Shelton, CT 06484

Subject: Notification per PRN 98-10 – Requested Changes by State of California
Product Name: Acticide M10S
EPA Registration Number: 67071-48
Application Date: October 11, 2016
Decision Number: 522667

Dear Ms. Behr:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Antimicrobials Division (AD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

Should you wish to add/retain a reference to the company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance.

If you have any questions, you may contact Terria Northern at 703-347-0265 or via email at northern.terria@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to be 'J. Chao', written in a cursive style.

for

Julie Chao, Product Manager 33
Regulatory Management Branch I
Antimicrobials Division (7510P)
Office of Pesticide Programs

ENVIRONMENTAL HAZARDS

This chemical is toxic to terrestrial and aquatic plants, fish and aquatic invertebrates. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA. Do not contaminate water by cleaning of equipment or disposal of waste. Apply this pesticide only as specified on this label.

STORAGE AND DISPOSAL

Prohibitions: This product is corrosive to mild steel. Do not store or transport in unlined metal containers. Do not contaminate food or feed by storage, disposal or cleaning of equipment.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL

Non-refillable container. Do not reuse or refill this container. Triple rinse container promptly after emptying. Triple rinse as follows: [For containers < 5 gallons in size] - Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. [For containers > 5 gallons in size] - Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

GENERAL: CONSULT FEDERAL, STATE AND LOCAL DISPOSAL AUTHORITIES FOR APPROVED ALTERNATIVE PROCEDURES

CONDITIONS OF SALE AND WARRANTY

Thor GmbH warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label only when used in accordance with label and labeling directions under normal conditions of use. THOR GMBH MAKES NO OTHER EXPRESS OR IMPLIED WARRANTIES EITHER OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE. Handling, storage and use of the product by Buyer or User are beyond the control of Thor GmbH and Seller. Risks such as ineffectiveness or other unintended consequences resulting from, but not limited to, failure to follow label directions will be assumed by the Buyer or User. IN NO CASE WILL THOR GMBH OR SELLER BE HELD LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE HANDLING, STORAGE OR USE OF THIS PRODUCT.

ACTICIDE® M10S

Active Ingredients:
 2-Methyl-4-isothiazolin-3-one 9.50%
 Inert Ingredients: 90.50%
 Total: 100.00%

**KEEP OUT OF REACH OF CHILDREN
 DANGER-PELIGRO**

See Side panel for additional precautionary statements

FIRST AID	
If in Eyes:	<ul style="list-style-type: none"> ➢ Hold eye open and rinse slowly and gently with water for 15-20 minutes. ➢ Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. ➢ Call a poison control center or doctor for treatment advice.
If Swallowed:	<ul style="list-style-type: none"> ➢ Call a poison control center or doctor immediately for treatment advice. ➢ Have person sip a glass of water if able to swallow. ➢ Do not induce vomiting unless told to do so by the poison control center or doctor. ➢ Do not give anything by mouth to an unconscious person.
If inhaled:	<ul style="list-style-type: none"> ➢ Move person to fresh air. ➢ If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. ➢ Call a poison control center or doctor for further treatment.
If on Skin: Or Clothing	<ul style="list-style-type: none"> ➢ Take off contaminated clothing. ➢ Rinse skin immediately with plenty of water for 15-20 minutes. ➢ Call a poison control center or doctor for treatment.
<p>HOT LINE NUMBER: Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-424-9300 for emergency medical treatment information.</p>	
<p>Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage.</p>

NOTIFICATION

67071-48

Batch:	Mfg Date: The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated: <u>10/21/2016</u>	Net Contents (pounds): _____ (gallons): _____
---------------	---	--

**Precautionary Statements:
 Hazards to Humans and Domestic
 Animals**

Corrosive. Causes irreversible eye damage. Harmful if absorbed through skin. Harmful if inhaled or swallowed. Avoid contact with eyes, skin, or clothing. Avoid breathing vapor or spray mist. Wash thoroughly with soap and water after handling.

User Safety Requirements:

Discard clothing or other absorbent materials that have been drenched or heavily contaminated with this product's concentrate. Do not reuse them. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washable exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Users should wash hands before eating, drinking, chewing gum, using tobacco, or using toilet. Users should remove clothing immediately if pesticide gets inside. Then wash contaminated area on body thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly. Remove and wash contaminated clothing before reuse.

Mixers, loaders, and others exposed to methylisothiazolinone products must wear: - long-sleeve shirt and long pants; - protective eyewear (goggles or face shield); - chemical-resistant glove; - shoes plus socks

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons.

