PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS (& DOMESTIC ANIMALS)

CAUTION: Avoid contact with eyes, skin or clothing. Wear goggles or safety glasses. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Use adequate ventilation and avoid breathing dust.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and other aquatic organisms. Do not apply directly to any body of water. Do not contaminate water by disposing of equipment wash rinses. Apply this product only as specified on this label. **STORAGE AND DISPOSAL:** Do not contaminate water, food or feed by storage and disposal. **Storage:** Store in a cool dry place, out of sunlight. Keep container closed. **Disposal:** many local governments collect these products. **if empty;** Do NOT reuse this container. Place in trash or offer for recycling if available. **if partly filled:** Call your local Solid Waste Agency for disposal instructions. Never place unused product down ANY indoor or outdoor drain.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), and restricted entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Personal Protective Equipment: Applicators and other handlers must wear long sleeved shirt and long pants, shoes plus socks, waterproof gloves. Follow manufacturer's instructions for cleaning & maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your state or tribe, consult the agency responsible for pesticide regulation.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water are:

- Coveralls
- Waterproof gloves
- Shoes plus socks

PERMA GUARD GARDEN AND PLANT PROTECTION INSECTICIDE

D-21

USE WET OR DRY
MULTI-PURPOSE

This is an effective material for insect control on FIELD CROPS, COMMERCIAL OR HOME GREENHOUSES, YARDS, and GARDENS.

ACTIVE INGREDIENTS:

Pyrethrins	0.1%
Technical Piperonyl Butoxide*	1.0%
Silicon Dioxide (from Diatomaceous Earth)	88.5%
INERT INGREDIENTS	10.4%
Total	100.0%

*Equivalent to 0.8% (butylcarbityl) (6-propylpiperonyl) ether and 0.2% related compounds.

KEEP OUT OF THE REACH OF CHILDREN.

CAUTION

FIRST AID

Call a Poison Control Center or doctor immediately for treatment advice.

IF ON SKIN OR CLOTHING:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.

IF IN EYES:

- Hold eyes open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continue rinsing eye.

Have the product container label with you when calling a Poison Control Center or doctor, or going for treatment.

11/3/2007

PERMA GUARD GARDEN AND PLANT PROTECTION INSECTICIDE CAN BE USED ON FIELD CROPS, COMMERCIAL AND HOME GREENHOUSES, YARDS AND GARDENS EVEN ON THE DAY OF HARVEST FOR THE INSECTS LISTED.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Do not apply this product through any type of irrigation system.

DRY APPLICATION RATES: The goal is to get coverage over the entire plant, especially under the leaves. For young plants, as little as two pounds per acre may be sufficient. For larger plants, five lbs/acre may be necessary. With denser growth, it may be necessary to increase amount. An examination of the leaves will tell if the leaf bottom is covered. For yards and gardens, apply to get light, thorough coverage.

APPLICATION EQUIPMENT: A good dust applicator is essential and should be equipped with electronic nozzles, which put a negative charge on the dust. The plant being positive attracts the dust resulting in better coverage even on leaf bottom. A hand-held duster or a plastic squeeze bottle container with a fine nozzle works well for yards and gardens.

WET APPLICATION RATES: The same rates apply when using PERMA GUARD GARDEN AND PLANT PROTECTION INSECTICIDE AS A WETTABLE POWDER. Adding water is merely a means of using existing spray equipment.

MIXING INSTRUCTIONS:

MINIMUM: 1 lb to 2 gals water.
MAXIMUM: 1 lb to 25 gals water.

The purpose is to get a solution that will flow easily through the nozzle, and still put the recommended amount of product. It is essential to get coverage on the underside of the leaf.

GREENHOUSE, YARD AND GARDEN PLANTS: The same application instructions apply. Get coverage on top and bottom of leaf. Apply either wet or dry.

APPLICATION EQUIPMENT: A variety of equipment is available, from small hand units, backpacks, and tractor equipment, some capable of applying either wet or dry.

WARRANTY STATEMENT: Seller warrants that this product conforms to the ingredient statement on the label. Since conditions of use, such as weather, compatibility with other chemicals, and conditions of application equipment, will vary, seller makes no claims other than those stated on the label.
