UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
WASHINGTON, D.C. 20460-0001

OFFICE OF CHEMICAL SAFETY
AND POLLUTION PREVENTION

DEC 4 2013

Mr. William E. Currie
Marvin Haney, Perma-Guard, Inc.
625 East 2150 South
Bountiful, UT 84010

Subject: Amended Reregistration Label
Product Name: Perma-Guard Household Insecticide
EPA Registration Number: 67197-2
EPA Decision Number(s): 411752

Dear Mr. Currie:

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the reregistration of the above referenced product in connection with the Pyrethrins and Piperonyl Butoxide RED(s), and has concluded that your submission is acceptable.

NOTE: This product is **not** being reregistered under sections 3(c)5 and 4(g) of FIFRA at this time.

Please note that the record for this product currently contains the Confidential Statements of Formulation (CSFs) listed below. Any previously dated CSFs are superseded.

- Basic CSF, dated [January 31, 2013]

A copy of your label stamped "Accepted" is enclosed along with copies of the acute toxicity and product chemistry reviews completed for the subject product. Products shipped after 12 months from the date of this amendment or the next printing of the label whichever occurs first, must bear the new revised label. Your release for shipment of the product bearing the amended label constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e).

If you have any questions about this letter, please contact Dani Daniel at (703)305-5409 or via e-mail at daniel.dani@epa.gov

Sincerely,

Richard J. Gebken
Product Manager (10)
Insecticide Branch
Registration Division (7504P)

*Enclosures: Label stamped "Accepted," dated
Acute Toxicity Review, dated (January 4, 2012)
Product Chemistry Review, dated (February 5, 2013)*

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS & DOMESTIC ANIMALS

Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

CAUTION

Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Remove contaminated clothing and wash before reuse.

Environmental Hazards

This product is toxic to aquatic organisms, including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

Do not make outdoor applications during rain.

Do not wet plants to point of runoff or drip.

Do not wet articles to point of runoff or drip.

Do not use treated article until spray has dried.

For outdoor residential use: Do not water the treated area to the point of run-off.

STORAGE AND DISPOSAL

Pesticide Storage - Store in a cool dry place, out of sunlight. Keep container closed. Do not contaminate water, food or feed by storage and disposal.

Pesticide Disposal - Many local governments collect these products.

Container Handling: If Empty: Do NOT reuse this container. Place in trash or offer for recycling if available. **If Partly Filled:** Call your local solid waste agency for disposal instructions. Never place unused product down ANY indoor or outdoor drain.

PERMA GUARD HOUSEHOLD INSECTICIDE

D-20

USE WET OR DRY

For control of: ants, fire ants, bedbugs, box elder bugs, crickets, scorpions, fleas, flies, roaches and silverfish.

ACTIVE INGREDIENTS:

Pyrethrins	0.2%
Piperonyl Butoxide*	1.0%
Silicon Dioxide (from Diatomaceous Earth)	88.0%
OTHER INGREDIENTS	10.8%
Total	100.0%

*(Butylcarbityl) (6-propylpiperonyl) ether and related compounds.

USER SAFETY RECOMMENDATIONS

User should wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.

User should remove clothing/PPE immediately if pesticide gets inside. Wash the outside of gloves before removing. As soon as possible wash thoroughly and change into clean clothing.

User should remove PPE immediately after handling this product. Wash the outside of gloves before removing, as soon as possible, wash thoroughly and change into clean clothing.

KEEP OUT OF THE REACH OF CHILDREN

CAUTION

FIRST AID

Call a Poison Control Center or doctor immediately for treatment advice.

IF ON SKIN OR CLOTHING:

Take off contaminated clothing.

Rinse skin immediately with plenty of water for 15-20 minutes.

IF IN EYES:

Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

Have the product container label with you when calling a Poison Control Center or doctor, or going for treatment. You may also contact 1-800-222-1222 for emergency medical treatment information.

SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Apply this product only as specified on the label. This product is labeled to be used in and around the home, yard, and animal housing. It can be applied as a dry dust or mixed with water at the rate of 2 ounces per quart and sprayed as a liquid.

