PRODUCT DESCRIPTION: Aqua Chem® Algaecide Granules are a potent way to destroy algae and bacteria growth. Their quick-dissolving granular form makes this product safe to use on most pool surfaces under normal conditions, when used as directed.

IMPORTANT NOTES:

1. For vinyl or colored plastered pools, mix Aqua Chem Algaecide Granules with water in a plastic container. Allow granules to dissolve, then pour concentrated solution into pool, preferably at deep end.
2. Sunlight, rainfall, temperature, number of swimmers and frequency of pool use all affect the rate at which unsanitary pool water conditions develop. Adjust the frequency of chlorine applications and pool maintenance accordingly.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in any manner inconsistent with its labeling BEFORE YOU BEGIN.

1. Make sure all pool equipment is working properly, including pump, filter, skimmer and heater.
2. Backwash filter following manufacturer's directions.
3. Check water pH (acidity/alkalinity balance) with an Aqua Chem Test Kit following label directions. Water pH should be 7.2-7.6. If not, adjust by adding Aqua Chem pH Decreaser to lower pH or Aqua Chem pH Add to raise pH. Be sure to follow product directions.
4. Recheck pH and maintain it between 7.2-7.6 for at least 6 hours before adding Aqua Chem Algaecide Granules.

NOW USE ALGAECIDE GRANULES

TO REMOVE EXISTING ALGAE GROWTH:

1. Add Aqua Chem Algaecide Granules at a rate of 2 cups (16 fl. oz.) per 5,000 gallons of pool water by scattering granules over water surface at deep end of pool. Wear goggles or face shield and rubber gloves. Also avoid contamination of clothing. (See First Aid information elsewhere on this label.)
2. Operate recirculating pump while adding granules and for 6 hours thereafter to ensure even distribution of chemical in water.
3. Wait approximately 24 hours, then brush dead algae from pool walls and bottom, and remove any remaining algae spots.
4. Following algae removal, recheck pH and adjust if necessary, following directions outlined above.
5. Check residual chlorine level with an Aqua Chem Test Kit. Do not allow swimmers in pool until residual chlorine level is no more than 3.0 parts per million (ppm) or below.

TO PREVENT ALGAE GROWTH:

1. Superchlorinate (shock treat) pool water once every 2-4 weeks, using Aqua Chem Shock Treatment. Follow label directions for this product.

STORAGE AND DISPOSAL: Keep this product in tightly closed original container when not in use. Store in a locked, cool, dry, well-ventilated area away from heat or open flame. In case of decomposition, isolate container (if possible) and flood area with large amounts of water to dissolve all materials before discarding this container. Do not

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS, DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS-STRONG OXIDIZING AGENT: Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not re-seal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

STATEMENT OF PRACTICAL TREATMENT: If swallowed, promptly drink one or two large glasses of water. Avoid alcohol. Call a physician immediately. If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. If in eyes: Flush with cold water for at least 15 minutes. Get medical attention. **IN THE EVENT OF A MEDICAL EMERGENCY CALL 1-800-823-5716.**

NOTE: This product is sold by weight. Settling of contents during storage and handling will occur.

If you have any questions or comments about Aqua Chem Products or their use, please call us toll free. In the continental U.S. call 1-800-252-POOL. Ask for your free pool care booklet.
