water emulsions, latices, paints, adhesives, casein/rosin dispersions, building materials such as tape joint compounds, aqueous slurries, dispersed pigments, such as titanium dioxide slurries, inks, pesticide formulations, textile spin-finish solutions, leather processing solutions, for the preservation of fresh animal hides and skins, \*slime control, \*oil recovery systems, and for use in household consumer, industrial, janitorial products. **READ AND FOLLOW THE DIRECTIONS FOR USE ON THE ACCOMPANYING INFORMATION SHEET.**

# ACTICIDE® B20 INFORMATION SHEET

**THIS ACTICIDE® B20 INFORMATION SHEET MUST ACCOMPANY EACH SHIPMENT OF ACTICIDE® B20**

## DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

ACTICIDE® B20 is an effective preservative in most aqueous compositions. Typical applications and suggested range of use concentrations based on total weight of product are as follows:

|  |   |
|--|---|
| <b>OIL IN WATER EMULSIONS</b><br>Spin-finish solutions for use in textile industry and photographic emulsions.   | <b>0.05 – 0.25%</b><br>0.5 - 2.5 LB / PER 1000 LB PRODUCT |
| *Cutting/rolling oils. *Soluble oils (metal and engineering industries).<br>We suggest that the addition to metal-working fluid concentrates of ACTICIDE® B20 should be limited to 1.5% maximum. This will give a maximum recommended use level of 0.15% ACTICIDE® B20 in a 10:1 dilution of the concentrate and reduce the possibility of skin sensitization.<br><i>* Not approved for this use in the state of California</i>  | <b>0.05 – 0.25%</b><br>0.5 - 2.5 LB / PER 1000 LB PRODUCT |
| <b>LATICES</b><br>Polymer latices based on acrylates, PVA, butadiene and styrene for various applications. Synthetic/rubber latices.   | <b>0.05 – 0.25%</b><br>0.5 - 2.5 LB / PER 1000 LB PRODUCT |
| <b>EMULSION PAINTS</b><br>As an in-container preservative.   | <b>0.05 – 0.25%</b><br>0.5 - 2.5 LB / PER 1000 LB PRODUCT |
| <b>ADHESIVES</b><br>Animal glues, vegetable glues, carboxymethylcellulose and derivatives, adhesives based on gelatin and latices.   | <b>0.05 – 0.25%</b><br>0.5 - 2.5 LB / PER 1000 LB PRODUCT |
| <b>PAPER COATING COMPOSITIONS</b><br>Rosin dispersions, starch and casein based products.  | <b>0.05 – 0.25%</b><br>0.5 - 2.5 LB / PER 1000 LB PRODUCT |
| <b>PESTICIDE FORMULATIONS</b><br>For product preservation. For ultimate use-dilution protection. ACTICIDE® B20 is exempt from tolerance under 40 CFR 180. Materials exempted from the requirements of a tolerance when used in accordance with good agricultural practices as inert (or occasionally active) ingredients in pesticide formulations applied to growing crops only. Based on the current limit of 0.1% BIT in formulations, use levels up to 0.5% (5,000 ppm) ACTICIDE® B20 are allowed.<br>For use in pesticide products that are not applied to crops, ACTICIDE® B 20 should be added to concentrates at a level to ensure that the final use dilution of the product will contain 0.05 to 0.25% ACTICIDE® B 20. | <b>0.05 – 0.25%</b><br>0.5 - 2.5 LB / PER 1000 LB PRODUCT |
| <b>INKS</b>  | <b>0.05 – 0.25%</b><br>0.5 - 2.5 LB / PER 1000 LB PRODUCT |

**ACCEPTED**

**JUL 29 2014**

Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide, registered under EPA Reg. No. 67071-22

# ACTICIDE<sup>®</sup> B20 INFORMATION SHEET

**THIS ACTICIDE<sup>®</sup> B20 INFORMATION SHEET MUST ACCOMPANY EACH SHIPMENT OF ACTICIDE<sup>®</sup> B20**

## DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

### PRESERVATION OF FRESH ANIMAL HIDES AND SKINS:

To preserve the integrity of fresh animal hides and skins prior to or during processing, use 13 fluid ounces to 2.5 gallons (1.0 – 24 lb) of ACTICIDE<sup>®</sup> B20 per 1000 pounds of hides or skins. Add the appropriate quantity of ACTICIDE<sup>®</sup> B20 to the brine solution during the curing operation, or treat hides or skins with an appropriately diluted aqueous solution during other portions of the processing operation. The specific use rate and contact time needed to control microbial attack will depend upon the degree of decomposition of the hides or skins prior to treatment.

### \*SLIME CONTROL

Shock Dosing: 70 to 260 grams (2 1/2 - 9 oz) of ACTICIDE<sup>®</sup> B20 for each ton of paper produced per day should be added as a single daily shock dose, the actual quantity used depending on the severity of the slime problem. This addition may be made to any part of the stock preparation or backwater system.

Continuous addition: ACTICIDE<sup>®</sup> B20 should be added continuously for either the single period of 8 hours during every 24 hours or for two separate periods of 4 hours during every 24 hours. ACTICIDE<sup>®</sup> B20 should be metered at the rate of 195-230 grams (7-8.3 oz) for each ton of paper produced during the dosing period. This addition should be made to the recirculated backwater.

*\* Not approved for this use in the state of California*

### \*OIL RECOVERY SYSTEMS

Drilling fluids, packer fluids, completion fluids (polysaccharide fluid loss control agents and thickeners including starch, guar, and xanthan gum) add 0.05% to 0.15% based on the fluid weight or 1.5% - 4.5% based on the dry polysaccharide weight

Subsurface injection waters including polymer and micellar/polymer waterfloods (thickeners including xanthan gum and polyacrylamides): add 0.015% to 0.15% based on solution weight

*\* Not approved for this use in the state of California*

**ACCEPTED**  
**JUL 29 2014**  
Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide, registered under EPA Reg. No. 67071-12