NOTE: 1 ounce of this product is 8 level teaspoons. Food utensils such as teaspoons and measuring cups must not be used for food purposes after use with pesticides. The dust does not dissolve, and to help keep it in suspension, add one tablespoon of mild detergent per gallon of water, and agitate the sprayer now and then. With either method, the idea is to coat all areas where bugs may be. Applied into cracks and crevices is useful and effective.

Do not allow adults, children or pets to enter the treated area until sprays have dried or dusts have

ACCEPTED
DEC 04 2013

Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended, for the
pesticide registered under:

EPA Reg. No. 6719-7-2

settled.

Do not apply this product in a way that will contact adults, children or pets, either directly or through drift. Remove pets, birds and cover fish aquariums before spraying.

Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food preparation surfaces, or wash them before use.

Remove or cover exposed food and drinking water before application. Remove or cover dishes, utensils, food processing equipment and food preparation surfaces, or wash before use.

Do not apply directly into sewers or drains, or in any area like a gutter where drainage to storm sewers, water bodies or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

Other than applications to building foundations, all outdoor applications to impervious surfaces such as sidewalks, driveways, patios and structural surfaces (such as windows, doors and eaves) are limited to spot and crack-and-crevice applications only. Not for use in outdoor residential misting systems.

Residential Outdoor Surface and Space Sprays. All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:

- (1) Treatment to soil or vegetation around structures;
- (2) Applications to lawns, turf and other vegetation;
- (3) Applications to building foundations, up to a maximum height of 3 feet.

Entry Restrictions for Product Applied as a Surface Spray:

Do not enter or allow others to enter until sprays have dried.

Entry restriction for Product Applied Dry:

Do not enter or allow others to enter until dusts have settled.

equipment to handle dust or powder, whether it be hand or power operated.

ANTS: Dry Powder: Stir the mound with a rake or other tool, agitating the ants. Apply **Perma Guard Household Insecticide** dust liberally on the immediate area, contacting as many ants as possible. **Wet Application:** Use one-half cup of **Perma Guard Household Insecticide** with a tablespoon of a mild detergent per gallon of water. Saturate the mound or bed with the entire gallon of mixture.

FIRE ANTS: Dry Powder: For faster knockdown! Stir the fire ant mound with a rake or other tool agitating the ants. Apply **Perma Guard Household Insecticide** liberally on the immediate area, contacting as many ants as possible. **Wet:** Mix four tablespoonfuls to one-half cup of **Perma Guard Household Insecticide** with a tablespoon of a mild detergent in a gallon of water. Stir the fire ant mound with a rake or other tool to agitate the fire ants. Drench each individual fire ant mound with a gallon of the mixture.

BEDBUGS: Take bed apart. Dust directly into all cracks, joints & inside framework, as well as box springs. Dust tufts, folds & edges of mattress. After four hours vacuum the dust from the mattress. Cover mattresses after treatment. Picture frames, moldings & cracks or crevices in the room must also be treated for best results.

BOX ELDER BUGS, CRICKETS & SCORPIONS: Dust lightly areas around windows, doors & other places where these pests may enter.

FLEAS: Rugs: Make a thin coating on rug. Rake (not sweep) nap back and forth, causing dust to enter rug. Leave overnight. When cleaning do not make special effort to remove dust in rug. It will kill live fleas, repel others, and will deodorize carpet. **Outside Area:** Apply 8 to 16 oz. of dust per 1000 sq. ft. of yard. Two or three applications per year as necessary. This can be done as dry dust or as wettable powder, using suitable equipment.

FLIES: Lightly coat window sills so flies lighting will contact the dust. If the outside walls of the house, shrubbery, outbuildings, such as barns, stables, kennels or corrals are dusted, flies are greatly

reduced.

ROACHES & SILVERFISH: In most cases general application is not needed, but localized attention to cracks & crevices, under stoves & refrigerators, and in likely hiding places. Be sure to treat around sinks and drain pipes. Do not apply directly into sewers or drains, or to any area like a gutter where drainage to storm sewers, water bodies or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

WARRANTY STATEMENT

Seller warrants that this product conforms to the ingredient statement on the label. Since conditions of use, such as weather, compatibility with other chemicals, and conditions of application equipment, will vary, seller makes no claims other than those stated on the label.
