67197-4

Date of Issuance:
APR 5 1995

NOTICE OF PESTICIDE:
 X Registration
 Reregistration

Term of Issuance:
Conditional

Name of Pesticide Product:
Perma Guard Pyre-Kill
Insecticide

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Perma Guard, Inc.
410 12th Street NW
Albuquerque, NM 87182

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label changes:

- a. Revise the EPA Registration Number to read, "EPA Reg. No. 67197-4".
- b. In the ingredient statement replace diatomaceous earth with Silicon Dioxide (from diatomaceous earth).
- c. Under the Hazards to Humans and Domestic Animals section make the following addition:
 - Add the heading **Personal Protective Equipment** before the statement "Applicators and other handlers must wear:".

Signature of Approving Official:

Date:

(CA

2013

d. Please clarify, in writing, the designation D-21 which appears on the label.

3. Submit two copies of the revised final printed label for the record. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

EPA Establishment No. 6330-NM-001

WARRANTY STATEMENT AND COMMENTS

Seller warrants that this product conforms to the labeled statement on the label. Since conditions of use, such as weather, compatibility with other chemicals, and conditions of application equipment, will vary, seller makes no claims other than those stated on the label.

DISTRIBUTED BY:

ACCEPTED
Under the Federal Insecticide, Fungicide, and Rodenticide Act held units, to backpacks: some can be amended, for the pesticide dry, registered under EPA Reg. No.

05 APR 1995
67197-4

DIRECTIONS:

It is a violation of Federal Law to use this product in a way inconsistent with its labeling. Do not apply this product in a way that may harm other persons, either directly or through drift. Always follow requirements specific to your State or local jurisdiction responsible for pesticide regulation.

AGRICULTURAL USE:

Use this product only in accordance with the Worker Protection Standard, 40 CFR 155.551. This product contains requirements for the protection of farm workers, farm families, farm neighbors, and other agricultural pesticides. It contains specific instructions and statements on this label about personal protective equipment (PPE), and restricted entry intervals (REI) that apply to uses of this product under the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and for which the pesticide label has been treated: • Coveralls • Waterproof gloves

DRY APPLICATION RATES: The entire plant, especially under the leaves. Apply as little as two pounds per acre may be sufficient. Five lbs/acre is probably sufficient. Increase amount, if necessary, to increase amount. Always tell if the leaf bottom is covered.

APPLICATOR: A good dust applicator should be equipped with electronic nozzle. The plant being treated should be covered with a better coverage even on leaf bottom.

WET APPLICATION RATES: The entire plant, especially under the leaves. Apply as little as two pounds per acre may be sufficient. Five lbs/acre is probably sufficient. Increase amount, if necessary, to increase amount. Always tell if the leaf bottom is covered.

GARDEN AND YARD PLANTS: coverage on top and bottom of leaf.

APPLICATORS: A variety of unit types, including backpacks, some can be amended, for the pesticide dry, registered under EPA Reg. No.
