Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:
67186-1

Date of Issuance:
AUG 5 1994

Term of Issuance: Unconditional

NOTICE OF PESTICIDE:
 x Registration
 Reregistration

Name of Pesticide Product:
Victus

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Mauri Laboratories Pty Ltd.
9 Moorebank Avenue
Moorebank NSW 2170
Australia

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is hereby registered in accordance with FIFRA sec. 3(c)(5) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Make the following labeling change before you release the product for shipment: Add the phrase "EPA Registration No. 67186-1".
3. Submit five copies of the final printed label for the record.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

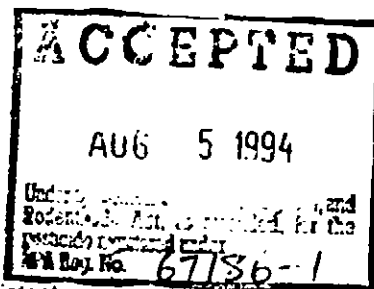

Signature of Approving Official.

Carl S. Gable for Steve Robinson, Acting PM 21

LABEL A

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labelling.

Do not apply through any type of irrigation system.

1. VICTUS may be applied through standard tank sprayer application equipment or lines fed from an application tank.
VICTUS acts by replacement of the bacterial blotch pathogen in mushroom compost and on mushroom tissue, but does not kill bacterial blotch. Therefore, timing of application is critical.
2. Apply to freshly pasteurized compost that has cooled to below 86°F (30°C) within 12 hours of reaching this temperature in the peak heat (Phase II) room. If this is not possible, spray bed surfaces on the spawning line.
3. Apply to freshly made casing on the casing line or at least within 4 hours of casing application.
4. Further applications should be made in conjunction with normal waterings at the onset of pinning and after picking the first flush. Additional applications after the second and third flush can be made where the history of disease is severe.
5. All applications should achieve a coverage of 0.28mL concentrate/ft² (3mL/m²) bed surface. VICTUS may be diluted within the range of 1.89mL/gal to 189mL/gal (1mL/L to 100mL/L) to achieve this coverage. A suggested rate is 18.9mL/gal (10mL/L) applied at 0.59 fluid oz/ft² (300mL/m²) of bed surface.

EXPIRATION DATE:

VICTUS
MUSHROOM BLOTCH CONTROL
CONTROLS BACTERIAL BLOTCH
OF CULTIVATED MUSHROOMS

Active ingredient: *Pseudomonas fluorescens* strain NCI 82
Inert ingredients:

Total:
(Active ingredient equivalent to 3.500)

Establishment Registration Number 67186-AU-01
VICTUS is a specially prepared formulation containing live bacteria which are naturally on mushroom tissue. The liquid is mixed with water and applied through standard application equipment for liquid mushroom beds. VICTUS controls bacterial blotch (*Pseudomonas tola*) application at the specified times.

GENERAL INSTRUCTIONS:

**PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals**

CAUTION — Avoid contact with eyes and skin. Do not inhale spray mist. Wash hands thoroughly after use.

SHAKE WELL BEFORE USE

MIXING AND APPLICATION — Ensure spray lines and tanks contain no detectable available chlorine residuals. Residuals may be tested for with standard swimming pool reagents. Add required quantity of VICTUS to clean chlorine free water in tank and agitate thoroughly. Surface application is sufficient. Mixing with compost is not required.

COMPATIBILITY — VICTUS is not compatible with other pesticides or bactericides. Other pesticide application should be made before or after treatment with VICTUS.

STORAGE — Store in original container, tightly closed at a temperature of 39°F (4°C) or below, do not freeze. Do not expose to direct sunlight. Use VICTUS before the expiration date.

CONTAINER DISPOSAL — Rinse container and dispose of in trash.

PESTICIDE DISPOSAL — Pesticide disposal can be carried out on site. VICTUS can be disposed of in the same manner as sanitary wastes in an approved treatment system for sanitary wastes.

WARRANTY — Buyer assumes all risks of use, storage, and handling of this material not in strict accordance with directions given herewith.
