Application for Pesticide - Section I

1. Company/Product Number 67262-7	2. EPA Product Manager 32	3. Proposed Classification <input checked="" type="checkbox"/> None <input type="checkbox"/> Restricted
4. Company/Product (Name) Aqua Chem Balanced For Clean Spas Stabilized Granules	PM# R. Douglas	
5. Name and Address of Applicant (Include ZIP Code) Recreational Water Products, Inc. P.O. Box 887 Scottdale, GA 30079 <input type="checkbox"/> Check if this is a new address	6. Expedited Review. In accordance with FIFRA Section 3(c)(3) (b)(i), my product is similar or identical in composition and labeling to: EPA Reg. No. _____ Product Name _____	

Section - II

<input type="checkbox"/> Amendment - Explain below.	<input checked="" type="checkbox"/> Final printed labels in response to Agency letter dated <u>July 29, 1993</u>
<input type="checkbox"/> Resubmission in response to Agency letter dated _____	<input type="checkbox"/> "Me Too" Application.
<input checked="" type="checkbox"/> Notification - Explain below.	<input type="checkbox"/> Other - Explain below.

Explanation: Use additional page(s) if necessary. (For section I and Section II.)

Notification per PR Notice 93-10. This is to certify that this notification meets every requirement of PR Notice 93-10.

Section - III

1. Material This Product Will Be Packaged In:				2. Type of Container	
Child-Resistant Packaging <input type="checkbox"/> Yes* <input type="checkbox"/> No	Unit Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No	Water Soluble Packaging <input type="checkbox"/> Yes <input type="checkbox"/> No		<input type="checkbox"/> Metal	<input type="checkbox"/> Plastic
				<input type="checkbox"/> Glass	<input type="checkbox"/> Paper
* Certification must be submitted	If "Yes" Unit Packaging wgt.	No. per container	If "Yes" Package wgt	No. per container	Other (Specify) _____
3. Location of Net Contents Information <input type="checkbox"/> Label <input type="checkbox"/> Container		4. Size(s) Retail Container		5. Location of Label Directions <input type="checkbox"/> On Label <input type="checkbox"/> On Labeling accompanying product	
6. Manner in Which Label is Affixed to Product <input type="checkbox"/> Lithograph <input type="checkbox"/> Paper glued <input type="checkbox"/> Stenciled			<input type="checkbox"/> Other _____		

Section - IV

1. Contact Point (Complete items directly below for identification of individual to be contacted, if necessary, to process this application.)		
Name Mark Jernigan	Title Federal Registration Manager	Telephone No. (Include Area Code) (404)378-1761 ext. 359
Certification I certify that the statements I have made on this form and all attachments thereto are true, accurate and complete. I acknowledge that any knowingly false or misleading statement may be punishable by fine or imprisonment or both under applicable law.		6. Date Application Received (Stamped)
2. Signature 	3. Title Federal Registration Manager	7-2 8-1/95 14 197
4. Typed Name Mark Jernigan	5. Date 7/14/95	

PRODUCT DESCRIPTION: Aqua Chem® Balanced For Clean Spas Stabilized Granules are a convenient way to regulate the chlorine that sanitizes your spa or hot tub. As granules dissolve, they release sufficient chlorine to reduce the growth of harmful algae and micro-organisms which can multiply to produce unsanitary water conditions.

IMPORTANT NOTES: 1. When using other Aqua Chem products, as outlined in directions for Aqua Chem Stabilized Granules, always follow label directions for those products. 2. Aqua Chem Stabilized Granules may cause damage to colored plaster, vinyl, wood or fiberglass spa or hot tub surfaces. If you are unsure of the materials composing your spa or hot tub, check with the manufacturer. 3. Sunlight, water temperature, the number of bathers and the frequency and duration of spa use affect the rate of chlorine loss. Adjust frequency of chlorine applications accordingly. 4. Superchlorination (shock treatment) should be done at least twice a month or more frequently if spa is heavily used. For this purpose, use Aqua Chem Shock Treatment for Spas following label directions for superchlorination below.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in any manner inconsistent with its labeling.

BEFORE YOU BEGIN: 1. Make sure all spa equipment is working properly. 2. Check water pH (acidity/alkalinity balance) with an Aqua Chem Test Kit, following label directions. Desirable pH range is 7.4-7.6. If necessary adjust pH by adding Aqua Chem pH Decreaser to lower pH, or by adding Aqua Chem pH Add to raise pH. Be sure to follow label directions.

NOW USE AQUA CHEM STABILIZED GRANULES FOR ROUTINE SANITIZING:

1. Check residual chlorine level with an Aqua Chem Test Kit. Desirable range is 1.0-2.0 parts per million (ppm). 2. To raise residual chlorine level, add Aqua Chem Stabilized Granules at a rate of 2 tablespoons per 500 gallons by scattering granules over water surface. 3. Operate recirculating pump while adding product and for at least 1 hour afterward to ensure even distribution. 4. Recheck residual chlorine with test kit. If level is below 1.0 ppm, repeat application until desired chlorine level of 1.0-2.0 ppm is achieved. 5. To maintain desirable chlorine levels, add Stabilized Granules for Spas at a rate of 1 teaspoon per 500 gallons of water whenever residual chlorine levels drop below 1.0-2.0 ppm as measured by a test kit.

FOR SUPERCHLORINATION: 1. Add Aqua Chem Stabilized Granules for Spas at a rate of 6 teaspoons per 500 gallons of water by scattering granules over water surface following directions above. 2. Do not allow bathers in spa until residual chlorine level is below 3.0 ppm, as measured by a test kit.

STORAGE AND DISPOSAL: Keep this product in tightly closed original container, when not in use. Store in a locked, cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all materials before discarding this container. Do not reuse empty container but place in trash collection. Do not contaminate food or feed by storage, disposal, or cleaning of equipment.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS. DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS/STRONG OXIDIZING AGENT: Mix only with water. Use clean utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STATEMENT OF PRACTICAL TREATMENT: If swallowed: Drink promptly a large quantity of water. Do not induce vomiting. Avoid alcohol. Never give any liquids by mouth to any unconscious person. Call a physician immediately. **W in eye:** Flush with plenty of water for 15 minutes. Get medical attention. If on skin: Wash with plenty of soap and water. Get medical attention if irritation persists.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

IN THE EVENT OF A MEDICAL EMERGENCY CALL 1-363-623-5716.