Industrial microbiocide for use in Polymer Latexes, Paints and Coatings, *Building Materials, *Fuels, Adhesives and *Tackifiers, Mineral Slurries and *Oil-in-Water emulsions, *Textiles/Cordage products and *Textile-/Textile Fibers-Making and as preservative for metal working fluids, Household, Consumer, Industrial, Institutional, Janitorial Products. **READ AND FOLLOW THE DIRECTIONS FOR USE ON THE ACCOMPANYING INFORMATION SHEET.**

* Not approved for use in the state of California

ACTICIDE® M10S INFORMATION SHEET

THIS ACTICIDE® M10S INFORMATION SHEET MUST ACCOMPANY EACH SHIPMENT OF ACTICIDE® M10S

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

PRESERVATIVE FOR LATICES

ACTICIDE® M10S microbiocide is recommended for the control of bacteria and fungi in the manufacture and storage of synthetic and natural polymer latices including: acrylics, styrene-butadiene, carboxylated styrene-butadiene, ethylene-vinyl acetate and biopolymers intended for industrial use such as xanthan gum, gum arabic, guar gum, protein derived polymers, starches and casein derived polymers.

0.10 – 0.25%

1.0 – 2.5 LB per 1000 LBS of emulsion
(0.45 – 1.13 kg per 454 kg emulsion)

PRESERVATIVE FOR PAINTS AND COATINGS

ACTICIDE® M10S microbiocide is recommended as an in-container preservative for the control of bacteria and fungi in water based coatings such as paper and wood coatings and paints used for architectural product finishes and special purpose coatings.

0.076 – 0.15%

0.76 – 1.5 LB per 1000 LBS of paint or coating fluid formulation
(0.34 – 0.68 kg per 454 kg formulation)

***Special purpose coating uses:**

Include use as a preservative for electrodeposition paints or solutions, electroplating solutions or coatings, fountain (or fountain) solutions used in the printing process as maintenance fluids/coatings and as special coatings for printing plates, and in spin finish coatings for fibers. The application/addition directions for these special purpose coating uses are:

Remove asterisk→*Electrodeposition:

ACTICIDE® M10S microbiocide is recommended as a tankside additive for the control of bacteria, fungi, and **Add asterisk→*algae** in re-circulating electrodeposition systems and associated rinse systems. Alternately, ACTICIDE® M10S microbiocide may be added through the components of the electrodeposition paint prior to their addition to the electrodeposition system.

Tankside Addition to Electrodeposition Systems: ACTICIDE® M10S microbiocide should be dispensed into the recirculating rinse system, ultrafilter permeate, or final distilled rinse system at a point to insure uniform mixing. When the system is noticeably fouled, add up to 0.25% ACTICIDE® M10S microbiocide (based on the total gallons of fluid in the system). Repeat until control is achieved. When microbial control is evident, add up to 0.25% ACTICIDE® M10S (based on the total gallons of fluid in the system) weekly or as needed to maintain the system. A change of frequency of treatment may be required depending on the rate of dilution of the preservative with the makeup fluid, the nature and severity of contamination, level of control required, filtration effectiveness, system design, etc.

**Not approved for this use in the state of California*

ACTICIDE® M10S INFORMATION SHEET

THIS ACTICIDE® M10S INFORMATION SHEET MUST ACCOMPANY EACH SHIPMENT OF ACTICIDE® M10S

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Remove asterisk→*Treatment of electrodeposition paint components:

Initial dose of paint components: ACTICIDE® M10S microbiocide should be added to the resin, pigment, or other component of the electrodeposition paint at a level to ensure that the final use-dilution fluid will contain no more than 0.25% ACTICIDE® M10S.

**Not approved for this use in the state of California*

***Photo/photoplate processing and fountain solutions:**

ACTICIDE® M10S microbiocide is recommended for the control of bacteria and fungi in *photo/photoplate processing such as in stabilizer solutions and fountain solutions. ACTICIDE® M10S microbiocide should be added to achieve the recommended dosage range for fountain solutions and *photoplate processing chemicals of 0.076% to 0.25% on a total weight basis. A level adjustment may be necessary to accommodate the slight change in solution formulations. ACTICIDE® M10S may be added to concentrates at levels higher than 0.25% so long as the final use-dilution product contains not more than 0.25% ACTICIDE® M10S.

**Not approved for this use in the state of California*

Ink/Ink Components:

ACTICIDE® M10S microbiocide is recommended for water-based printing inks such as flexographic, gravure, screen and ink jet types. ACTICIDE® M10S microbiocide is recommended for the control of bacteria and fungi in printing ink components such as resins, plasticizers, water soluble dyes, pigments, gelling agents, waxes, surfactants, and thickeners. ACTICIDE® M10S microbiocide should be added to achieve the recommended dosage range for ink and ink components of 0.14% to 0.25% on a total weight basis. A level adjustment may be necessary to accommodate the slight change in solution formulations. ACTICIDE® M10S may be added to concentrates at levels higher than 0.25% so long as the final use-dilution product contains not more than 0.25% ACTICIDE® M10S.

