NON-FOAMING ALGICIDE

{Optional marketing statements that may be used with swimming pool algicide.}

[Prevents Algae Growth]

[For Use in All Pool Types]

[Ideal For Pools with Attached Spas]

{Optional marketing statement that may be used with spa and hot tub algicide.}

[Prevents Algae Growth]

ACTIVE INGREDIENT:

Poly (oxyethylene (dimethyliminio)ethylene-
(dimethyliminio) ethylene dichloride)

Other Ingredients:

TOTAL INGREDIENTS:

30.0%

70.0%

100.0%

ACCEPTED

SEP 28 1998

Under the Federal Insecticide, Fungicide, and
Rodenticide Act as amended, for the
pesticide, registered under
EPA Reg. No. 67262-20

CAUTION

KEEP OUT OF REACH OF CHILDREN

FIRST AID: IF CONTACT WITH EYES OCCURS: Immediately flush with cold water for at least 15 minutes. Then get immediate medical attention. IF CONTACT WITH SKIN: Wash off excess chemical with soap and water and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention. IF INHALED: Remove to fresh air. If breathing is difficult, have trained person administer oxygen. If not breathing, give artificial respiration. Call a physician immediately. IF SWALLOWED: Drink large amounts of water. Do not induce vomiting. Avoid alcohol. Call a physician or poison control center immediately.

[IN CASE OF MEDICAL EMERGENCY, CALL [1-303-623-5716] [telephone number supplied by supplemental registrant].]

See [back] [side] panel for additional precautionary statements.

NET CONTENTS:

{Directions to be used for swimming pool algicide.}

POOL ALGICIDE

WHY TO USE THIS PRODUCT: This product is an extra strength algicide specially formulated to prevent the establishment of all types of algae in your pool. For treatment of algae infestations, use Vinyl Pool Algae Killer in vinyl pools or [White Plaster Pool Algae Killer] [Aqua Chem Balanced for Clean Pools Black-Out] in white plaster pools. For treatment of mustard or yellow colored algae, use [Mustard Algae Killer] [a mustard algae killer].

IMPORTANT NOTES:

1. When using other products, as outlined in directions for this product, always follow label directions for those products.
2. Sunlight, rainfall, temperature, number of swimmers and frequency of pool use affect the rate of chlorine loss. Adjust cleaning and chemical maintenance accordingly. To prevent the establishment of harmful algae and micro-organisms, superchlorinate (shock) pool every 2-4 weeks.

BEFORE YOU BEGIN:

1. Ensure all pool equipment is working properly. Backwash filter following manufacturer's directions.
2. Adjust stabilizer levels to 40-50 ppm by adding Stabilizer.
3. Check water alkalinity, pH and calcium hardness with a test kit. Adjust alkalinity to 80-125 ppm for plaster pools, 125-150 for vinyl or fiberglass pools by adding an alkalinity increaser. Adjust pH to 7.2 - 7.6 by adding a pH decreaser to lower pH, or by adding a pH increaser to raise pH. Adjust calcium hardness to 200-275 ppm for plaster pools, 175-225 for vinyl or fiberglass pools by adding a calcium hardness increaser.
4. Check and adjust residual chlorine level to desirable range of 1-3 ppm.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

NOW USE THIS PRODUCT:

1. For prevention of algae growth in freshly cleaned or filled pools, add 13-24 fluid ounces of this product per 10,000 gallons into water at deep end of pool. For treatment of light algae growth, pour directly into pool water 24-36 fluid ounces of this product per 10,000 gallons water.
2. Operate recirculating pump while adding this product and for 4 hours afterward to ensure complete distribution.
3. To reduce future growth of algae and micro-organisms, add this product weekly at a rate of 4-9 fluid ounces per 10,000 gallons, or more frequently depending on usage conditions.

{Directions to be used for spa and hot tub algicide.}

SPA ALGICIDE

WHY TO USE THIS PRODUCT: This product efficiently and economically reduces the growth of algae in spas and hot tubs. It is designed for use as part of your routine maintenance program, **not** for removal of heavy algae growths.

IMPORTANT NOTES:

1. When using other products, as outlined in directions for this product, always follow label directions for those products.
2. Sunlight, rainfall, temperature, number of swimmers and frequency of spa use affect the rate of sanitizer loss. Adjust cleaning and chemical maintenance accordingly. To prevent the establishment of harmful algae, superchlorinate (shock) spa weekly.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in any manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

BEFORE YOU BEGIN:

1. Ensure all spa equipment is working properly. Clean filter following manufacturer's directions.
2. Check water alkalinity, pH and calcium hardness with a test kit. Adjust alkalinity to 80-125 ppm for plaster spas, 125-150 for other types of spas by adding an alkalinity increaser. Adjust pH to 7.2-7.6 by adding a pH decreaser to lower pH, or by adding a pH increaser to raise pH. Adjust calcium hardness to 200-275 ppm for plaster spas, 175-225 for other types of spas by adding a calcium hardness increaser.

NOW USE THIS PRODUCT:

1. To remove existing algae where growth has become visible, pour product directly into spa at a rate of 2-4 fluid ounces per 1,000 gallons of water. Operate recirculating pump while adding product and for one hour afterward to ensure even distribution and maximum effect.
2. For newly cleaned and filled spas or hot tubs, pour product directly into spa at a rate of 1-2 fluid ounces per 1,000 gallons of water. Operate recirculating pump while adding product and for one hour afterward.
3. To reduce future growth of algae, a regular maintenance application of this algicide is recommended. Add product weekly at a rate of 0.5-0.8 fluid ounces per 1,000 gallons or more frequently depending on usage conditions, following directions above.
4. Recheck pH, total alkalinity, residual chlorine levels following treatment and adjust as necessary.

STORAGE AND DISPOSAL Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. In case of decomposition, isolate container if possible and flood area with large amounts of water to dissolve all material before discarding this container. Do not contaminate food or feed by storage or disposal. **CONTAINER DISPOSAL:** Do not reuse container, but place in trash collection. Rinse thoroughly before discarding in trash.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS: CAUTION: Avoid contact with eyes, skin, or clothing. Harmful if swallowed. Wear goggles or safety glasses and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing vapors. Remove and wash contaminated clothing before reuse. For skin or eye contact, or if vapors are inhaled, immediately follow first aid instructions on front label panel.

PHYSICAL OR CHEMICAL HAZARDS: Do not mix with other chemicals. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with other chemicals may start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood area with large volumes of water.

{Environmental hazards statement for end-use products in containers of less than 5 gallons (liquid) or less than 50 pounds (solid, dry weight).}

[ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.]

{Environmental hazards statement for end-use products in containers of equal to or greater than 5 gallons (liquid) or equal to or greater than 50 pounds (solid, dry weight).}

[ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.]

NOTE: Buyer assumes all responsibility for safety and use not in accordance with directions.

{The following is optional text to be used at Recreational Water Products' discretion with swimming pool use directions. This information is non-essential and will be provided only as a courtesy. Will not appear on all swimming pool products.}

HOW TO CALCULATE POOL CAPACITY

Shape of Pool	Gallons of water
Rectangular	Average depth x average length x average width x 7.5
Circular	Diameter x diameter x average depth x 5.9
Oval	Full width x full length x average depth x 6.7
Irregular	Consult pool builder