***PRESERVATIVE FOR BUILDING MATERIALS**

ACTICIDE® M10S microbiocide is recommended as an in-container preservative for the control of bacteria and fungi in building materials such as mastics, caulks, joint cements, spackles and grouts.

**Not approved for this use in the state of California*

0.076 – 0.25%

0.76 – 2.5 LB (0.34 – 1.13 kg) per
1000 LBS of fluid

PRESERVATIVE FOR CONCRETE ADMIXTURES

ACTICIDE® M10S microbiocide is recommended as an in-container preservative for the control of bacteria and fungi in concrete admixtures.

0.20 – 0.25%

2.0 – 2.5 LB per 1000 LBS of
fluid

ACTICIDE[®] M10S INFORMATION SHEET

THIS ACTICIDE[®] M10S INFORMATION SHEET MUST ACCOMPANY EACH SHIPMENT OF ACTICIDE[®] M10S

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

PRESERVATIVE FOR METAL WORKING FLUIDS

ACTICIDE[®] M10S microbicide is recommended for the control of bacteria and fungi in aqueous metal working fluid solutions and emulsions.

A higher dosage rate and/or increased frequency of treatment may be required depending upon the nature and severity of contamination, level of control required, filtration effectiveness, system design, etc. The preservative should be dispensed into the use dilution of the metal working fluid using a metering pump and uniformly dispersed throughout the system.

For maintenance of a non-fouled system:

0.8 – 1.6 GAL per 1000 GAL emulsion (75 – 150 ppm active ingredient) every 4 weeks

HOUSEHOLD, CONSUMER, INDUSTRIAL, INSTITUTIONAL, JANITORIAL PRODUCTS

For the control of bacteria and fungi in liquid and semi-solid/solid soaps, liquid and semi-solid/solid cleaners, liquid and semi-solid/solid detergents, liquid and semi-solid/solid laundry products, liquid and semi-solid/solid dishwashing detergents, waxes, polishes, liquid and semi-solid/solid fabric treatment/refreshers products, liquid and semi-solid/solid air fresheners/deodorizers, car care products, and other similar cleaners. ACTICIDE[®] M10S may also be used for the control of bacteria and fungi in package utility products such as pre-moistened sponges and mops. ACTICIDE[®] M10S may also be used for the control of bacteria and fungi in solutions that are then put into/onto wet wipes for use in industrial, commercial, residential and household uses cited above. Wet wipes containing a solution preserved with this product may not be used as baby wipes, or for food contact. May also be used for the control of bacteria and fungi in package utility products including pre-moistened sponges and mops in uses cited above.

0.04 – 0.16%

0.4 – 1.6 LB (0.2 – 0.7 kg) per 1000 LBS of treated product

THIS ACTICIDE[®] M10S INFORMATION SHEET MUST ACCOMPANY EACH SHIPMENT OF ACTICIDE[®] M10S

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

***PRESERVATIVE FOR TEXTILES/CORDAGE PRODUCTS AND TEXTILE-TEXTILE FIBERS MAKING**

ACTICIDE[®] M10S microbiocide is recommended as a preservative for the control of microorganisms in textiles and non-woven products (such as canvas, carpet, cordage, drapes, and shower curtains), in chemicals commonly used in the production of natural and synthetic fibers and fabrics (such as fiber lubricants, spin finishes, sizes, dyestuffs, textile printing inks, dispersants, thickeners, dye fixatives, hand builders and weighters), and in textile coatings.

**Not approved for this use in the state of California*

0.076 – 0.15%

0.76 – 1.5 LB (0.34 – 0.68 kg) per
1000 LBS of fluid

***IN-CONTAINER PRESERVATIVE**

ACTICIDE[®] M10S is recommended as an in-container preservative for the control of bacteria and fungi in aqueous products such as aqueous emulsions and dispersions including:

- *stabilized oil/water emulsions
- *surface preparation compounds
- *foam control products
- *surfactants
- *nutrient solutions
- *aqueous pesticides which include, but are not limited to, insecticides, termiticides, fungicides, bactericides, algaecides, herbicides, rodenticides [includes use as an in-container preservative for the control of bacteria and fungi in pesticide products for dilution]

**Not approved for this use in the state of California*

0.025 – 0.25%

0.25 – 2.5 LB per 1000 LBS of
treated product to provide 0.025 –
0.25% ACTICIDE M10S in final use
solution

ACTICIDE[®] M10S microbiocide weighs 8.9 lbs. per gallon
